Northern Ontario Still Needs Help!

Now that winter has gripped the North, help is more urgently needed than ever. He is a typical scene—a little boy who travels many miles for the daily supply of food for a large family. His father is building a new house to replace the one destroyed in the big fire. In the meantime mother and children live in an old shack on the outskirts of Cobalt.

Don't Worry About Me

Tom's Amazing Message

On a little farm over up north Tom lived with his parents and one brother. He was well up in years, had worked hard during the war, and was now getting on in life. He was well, and the last signed up with a lumber gang working in the woods. One day he was cutting logs, stripping bark and driving the chains. The chains were not so well fitted that he had time for a little more than sleep. Nature's suspicion claimed another victim. After a while Tom was taken to the St. Joseph's Hospital. His parents are anxious about him, they want the other son to see him often, for Tom is a hardworking and journeyman. Tom's own troubles are never so real to him that he forgets others. He asks for those about his home, for little bits of news about his home, and tells this to send this message back, "Don't worry about me, I'm all right here sure do treat you well."

Railway News

Montreal.—On August 23rd, George H. Ham, "the Grand Old Man of the Canadian Pacific," celebrated his seventy-fifth birthday and received congratulations from all over Canada.

Vancouver.—Railways in Canada are in an excellent position to handle the bumper grain crop of the prairie provinces. There are also 10,000 cars in the western division of the C.P.R. ready to handle grain moving westward from the prairie grain fields, officials of the railway state. C. A. Cotterell, assistant general superintendent of the C.P.R. western lines, states that heavy shipments will be made to the Orient through this port.

Toronto.—American tourists last year spent \$75,000,000 in Canada, according to an estimate made in an official report of the Dominion Government's Parks Department. Last year more than 100,000 tourists came to Canada, and that number means upward of half a million tourists. This year the number will be much greater, for the tide is growing rapidly. The railways are having a very busy season.

Winnipeg.—After a careful survey of reports received from C.P.R. agents throughout the West, it is estimated that this year's crop will approximate 317,000,000 bushels, according to the weekly crop report of the C.P.R. agricultural department issued here today.

Reports indicate that the Western crop generally is turning out well. Even in areas where poor yields were looked for, the conditions have proved better than anticipated.

Vernon.—Present indications are that the 1922 British Columbia apple crop will total about 2700 or 3000 cars.

Last season was the province's big crop year, when approximately 3500 cars were packed out. The C.P.R. has made many provisions to take care of the valley's transportation demands. On nearly every side between here and Calgary refrigerator cars are waiting to be shunted to the packing houses, while houses are well stocked.

Calgary.—While Calvin Coolidge, Vice-President of the United States, was not inclined to talk about trade relations, tariffs or anything of that nature when he arrived here on the Trans-Canada train of the Canadian Pacific Railway, he waxed most eloquent in his praises of Banff and Lake Louise and of the Canadian Rockies along the route by which he had travelled.

"No wonder you Canadians are proud of your mountains," he asserted; "they are magnificent." The Vice-President spent some time in conversation with J. M. Cameron, general superintendent of the Alberta Division of the C.P.R.

Montreal.—According to a joint circular issued by the Canadian Pacific Railway and Canadian Pacific Steamships Limited, Mr. Allan Cameron is appointed Oriental manager, with office at Hong Kong, effective October 1.

It is understood that Mr. Cameron will be in charge of both traffic and operating departments. The extensive growth in recent years of Canadian Pacific activities in the Orient, with enlarged fleets and services which have carried millions to the ports of call, has involved also the transfer of the administrative headquarters from Yokohama to Hong Kong.

Mr. Cameron is familiar with Hong Kong, as from January, 1901, to September, 1905, he was located there as general agent of the Asiatic business of the Canadian Pacific Railway and Navigation Company's line of steamers. Mr. Cameron's first connection with the Canadian Pacific Railway was at Winnipeg as clerk of the local freight office in 1887.

Moose Jaw.—D. C. Coleman, vice-president of the Canadian Pacific Railway Company, was a visitor in the city for a few hours, while en route to Victoria.

Mr. Coleman made the announcement that the Canadian Pacific Railway Company had leased the last of its terminal elevators at the head of the Great Lakes, on a long term lease, to the Consolidated Elevator Co. interests. The capacity of the elevator is eight million bushels. The leases will assume possession on September 1st.
