Had a Close Call

Mrs. John Brennan, of Walpole township, was seriously injured on Tuesday evening Nov. 23, while returning home from Hamilton in an auto. They caught up with a hay rack near Mount Hope and, while passing same the driver in the darkness did not notice a binding pole which protruded out over the side of the rack. This pole passed through the side curtains and struck Mrs. Brennan, who was sitting in the back seat, directly in the face. She received a bad cut on the chin and her head and body was otherwise severely cut and bruised. Medical aid was secured nearby and the injured lady was later removed to her home where she is getting along as well as could be expected.

Quite Correct, Friend

Many of our readers will agree with opinion expressed by the writer of a communication which recently appeared in the Mail and Empire in which among other things he writes: "I have received my first specimen of the new Canadian five cent piece, and a more clumsy, vulgar-looking coin could hardly have been produced. It is a feeble imitation of the Yankee 'nickel,' and in that respect merely a good second to the new Canadian cent, which also is a slavish copy of the Yankee cent. Why trouble to make our own coinage when he might as well arrange to purchase it from the United States Treasury at Washington and save expense? I sincerely hope

Send in Your News

there is still enough national spirit and imperial pride and independence left in Canada to cause a reversion to the old distinctive types of Canadian coinage."

One of the things that ought to be

held in Jarvis and vicinity is that of sending The Record the news items that you may know of tell us of your news and say neighborhood or other item that will be of interest to yourself, your neighbors or your friends.

Every lodge, church, body or social organization should have some representative who will look promptly and carefully after its news reporting, if you think some organization has better news service than your own, it is probably because that organization looks after such matters better.

Write your items and send them in where possible. Don't ask that long list of names be taken over the telephone as it not only requires much time, but usually errors occur in list thus given.

Above all, be early. Never wait till the last minute to send an item that can be sent in early.

The Record telephone number is 37.

Chemical Exposition

For several years past the Department of the interior has participated in the National Exposition of Chemical Industries held in New

Distinctly Different Exhibition.

Some confusion appears to have arisen among Canadians over the announcement of exhibitions to be held within the next year or two in Great Britain. To dispel any misapprehension, the Canadian Manufacturers' Association has issued a statement, explaining that two distinct exhibitions are involved, and that these are organized on entirely different lines and to serve a different purpose. The British Empire Exhibition, in the interests of which a mission has recently been touring Canada, is an entirely different undertaking from the British Industries Fair, to which reference is frequently made in the press.

The British Industries Fair is an annual event and is held for two

You Are Invited

The Record invites free speech in the columns of your home town paper. If you have a topic of interest you wish to bring before the public for the betterment of the town, we invite you to place your views on paper and hand it in for publication. We much prefer signed letters, but if you do not wish your name mentioned, we will withhold it. All communications must be, however, signed by the writer to the publishers.

Help burned Ontario over the Winter

MEN and women of Ontario—it is time that we should all realize the terrible completeness of the fire calamity that devastated Northern Ontario in the early days of October. Fires and calamities we have had before, but never such complete destruction as this.

Over 1,200 square miles laid desolate, down after town nothing but a bleak expanse of ruins, hundreds of farms swept bare, thousands of your fellow citizens "cleaned out" and thrown abruptly back into man's primeval struggle against nature and her grim forces: fire, hunger, ice and the stark northern cold.

Give 1,800 families a fighting chance to get on their feet. Temporary relief must go on. We must not fail the North.

Winter—the relentless foe
 Coming as this terrible fire did, in the autumn, with the harvests in, with the townspeople already preparing for the rigors of winter—the complete destruction wrought is the harder to overcome.

Thousands of people at first had literally no place to lay their heads, little to wear and nothing to eat. They had to be taken care of at first, somehow, and then, desperately as the days went by, and the cold grew more intense, rough but serviceable standard shacks, 16' x 20', have been replacing tents, old street cars, packing boxes and sheet iron—a regular food supply has been established, and rough clothing is being distributed.

What can a man do with his house a blackened hole in the ground, his barn a charred heap, his work shop a twisted pile of rubbish—and a northern blizzard raging over all?

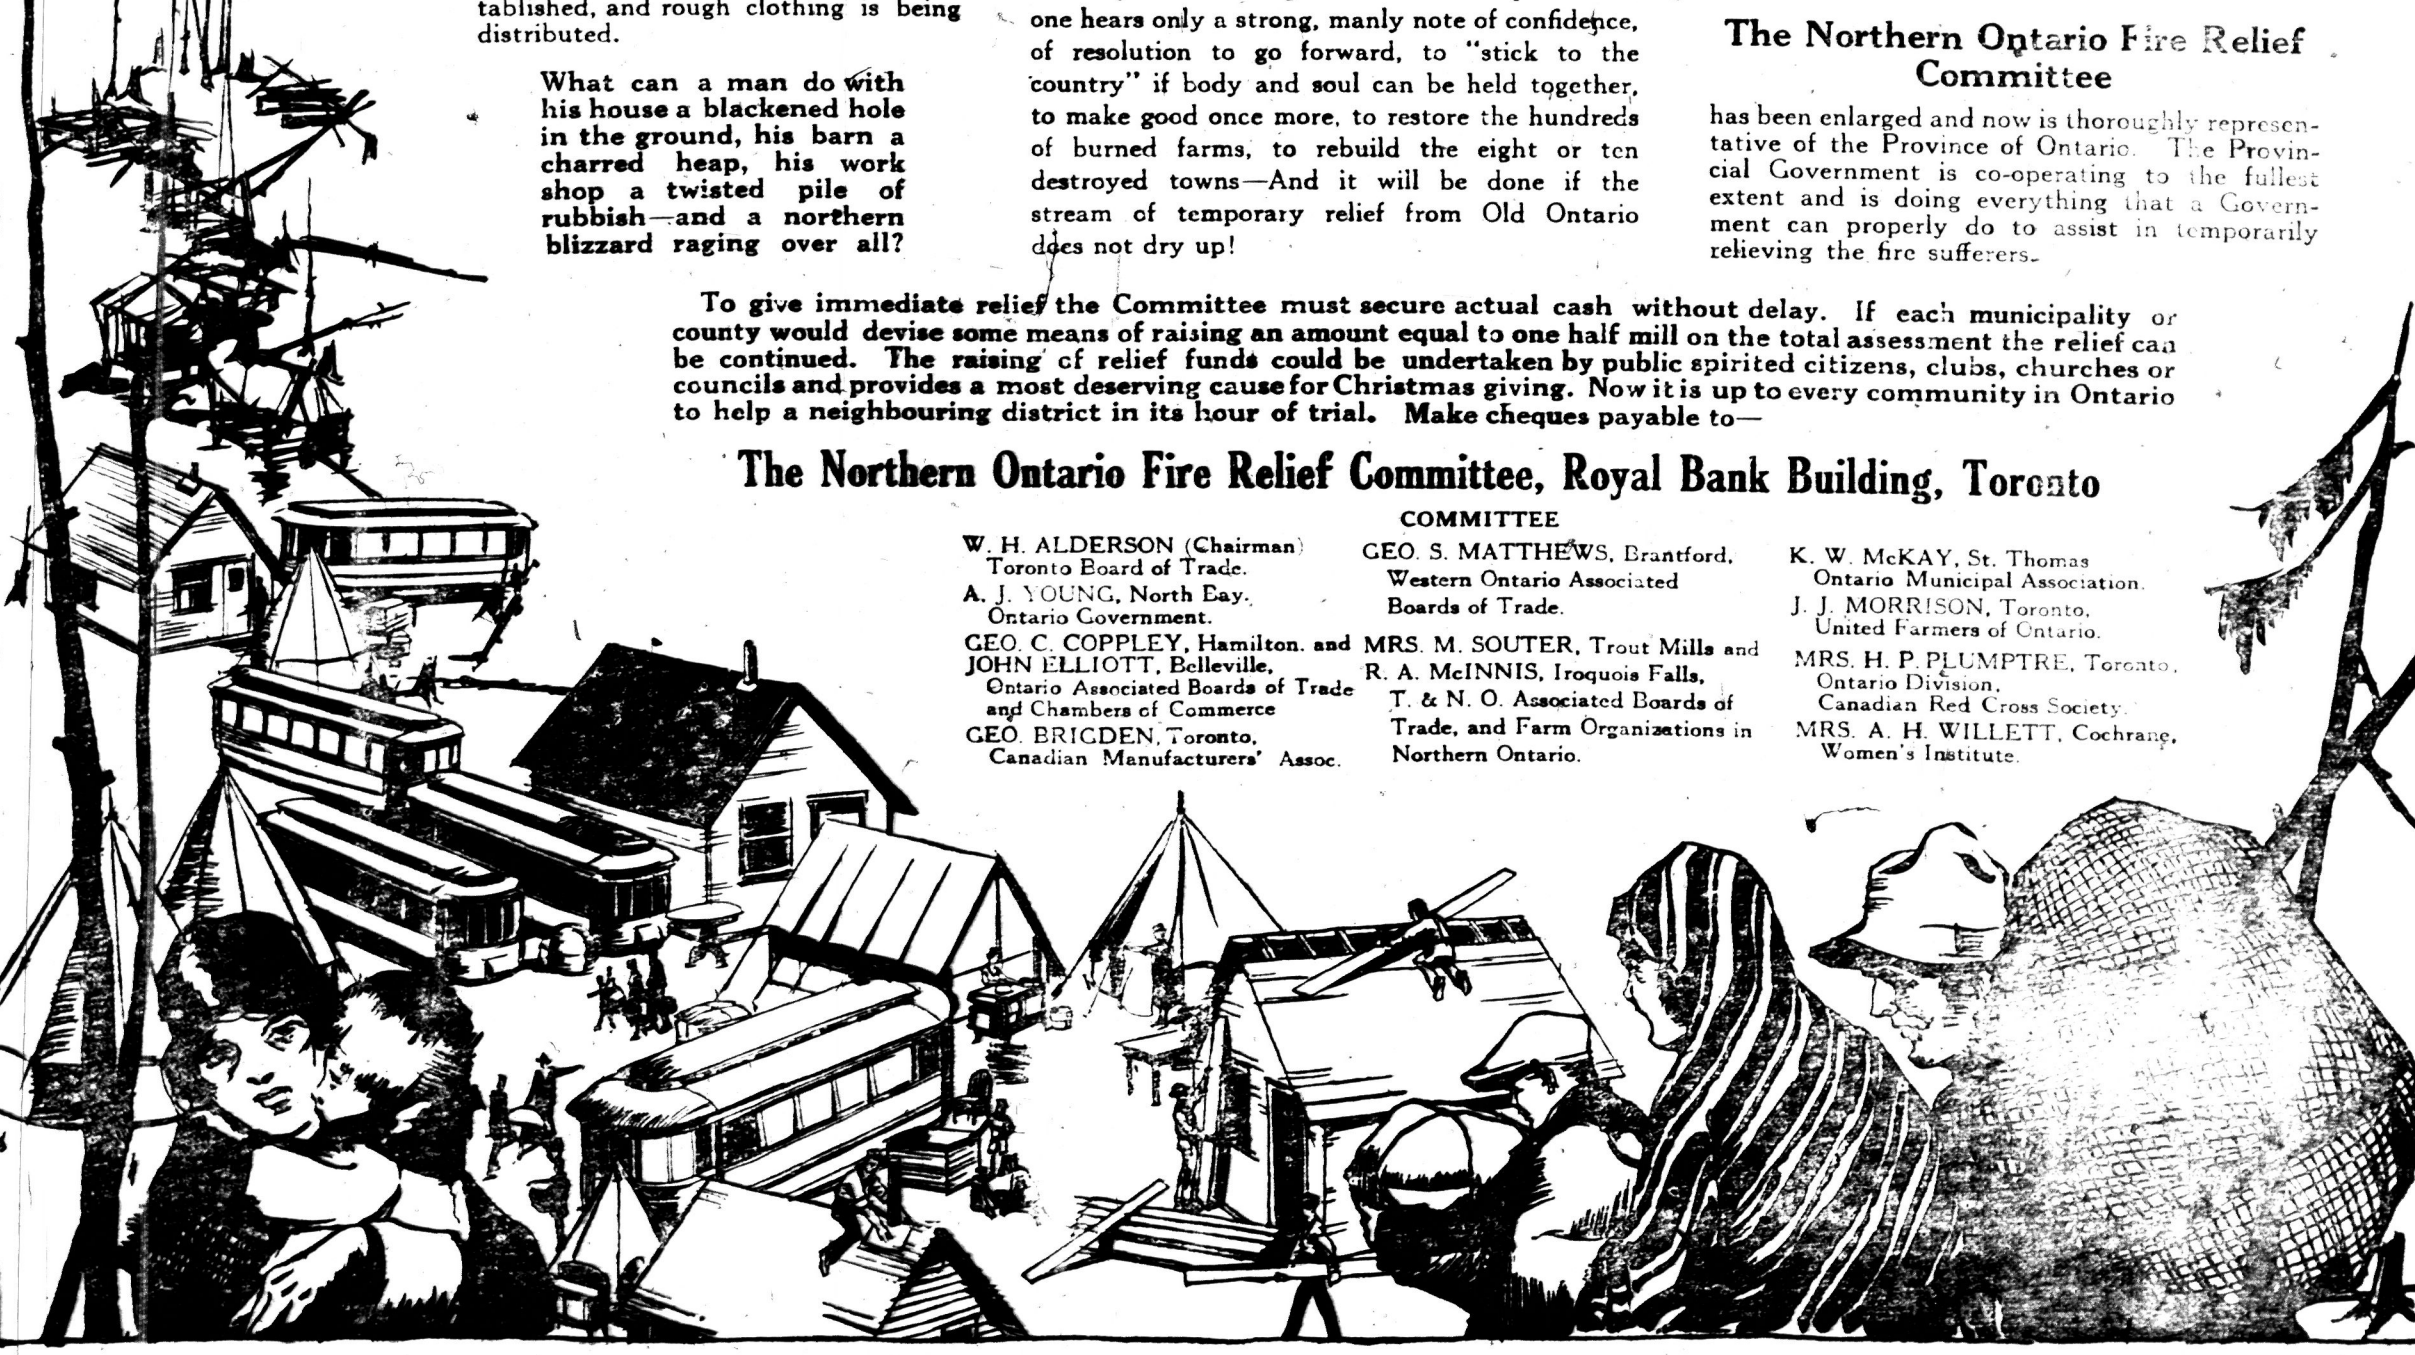

Temporary Relief Until Spring
 In the name of humanity we must see these fellow citizens through until Spring opens up the land and general business activities are resumed. Money must be forthcoming from the citizens of Ontario, from municipalities, industries, societies, public bodies, lodges, churches, etc.—not for rehabilitation or re-establishment, but for the supply of bare necessities, "temporary relief" in fact, to the stricken North.

The Brighter Side of the Picture
 Everywhere throughout the fire swept district one hears only a strong, manly note of confidence, of resolution to go forward, to "stick to the country" if body and soul can be held together, to make good once more, to restore the hundreds of burned farms, to rebuild the eight or ten destroyed towns—And it will be done if the stream of temporary relief from Old Ontario does not dry up!

All for One—One for All
 Here is a portion of our Province in ruins, and for the sake of the whole Province as well as for its own sake, this section must be restored to prosperity and happiness. We need the North, we need its vigorous, pioneering spirit to one and all, let's "give a hand into the saddle"—and do it NOW.

Money is needed. The Relief Committee can buy in large quantities, get big discounts, and offer free gifts of merchandise from the many manufacturers who are generously co-operating with the Committee. The exact needs are now known.

The Northern Ontario Fire Relief Committee
 has been enlarged and now is thoroughly representative of the Province of Ontario. The Provincial Government is co-operating to the fullest extent and is doing everything that a Government can properly do to assist in temporarily relieving the fire sufferers.

To give immediate relief the Committee must secure actual cash without delay. If each municipality or county would devise some means of raising an amount equal to one half mill on the total assessment the relief can be continued. The raising of relief funds could be undertaken by public spirited citizens, clubs, churches or councils and provides a most deserving cause for Christmas giving. Now it is up to every community in Ontario to help a neighbouring district in its hour of trial. Make cheques payable to—
