Under this limited attendance all students will be continually under the direct supervision and instruction of those most vitally concerned regarding the success of the school. Be one of the forty and send in your application for a reservation now. Write or phone the Principal for full particulars.

St. Paul's Church Notes
At 10.30 a. m. on Sunday, August 20, Holy Baptism was administered to two infants.
At 11 a. m. there was a celebration of Holy Communion with sermon.
The text of the morning sermon was—"How long halt ye between two opinions?" Ahab, King of Israel, married Jezebel, daughter of Eth-Baal, King of the Sidonians. Through her influence and Ahab's weakness of character idolatry had been introduced. Elijah stood single-handed to oppose the false and maintain the true. The heathen priests offered on the altar of their false god; Elijah on an old broken-down altar of the Lord which he found cast aside on Carmel. The priests of Baal were noisy, excited, and took all day to supplicate Baal. They got no answer to their frantic appeals. Elijah, quiet and subdued, awaited the Divinely appointed hour of the evening sacrifice, then prayed on simple earnest prayer, and God answered and gave the sign which His true servant had solicited. The sacrifice was consumed and the people were converted to God.

The evening sermon was on the parables of our Lord, as recorded in Matthew 13th, viz.—"The Tares Amongst the Wheat," "The Grain of Mustard Seed," "The Leaven," and others. The evil and the good are found together in the visible church in this world, which is the present field of the gospel's operative effects. Man proposes to clean out the evil. God says men are not wise enough to do it. He alone is competent for the purpose. "He has appointed a day when he will judge the world in righteousness by that man whom he hath ordained," viz: Jesus Christ, who uttered these very parables of the Kingdom. The Gospel of the Kingdom, and the Kingdom itself, expands as that which is influenced by that leaves, and extend as does a big tree from a tiny seed. It is for professing Christians to see to it that all their efforts and influences are in the direction of the harvest which God claims as His own, and not in the direction of the other darkness where there is weeping and gnashing of teeth.

Water and Truck Line

United Lines, Ltd. Planning For The Future—A Progressive Corporation—All Towns on Their Lines Will Greatly Benefit

A water and truck line shipping route is soon to be afforded the farmers, merchants and shippers generally in this community, according to reports.
Mr. Kirkwood, of the Kirkwood Steamship Lines of Montreal has been in Hamilton, the past week negotiating for dock facilities with a view of bringing their lines into Hamilton.

The Hamilton Chambers Commerce having been largely instrumental in prevailing upon the United Lines, to launch its large Ship-by-Truck System and Bus Service in the territory tributary to Hamilton, is now understood to be bending its efforts to secure a new Steamship Line into Hamilton. This will afford the Ship-by-Truck Company an opportunity to quote a water and truck line rate and through tariff from points in this community direct thought to points east of Toronto to Montreal giving the same character of service that the railroads give over their water and rail routes.

The decided advantage of the truck service to the farmers, mechanics, and shippers generally, however, is that it gives such faster service.
The United Lines plan to start their service with twenty-five 3-ton trucks with some lighter and faster ones. With this service the different towns and communities in the fifty mile radius of Hamilton can be linked up with the water lines at Hamilton.

Freight will be collected by the trucks in the afternoon and delivered the following morning to the steamship dock.
When the fleet of trucks is increased the area of operations will be extended proportionately, the aim being to cover the entire territory that in any way desires traffic moved toward Hamilton or Toronto.

A large freight depot will be established in one of the most accessible parts of Hamilton, which will serve as a clearing house.
Heavier trucks will run on the longer routes, while the light ones will mostly be utilized for the shorter routes and dirt roads.
