Those Two Houses were built at the Same Time"

ONE was owned by a man who thought he knew and the other was the home of one who listened to experience. One painted for effect, thinking that any paint that looked nice would do —the other knowing that surface protection was more important than decoration, painted regularly for protection.

One tried to save expense and failed—the other saved the surface, and in doing so also saved expense.

The former house is a derelict and the latter is a delight. The paint with the record for permanence is

B-H "ENGLISH" PAINT 70% Pure White Lead (Brandram-Genuine B.B.) 30% Pure White Zinc 100% Pure Paint

a really superior paint. Its guaranteed formula results in a paint with a brilliant finish that lasts for years—B-H "English" paint excells in "body," brilliance, covering capacity and permanence.

Protect your property so that it will last for generations. B-H "English" paint whether in white or in colors is the best choice in Canada as a surface saver.
