## The Secret of the Old Chateau

By DAVID WHITELAW.

"Good evening, Vivian," he

eh?" interrupted Eddie.

Synopsis of Previous Chapters. Vivian Renton and Eddie Haverton, of the western down, and was staining modern soldiers of fortune, have been the sky with orange and rose and gambling with Hubert Baxenter, a glory. The air was cool here under prospercus attorney, in his London the trees, and perfumed with mosses, spartments. After their departure and alive with the vespers of birds late at night Renton returns to the and the tiny hum of insects.

house, murders Baxenter and hides For perhaps an hour the man paced the body on the roof. While waiting up and down between the beech trunks for night to come again in order to before he noticed that a rose-colored make his escape, he finds in a desk a light was shiring out from the diningcurious old yellowed document telling room, and Eddie knew that his waitof a mysterious chest left in the care ing was over. He recrossed the bridge of one of Baxenter's ancestors by a French nobleman, the Marquis de Dartigny, of the Chateau Chauville. The chest has been handed down from one generation of Baxenters to another and carefully guarded in the hope that some day its rightful owner will be found. Penton desides to near will be found. Renton decides to poso looking through some papers, and the as the missing heir and claim the watcher by the window could see chest. in China, you know," with a little laugh. "By the way, I'm sorry I'm such a poor hand at a disguise.'

Eddie folded up the slip of pink paper and put it in his waistcoat

"The disguise, dear boy, is excellent, I'd have passed you in the street any day. But there's not twenty men in London who smoke 'La Rebenas' cigars— and I understand that prawns in apsic still hold their fasrination over you—remember them at Scott's? Mr. Dartin, I felt rather ashamed of you this afternoon—I did really. Nerves are like some other things they get rusty if you don't use them."

CHAPTER XIV.

The Crest. Stella Benham held the glittering own mind that they were identical. He object away from the multitudinous raised his head and looked at Mrs. folds of tissue paper in which it had Benham. been wrapped, and the corners of her pretty mouth drooped ever so little. From over the coffee-urn Mrs. Benham waited for information.

"It's from Robert, mummy-there's no letter, only a card With many happy return, from your pal, Bobby. The girl gave the paper a final shake "I thought he would have been here; he's never missed before," and Stella handed the slender chain with the odd-shaped locket across the table as she spoke. Mrs. Benham took it and laid it by her plate while she searched for her glasses.

Her daughter had her head bent over her correspondence, which, this birthday, was proportionately large, say the least. It is true that a great or she would have noticed the look The sun had reached the top ridge of wonder which quakened in Mrs. Benham's eyes as she peered through her spectacles at the crest and started to flood your cellar you may have them, almost as nice and fresh as the day they were picked. Field and Stream was this: Here was would not start to bale it out. The of wonder which quickened in Mrs. at first intended giving Stella Mr. would not start to bale it out. The Cather the ears the same day they Dartin's gift to him at once, but on first thing you would do would be to are to be canned. Remove all husk half a mile wide, full of submerged second thought had decided to wait stop the leak, and then set about rid- and silk, then put in boiling water forests and unquestionably full of fish until the girl's tenthday, so that it ding the basement of water. So why and cook for ten minutes.
