Courage is a thing that most of us need when it comes to facing the hard places in life. Sooner or later we all have them to face and if we could only learn to march bravely up to them we would find that they lose half their terror. Being afraid of trouble is not going to make it go away. You will have to face it just the same.

Boost It Along!

During the past week Mr. Wm. Parkinson has made good progress toward securing funds for the erection of a rink and is now only \$1,000 short of the required amount. The shares are selling at ten dollars. There should be little trouble in securing the balance. No doubt there are many in the surrounding district who would gladly take a few shares. If you have not already subscribed see Mr. Parkinson. The rink will be a great convenience to the young people of the district. Be a booster and help it along.

Marie, the four year old daughter of Mr. and Mrs. B. O'Rourke, Caledonia, met with an unfortunate accident there on Friday last. Action Against Attorney-General

Frank Lalor, M.P., and David Hastings to Sue Hon. W. E. Raney

Dunnville, March 20.—It was announced yesterday morning that Walter Robb, solicitor, had been instructed to bring an action for libel against Hon. W. E. Raney, Attorney-General of Ontario, on behalf of Frank Lalor, M.P. for Haldimand, and David Hastings, the local magistrate, who has been under suspension since last December. The writs will be issued in the Supreme Court on Monday and the sum of \$50,000 will be asked for.

The actions are the result of statements made to the deputation which waited on the Attorney-General some months ago, asking that Mr. Hastings be reinstated. No further action will be taken by W. A. Fry in the threatened slander suit against one of the witnesses till after the copy of the testimony is received from the court reporter.

County Institute Directors

A meeting of the Directors of Haldimand County Women's Institute, was held in the Presbyterian church, Dunnville, on Friday, March 11th. The meeting was largely attended, and the reports indicated a very successful year. After the meeting a general meeting was held, at which Mrs. Courtice, Secretary and organizer of the Home and School Federation of Ontario, and formerly a member of the Board of Education, Toronto, and Miss Willoughby, demonstrator nurse at Dunnville, spoke of the Home and School associations and the follow up work of the nurses. Both referred to the greater need of co-operation between home and school to arrive at a better understanding of the needs of the child to do the most efficient work in school, and for the child's development as a useful, efficient citizen. Afterwards a Home and School Assn. was formed in Dunnville. Inspector J. L. Mitchener also addressed the meeting, pointing out the advantage of a closer union between the home and school. Mrs. Peart, County President, ably presided.

Rod and Gun

Turn some pigs loose in a swamp infested with rattle snakes and watch the fun. F. V. Williams did not do exactly that but he tells in April Rod and Gun in Canada what happens when swine meet serpents. Mr. Williams tells of the snakes found in the vicinity of Tobermory on the Bruce Peninsula in Ontario, and what happened to them when some pigs were turned loose to slay and slaughter. "A Happy Hunting Ground" is the title of the leading story in this month's issue of Canada's national sportsmen's monthly. This article tells of the thrilling experiences in hunting bears in British Columbia. Nova Scotians will read with special interest the story of hunting shore birds by Bonny-castle Dale. It tells of the difficulties to be experienced under the terms of the Migratory Birds Convention Act. In addition to these stories and articles there are nine others that will delight the heart of the nature lover. The Guns and Ammunition department and the editorial comment on the gun permit law will take the attention of the gun "crank" while Robert Page Lincoln and George Goodwin take care of the anglers and dog men, respectively. Rod and Gun of Canada is published monthly at Woodstock, Ont., by W. J. Taylor, Limited.

SATURDAY'S STORM

Considerable Damage Reported From Various Parts of Ontario.

Tornadoes, heavy sleet and hail storms and heavy rains visited several sections of Ontario on Saturday afternoon and caused much damage. Fortunately the storm did not reach this section.

Port Hope suffered an estimated loss of \$100,000, and the Midland Railway was so badly damaged that the service was tied up for several days.

A terrific hail storm struck the village of Stonyville and smashed about 1,000 panes of glass.

In Bruce County, a large number of barns were destroyed or damaged, and one man was instantly killed and two others injured when one barn collapsed.

High School At Cayuga Burned

Blaze Thought to Have Originated in Laboratory.

CAYUGA, March 21.—Fire thought to have originated in the laboratory, completely destroyed the high school here about 4 o'clock this morning. Trustees estimate it will be impossible to replace the building for less than \$50,000 and insurance carried on the old school was only \$8,000.

The blaze was first seen by James Baird, who lives near. Baird went into the school and looked around, but the fire was too far advanced for him to fight alone and he could not tell in what part of the school it had started. The fire department responded promptly to a call, but could not save the school. A heavy rain had fallen during the night and this probably saved several frame buildings in the next street.

The school was a four-roomed building, modern in every respect. The laboratory was well equipped and the library alone was worth \$2,000. Principal James E. Skeele will be a heavy loser, as he had valuable books and papers in the library.

The school caretaker visited the building as usual last night to attend to the furnace, but cannot give a possible cause of the blaze.

School sessions will probably be held temporarily in the town hall.

Resolution of Confidence In Dunnville Pastor

Dunnville, March 20.—A largely attended meeting of the Official Board of Grace Methodist Church, Dunnville, at which the pastor, Rev. Thos. Green, was invited to remain another year, the following resolution was unanimously carried:

"That because of the antipathy shown and the unmerited statements made reflecting on the honesty of and the motives actuating Rev. Mr. Green, our pastor, while in attendance at an official court of inquiry recently held at Cayuga, the Quarterly Official Board, at this special meeting called for the purpose, desire to express our united confidence in our pastor, and believe that he has carried out the moral obligations resting upon him with the utmost regard to the truth, and without fear or favor.

"We desire also to express our admiration of the capable and manly way in which he gave his evidence, and his kindly attitude toward those regarding whose conduct inquiry was being made.

"We approve also of the courage he has shown in endeavoring to do something to bring about a better condition of things in our town and community.

"We desire also to assure Mr. Green of our united support in all the good work he is undertaking, and our confidence in him for the future."

Performance of Dairy Cattle.

A Holstein cow recently eclipsed all Canadian records for yield of milk and percentage of butter fat, according to Report No. 12 issued by the Dominion Department of Agriculture. This report gives the records of performance of all pure bred dairy cattle from April 1, 1919, to March 31, 1920. Also the standards of every breed, and a list of bulls qualified for registration. The names of the cows are given, and also those of the sire and dam, the owner, the breeder, age at test, date of calving, production required, total production, percentage of fat, the number of days milked, and, in the majority of cases the number of times milked per day. The last mentioned matter having lately been a subject of experiment at the Ontario Agricultural College, Guelph, and Macdonald College, Que., it is interesting to note that many of the Ayrshires were milked three times a day and some of the Holsteins four times. Of the Ayrshires the greatest yield for the year is credited to a mature cow owned by the Nova Scotia Agricultural College, Truro, and the best percentage of butter fat to a cow owned in Prince Edward Island. Of the Holsteins, the record yield for the year is credited to a mature cow owned by the Colony Farm, British Columbia, and the best percentage of butter fat to another British Columbian. Of the Jerseys, the first in point of yield is an animal owned at Edgfield, Ontario, while the best percentage of fat is attributed to a three-year-old owned in British Columbia. A four-year-old Shorthorn owned at Buckingham, Que., claims the record for that breed in quantity of milk, and a two-year-old owned at Waterford, Ont., the highest fat content.

A lantern service will be given by Rev. G. R. Wreford in St. Paul's church on Good Friday night, subject: "From Bethlehem to Calvary," illustrated by a magnificent set of colored pictures by Gustavo Dora. Collection taken to defray expenses.
