MIXED TEA Just enough green tea to make the blend delicious

GREEN TEA A Revelation in Green Tea. Pure, translucent and so Flavory.

OUR BOYS' AND GIRLS' CORNER

By Aunt June

Registered According to the Copyright Act

DEDICATED TO EVERY BOY AND GIRL IN CANADA

My Dear Boys and Girls:

This is the last time I'll be writing to you in the columns of this paper—but don't be disappointed, because we can still keep up our Helpers' League and you can still write to me and hear from me every week. Now here's something for you to be sure to remember. Next time you write to me, send you letter addressed like this:

AUNT JUNE,
The Weekly Times,
Toronto.

Then it will reach me just the same. You see, I'm going to write things for The Weekly Times, in Toronto, after this week, so I want all you Helpers to write to me there. If any of you have written and your letters haven't been published yet, you must get your father or mother to subscribe for The Weekly Times so that you can keep on reading all about The Helpers and what they are doing. I have lots more badges for good little Helpers, and dozens and dozens of letters that I haven't had a chance to answer yet. But they all will be answered and everyone who has written and sent a stamp for a badge will get the badge. The Weekly Times is a good paper too, and your daddy can get it for you by sending in only a dollar for a whole year. You just tell him that you want to read the Helpers' Corner and I'm sure he'll send a dollar to The Weekly Times, Toronto. Don't forget it.

And now for some of the letters that haven't been answered yet.

Portage du Fort.

My Dear Aunt June—I have intended writing to you for a long time but I am very busy. I go to school every day that I am able. I am in fifth class and tenth grade. I also take music lessons and am getting on fine. I help mother with some of the work such as washing the dishes, dusting and sweep the floor, and sometimes I make up the beds. I do a lot of fancy work for I am not very strong. I have a bad cold at present and don't seem to be able to get the upper hand of it. I almost forgot to tell you about our animals. We have seven horses as we keep a livery stable, fifteen hens and a cow. I also have a nice big dog just like a fox and I have a pair of pet rabbits. It is lovely to see them romping around. It is almost impossible to catch one but the other comes right up and eats out of my hand.

ANTOINETTE DOLAN.

Dear Antoinette.—I was so pleased to read your very interesting letter and I am sure the other Helpers will like it too. I am sending you a badge and hope it reaches you quite safely. I hope very much your cold has got much better since you wrote and that you will get stronger now that the warm summer days are coming. Write to me again sometimes and let me know how you are.

Wheatley, Ont.

Dear Aunt June—I thought I would like to write to you as I read your column every week. I am nine years old and in the junior third class at school. I have a little cat called Jerry and it will jump over my hands for something to eat. After a little I shall teach it to roll over. I help my mother by washing the dishes, sweeping the floor, making the beds and cleaning the sink and dusting, and many other useful things.

FORGET-ME-NOT.

Dear Forget-me-not.—What a very pretty name you have chosen to write under. It reminds me right away of spring and nice clear water and trees and I do miss them all so much in the city. I am glad to be able to send you a badge and welcome you as a member of the club.

505 Silverthorne, Ave., Toronto.

Dear Aunt June—I have been a reader of the boys' and girls' corner. I am nine years old. I am in the junior third and go to school every day. I help my father take grocery orders and dry the dishes every night for mother. I have one sister eight years old. We have a horse and 12 hens. I go to Sunday school every Sunday.

OSBORNE TRACEY.

Dear Osborne.—I am glad to welcome you as a member of the club and am sending you a badge to wear. I am glad to see that you help mother and father and hope you will write to me again sometime.

Darlingford, Man.

Dear Aunt June—I would like to join your Helpers' League. I wash dishes, help get the meals and look after my little brother and sister when they are cross and other things. I live on the farm and like it fine. We have quite a lot of bush around our home now. I used to have a pet cat which would follow me wherever I went. It followed me to school every day but one day I found it dead among some bushes. I was so sorry to see it lying there. I must close now wishing the corner every success.

MARGARET MITCHELL.

Dear Margaret—I am posting you a badge right away and hope it reaches you quite safely. I am glad to welcome you as a member of the club. You will see the names of one or two members in this week's letter box who wish to write to other members so perhaps you will write to one of them. I am sorry too that your cat died. I wonder if you have got another one yet? Let me hear from you again sometimes won't you?

Wheatley, Ont.

Dear Aunt June—I have signed the pledge and will tell you what I do to help my mother. I wash the dishes, make the beds and on Saturdays I scrub and dust. I am eleven years old and I am in the Junior fourth class. I am in the Introductory Grade in Music. For pets I have a little brown dog named Buttons and a cow named Bake Well.

JEAN McCLELLAN.

Dear Jean—I am sending you a badge and am glad to welcome you as a member of the League. What a strange name you have for your cow. I have never heard one called that before! I wonder what made you call it by that name. I am sure the other Helpers would like to know too.

291½ George Street, Toronto.

Dear Aunt June—Thank you so much for the beautiful badge you so kindly sent me. I am ever so pleased with it and am going to show it to all my friends. The letters on the page are getting more and more each time and I expect that means more and more members. I am going to join the Boy Scouts when the warmer weather comes, and I guess I shall have a fine time. I have often wondered what it would be like living on a farm in the winter. I imagine it must be lonesome so I shall have to be content to live in the city, and not start trying experiments. My letter is getting rather long so I won't take up any more space. Tahnking you again for the lovely badge. Yours sincerely,

D. G. HONAN.

Dear Helper—I enjoyed reading your long letter and am sure the other Helpers will too. I can't say what life on a farm is like in winter as I have never lived on one then but I am sure some of our Helpers in their next letters will tell us whether they find it very lonesome. I expect it not so interesting as in the summer as the days are so short and there are no flowers. I am glad you are so pleased with your badge. Let me know how you like being a Boy Scout.

Here are the names of some of the Helpers whose letters have not yet been answered. And there are many more, because my mail box is full and I have been away for a week or so and haven't had a chance to get all the letters. But they all will be answered, so don't be disappointed:

Norbert Ruth, Hepworth; Bernice Archibald, Schomberg; Carmelita Bonsfield, Wellandport; Ralph Clifford, London, Jct.; Alma Craig, Calabogie, P.O.; Olive Virgin, White P.O.; Helen Brethour, Kirkton; Annie Laura Hunter, Bobcaygeon; "Doggy," Oakville; Bernice Jones,, Paisley; Eileen Mercia, Swift Current, Sask.; Gordon Haney, Paisley; Cecilia Turpin; Eauclaire; Lester Leeson, Paisley; Morby Jones, Gravenhurst; Frances Law, Port Dover; Hazel J. HELP SAVE THE HOME!

To Principals and Teachers,
Scholars and Parents:—

We will send "Home Inspection Blanks" to the teaching staff throughout Ontario for distribution among their pupils.

As patriotic Canadians your sympathetic co-operation is sought in the important work of conserving the lives and property of our people from destruction by fire.

The inspection is planned to take place throughout the Province during the week of May 2nd. The primary object of this Inspection is to draw attention to hazardous conditions in the homes and have the fire menace removed or corrected by the householders.

The housing problem makes the protection of dwellings of paramount importance.

CLEAN UP.

Prevent fires by removing the cause.

Information and text-books, "Conservation of Live and Property from Fire," "Lightning, its Origin and Control" free on request.

ONTARIO FIRE PREVENTION LEAGUE, INC.

In Affiliation with Ontario Fire Marshal's Office

153 University Avenue - - - - - - Toronto

SAFETY CANNING

Thorough sterilization of cans and jars and thorough cleanliness in preparation of fruits or vegetables for canning afford complete protection against poisonous bacilli. In an article dealing with what it calls "The Botulinus Bugaboo," Successful Farming says:

"Botulinus is essentially a 'disease of filth.' It cannot thrive under cleanly conditions and under proper handling of food products and therefore emphasizes the importance of cleanliness at all times in all matters relating to food.

"First, examine the jar for gas. If it is a Mason jar and the top has bulged, discard it. Gas is present in any jar if the vacuum does not make the top somewhat difficult to remove. Second, examine the liquid in the jar to be sure it is clear. This does not mean that it should be clear as water or that small particles of food may not be in the bottom of the jar, but rather that the liquid itself is not cloudy or muddy. Third, after the jar has been opened see if it gives off a disagreeable odor. If it has been properly canned it yields a clean, pleasing aroma. Fourth, if the foregoing tests are satisfactory and the product looks all right it is perfectly safe to taste it to see if it has a cooked instead of a 'raw' taste, wholesome instead of questionable. These four tests will determine for any uneasy housewife at once and for all whether there is any contamination within the jar, and enable her to use the food with impunity and without fear.

"Not so long ago the use of tin in canning was restricted entirely to commercial plants. Some one invented a circular soldering iron, however, whereby the housewife could solder the tops on cans almost as easily and just as effectively as the commercial canner. Immediately many enterprising housewives adopted the tin can for home canning. Objection was made to the use of solder in sealing and commercial canners soon adopted the sanitary can, which is sealed without solder by crimping the top in place. For some time no practical machine was devised whereby the sanitary can could be used in the home, but there are now little machines on the market which make the use of these cans entirely practical for home canning. One ingenius manufacturer has even gone so far as to perfect a machine whereby the same can may be used four or more times, thus bringing the cost for cans much below that of glass jars, for a tin can is less expensive than a glass jar. A can may be used four years and it is estimated that the average life of a glass jar is five years before it is broken.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculee Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THINKS SWEARING ALL RIGHT.

Yes, providing the provocation equals the offence of Jones stepping on Smith's sore corns. Far better to use "Putnam's Painless Corn Extractor, it does lift out corns in a hurry. No corn can last if "Putnam's" is applied. Refuse a substitute. 25c everywhere.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

A certain farmer's last advice to his son was: "Don't spend money recklessly—except for fertilizers." Advertising is the fertilizer of business.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5, per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

Ask for Minard's and take no other.

IF LOSING LOOKS OR STRENGTH READ THIS CAREFULLY

Once you were robust, bright and happy. Today you are dull, worried failing in vitality and appearance. Just when you should be at your best you're played out and need a cleansing medicine. Get the right remedy and your blood will redden, your vivacious spirits will soon return, and you'll be yourself again. You should use Dr. Hamilton's Pills—a truly wonderful medicine. It drives away headaches, and weariness, lifts the load from your liver, tones up the stomach, puts you on your feet in no time. Use Dr. Hamilton's Pills and watch the result, in a week you'll feel like new. All dealers, 25c or The Catarrhozone Co., Montreal.

FLINT LOCKS.

Flint-locks and tinder boxes may be a little out of date, but just the same it still takes three million gun flints a year to meet the demand of out-of-the-way parts of the earth where primitive weapons continue to have their use. Flint-knapping is the process of manufacture, and it is very largely a method used by men of the stone age for the production of arrow heads, axes, and similar implements of war and peace. Today flint-knapping is largely confined to one town in England, which has a yearly output of flints that comes near to supplying the whole world demand.

Luxuriant Hair Promoted By Cuticura

Cuticura kills dandruff, stops itching, the cause of dry, thin and falling hair. Treatment: Gently rub Cuticura Ointment with the end of the finger, on spots of dandruff and itching. Follow next morning with a hot shampoo of Cuticura Soap. Repeat in two weeks. Nothing better than these fragrant, super-creamy emollients for all skin and scalp troubles.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

DOGS OF DAMASCUS

Thousands of Them Wander About Streets of Ancient City.

There are anywhere from 15,000 to 30,000 dogs in Damascus, and they are all parians, writes a correspondent. Each has his or her own particular corner on a certain street and no matter how hungry they may be, they seldom stray from it except when in bands of ten or twenty they take a walk. Always hungry they answer the call "Suk, suk, suk," in legions, for they know that this token of Eastern speech means that they are to be fed.

MEASURING A MILLION.

Few of us grasp the full meaning of the word "million." A lecturer succeeded in doing so some years ago. His first experiment was with the spots on paper, which he found to be both cumbersome and inconvenient. Nor was he more fortunate in telling his audience that there were about three and a half million letters in the Bible. At last he got the idea of using grains small enough to go into a jar which could be conveniently handled by the audience. Experimenting first with tiny seeds, rice grains, sago, and similar small particles, he finally decided upon "seed sago." After sifting this, he counted out a few thousand grains, carefully weighed them in delicate scales, and then calculated what was required to get approximately a million grains. He found the requisite quantities to be 2-lb. 2-oz., which comfortably filled a quart glass jar.

An Oil without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Eclectric Oil, and there is no alcohol in it, that its effects are lasting.

Minard's Liniment used by Physicians

RELIEF AT LAST

I want to help you if you are suffering from bleeding, itching, blind or protruding Piles. I can tell you how, in your own home and without anyone's assistance, you can apply the best of all treatments.

PILES TREATED AT HOME

I promise to send you a FREE trial of the new absorption treatment, and references from your own locality if you will but write and ask. I assure you of immediate relief. Send no money, but tell others of this offer.
