Fear Business To Buy Implements On Time

Simcoe, Feb. 28.—Over 200 farmers were in town to-day attending illustrated lectures on tractor farming given at the Lyric Theatre. A local dealer, it is said, arranged with the ladies of the Baptist church for the serving of a dinner to all at the church dining-room. The lecturer told the farmers that it was bad business to purchase implements on term settlements, paying all the way from eight to thirty per cent. for the accommodation, while their money in the bank was bringing but three per cent. He deplored, too, the carelessness of farmers in leaving costly implements out in the weather when not in use. He condemned heavy tractors for farm work and thought the tractor, to pay its way, should be at work at least 150 days of the year.

An Englishman, a Scotchman, and an Irishman were indulging in reminiscences of sporting occasions. "The closest race I ever saw was a yacht race," said the Englishman, "in which one of the boats which had been recently painted won by the breadth of the coat of paint." "The closest race I ever saw," declared the Scotchman, "was one in which a horse stung by a bee, won by the height of the swelling on his nose." "The closest race I ever saw," said the Irishman, "is the Scotch race."
