## Railway News

Winnipeg—Claiming this year's record for the early shipment of grain, the Lake of the Woods Milling Company on August 3rd moved the first car of new wheat to the head of the lakes. The grain, which came from the farms of John Siemens and M. Woodliffe of Rossfield, Man., graded No. 1 northern of fine quality. It was shipped from the Lake of the Woods elevator at Rossfield over the Canadian Pacific Railway to the Lake of the Woods mill at Keewatin.

August 3 is considered the earliest date in a number of years that grain has been moved east.

Carelessness by automobile drivers at railway crossings is still prevalent. On every occasion the motorists come off second best. The railways are doing all in their power to prevent accidents. If they were only met half way many fatalities would be avoided and many automobiles and limbs saved from the operating theatre.

A few days ago at Ayr, Ontario, a man named W. Zehr was driving south in a Grant automobile across Northumberland Street. He ran into the side of a train, striking it behind the locomotive. As a result of the impact Mr. Zehr's automobile was badly broken, but the injury to the train was slight. The train was switching at the time of the occurrence.

Prescott—The Canadian Pacific Railway offers two scholarships per year for the faculty of applied science to minor railway employees. This year there were 16 candidates in the contest, which was held last month, comprising students from Halifax, N.S., to Victoria, B.C. George Harold Kingston of Prescott received the highest number of marks, winning one of the scholarships, which means free tuition at McGill College, Montreal, for five years. Mr. Cyril Neroutsek of Victoria, B.C., won second place.

Calgary—Ronald W. Greene, of Winnipeg, who was recently appointed assistant general agent of the Canadian Pacific Railway ocean traffic, with headquarters here, has arrived in the city to take over his duties here. Mr. Green will have offices in the C.P.R. Depot and will handle all Atlantic and Pacific steamship business in the Province of Alberta.

W. C. Casey, general agent of the passenger department of the C.P.R., ocean traffic recently arrived in the city. While discussing ocean traffic, Mr. Casey said that the addition of the two new steamships, the "Empress of Canada" and the "Empress of Australia" on the Pacific coast run, has ensured a 25-day service between Hong Kong and London and Paris. He said that Orient passenger traffic was reasonably fair at the present time and believed that traffic would be very heavy in the fall, both to and from the Orient.

Vancouver.—With every hotel along the Canadian Pacific Railway taxed to capacity, and with the coastwise steamship offices reporting a greater volume of travel than ever before in the history of Western Canada is enjoying a tourist traffic this year that has never been equalled in past seasons.

During the past few days it has been necessary for the majority of the hotel motor buses to make four and five trips to the hotels from the steamers in order to accommodate the incoming passengers, and the train work in the history of Western Canada is enjoying a tourist traffic this year that has never been equalled in past seasons.

The opening of the Banff-Lake Louise road through the mountains has done much to bring a large volume of auto tourist traffic to Canada this year, state C. P. R. officials, and when the Banff-Windermere highway is opened this fall it is expected that there will be another large volume of tourist traffic diverted through British Columbia.

Many cars are being shipped from Spokane and Seattle up through Lethbridge into Banff and Lake Louise, says Col. Clarence Lougheed of Calgary, "and when the highway right through the mountains is completed both Alberta and British Columbia will get a large volume of auto traffic annually. Hundreds of cars have come through Alberta this year, and they will continue on and return to the United States by way of Vancouver if the roads were open. Alberta autoists are also anxiously awaiting the completion of the road through and it will undoubtedly mean a big thing every year to British Columbia."

Miss M—lived in the Ottawa Valley, not far from the capital, with her mother and young sister. Work seemed the natural thing when she left school, and accordingly, she started out to get what she could for her services. Progress was not fast, at least she did not stand still, and her earnings were always increasing.

With such prospects it seemed that her little sister could get the chance that she had been denied—a University education. The family went to Queen's, and this year, her Bachelor of Arts. Next year she is going to do better—Master of Arts. But where the young lady comes in. The elder sister, broken in health by overwork, is no longer able to assist her. She is a patient at the Muskoka Hospital for Consumptives, but it is hoped she will shortly graduate—with "A Certificate of Good Health."

Seventeen thousand patients have been cared for by the National Sanatorium Association in its hospitals in Muskoka, and at Weston. Half of them have been restored to health and happy homes. You can't share in this great work if you will. Contributions may be sent to Hon. W. A. Charlton, 225 College Street, Toronto.

# The Store in Its Christmas Clothes is Beautiful

## THE GENERAL LAY-OUT

During the Christmas rush we have arranged for the comfort and convenience of our patrons. There are two (2) displays of Dolls and Toys, Games and General Gift Things—a very large showing in the Downstairs Store; also on the Second Floor you will find twenty-one (21) separate tables loaded with Gift Items—all conveniently arranged and priced.

Even at so-called bargain markings the Great Falls' Store can do wonders for the last-minute shoppers.
