Sandusk

Mr. and Mrs. Chas. Peacock visited friends in Hamilton on Sunday.

Mrs. Chas. Nicol is not improving very rapidly.

Mrs. J. R. Pond visited Leo Pond and wife at Hamilton a few days last week.

Mr. and Mrs. Wm. Svent of Rainham Centre visited Mr. and Mrs. Thos. Westby on Sunday.

The Sandusk Women's Institute will hold a chicken supper at the home Mr. and Mrs. John Walker on the evening of January 20th, for members and their families. Let's go!

Selkirk

A very enjoyable dance was held in the town hall last week, in aid of the Selkirk orchestra. A number from Dunnville, Cayuga, Fisherville and other points attended.

Walter Wheeler attended the fishermen's convention at St. Thomas.

Mrs. Byron Lee has left for Rayburn, Sask., to visit her daughter, Mrs. Robb.

A striking example of the inequality of prices is illustrated by the experience of one of our local farmers last week. After driving nine miles to the nearest market he sold a 900-lb. cow, receiving \$3 for same. Driving nine miles home, he found that his neighbor had the same day sold 26 chickens (127 lbs. net) for \$22.50. In other words, three chickens sold practically for the price of one 900-lb. cow.

Harry Falls, while temporarily residing here, is assisting in Mr. Hilborn's store.

Miss Hart, recently engaged by the local school board, has taken up her duties.

Mr. and Mrs. Oliver Grindell entertained a number of friends one evening last week at supper.

A most enjoyable evening was spent at the home of Mrs. H. Smelser, under the auspices of the women's institute. Interesting addresses were delivered on the subjects of Empire and Great Men of Today, following which a dainty lunch was served.

Rockford

(Too late for last week)

Our Sunday School commenced this year with a splendid attendance. May this be said of it throughout the whole year.

Rev. Shaw delivered an interesting sermon Sunday evening from the first verse in the Bible, and referred to the goodness of God throughout the past year.

The annual School meeting was held on Wednesday last with the usual routine of business, everything passing off quietly. Mr. Geo. Ward was again elected trustee for the next three years. The School Board is having a new hard maple floor put down in the school house. Richard Paskins is the carpenter.

Mr. and Mrs. Geo. Richards and family of Hamilton, and Mr. and Mrs. Will Andrews and Cameron of Tyrrell, spent Xmas with Mrs. Margaret Richards.

Mr. and Mrs. George Jones visited over the Xmas holidays with the latter's parents, Mr. and Mrs. Boyer, Ryckman's Corners.

Henry and Mrs. Lemon spent the Xmas holidays with the former's brother in Bradford.

Mr. and Mrs. Wilbert Howard, Mr. Wm. Howard and Gordon C. Howard partook of a special dinner given by Mr. and Mrs. Harry Paskins on Wednesday last.

Mr. and Mrs. Geo. Ward were guests at dinner given by Mr. and Mrs. Bauslaugh on Saturday last.

Mr. Charles Smith of Simcoe was in town on Monday.

Mr. and Mrs. Roy Sanderson of Boston spent New Years with the latter's parents, Mr. and Mrs. Geo. Ward. Little Royal Sanderson is spending a few days with her grandparents.

Mr. and Mrs. E. F. Wilson of Wiltonville, Mr. and Mrs. Wilton Honey of Villa Nova, and others were guests at a New Year's dinner given by Mr. and Mrs. Wm. Somers on Monday.

Mr. and Mrs. W. E. Howard are spending the New Year's holidays with relatives at Lyndoch.

Mr. Boulton, of Toronto, is spending the holidays with his uncle and aunt, Mr. and Mrs. John Phillips.

Mr. Jon Lister from British Columbia was renewing old acquaintances around here last week.

The election for reeve and councillors on Monday created quite a stir.

It seems strange that after so many

years of enlightenment that some men are so forgetful of the Golden Rule, forgetting that they have brothers down here in the mud that would appreciate a load or two of gravel once in a while.

Mr. John Smith, who has worked for Mr. Ralph Golding for the past year, left here on Monday for the North West and British Columbia, and will also visit the United States. Jack saw many months of active service in the Great War, was in the Holy Land and has seen a great deal of the world. Jack was one of those kind of fellows that you could not help but like; the better you got acquainted with him the more you appreciated his many qualities. Nothing mean or selfish about Jack. We feel that we have lost a friend indeed since Jack has left our community. He was always in his place in the young men's class in our Sunday School. One thing is certain he will always find friends wherever he goes. Good luck to you, old boy.

We are glad to report that Henry Smith is improving nicely.

A great many around here are suffering from heavy colds.

Some from here attended the rink at Hagersville, on Monday night.

The Public school opened again on Tuesday after being closed for the holidays.

Village Council Meets

Held Inaugural Meeting and Appoint Officers.

Pursuant to statute the Municipal Council of the Village of Jarvis met on Monday, at 11 a.m., in the Clerk's office, when Messrs. G. L. Miller, Reeve, and I. W. Hulmes, T. McNeill, R. Shaver and N. R. Pond, Councillors, made their declarations of office. They then adjourned to meet on Tuesday evening.

Pursuant to adjournment the Council met in the Council chamber. All present except T. McNeill; the Reeve in the chair.

Minutes of the last meeting were read and adopted.

W. J. Bailey presented an account of \$92.25 for lumber and cement, and on motion of Pond and Shaver was ordered paid.

Holmes-Shaver—That the following officers for the Corporation be duly appointed for the year 1922:

Auditors—J. S. Burwash, F. Newman Collector—Jas. Whitwell Street Light Manager—Wm. Machell Assessor—R. W. Smith Traffic Officer—R. A. McCarter Board of Health—Geo. A. Irwin and that the Corporate Seal be attached to the resolution to give it the force and effect of a by-law. Carried.

Pond-Holmes—That we do now adjourn to meet the first Tuesday in February, at 7.30 p.m. Carried.

A. Rodgers, Clerk.

JOHN DEMING, Auctioneer.

C. W. BOOTH, Proprietor.

Motor Cars for Branch Line Passenger Traffic

The demand for more frequent service on branch lines where passenger traffic is not heavy is something the railways have long had to contend with. The heavy expense of running frequent trains to accommodate a limited number of passengers on branch lines has given railway men much food for thought. The Canadian National Railway, on its Brookville & Westport Division, has for some time been experimenting with motor driven railway cars. Instead of the regular engine and heavy train of passenger coaches, the Canadian National Railway has adopted equipment much like a motor bus which runs on the regular railway tracks. It is operated by one man, gives a frequent service and so far appears to be extremely successful. If continued use proves satisfactory, the plan will be adopted on other Branch lines of the Government Roads.

Grammar and Washing. "But Mrs. Wissinger," spoke up one of the young women teachers, "if you were to take in washing, you would get \$6 a day, as against we teachers' \$5," and again there was laughter.

We should think, remarks the Portland Oregonian, there would also have been consternation, if the other guides of the young mind and guardians of good English who heard the remark were not wholly off duty. The paragraph is from the Oregonian's report of a meeting at Milwaukee, Ore. between the school board and the public school teachers.

It is interesting and very pleasing to note that Milwaukee washerwoman get \$6 per day. It is somewhat above the scale, we hear, in other places, though there was an interesting story in the papers the other day about the modern washerwoman's practice of going to work in her automobile.

But what we started out to say was that the particular school teacher quoted would do better, far better, on several accounts, to take up washing where no questions will be asked about her grammar. Or has the wicked reporter put words in her mouth that she did not use?

Through the Kettle Valley

Southern British Columbia, with its placid lakes, that mirror fruitful shores, the orchards of the Okanagan Valley, the Grand Forks Valley and a country, rich in mineral and forest wealth, are made accessible by the Kettle Valley railway which links a vast extent of British Columbia with the Pacific Coast through a route of rare scenic beauty. At the southern end are linked the Kootenay and Arrow lakes, the route offering all the charm of mountains, lake, river, cataract, ravine and soft and rounded landscape of cultivated slopes.

Leaving the junction at Hope, you travel through nature's wonderland of snow-capped mountains with evidence of man's science in the Quintal Tunnels, a series of five tunnels in a direct line with the Coquihalla river, spanned by steel bridges, signalling between each of the tunnels. The rushing streams and innumerable waterfalls everywhere speak of the marvellous water power awaiting to be harnessed for man's needs. Winding up to the Coquihalla Summit, 3,300 feet above sea level, the line passes through the towns of Othello, Lear, Jessica, Fortis, Iago, Romeo, Juliet, following the Shakespearean tradition.

Princeton, the next spot of interest was a renowned mining town of twenty years ago. It is located at the junction of two mountain streams, Similkameen, meaning "Swift Flowing Water," and Tulameen (Red Water). The Indian nomenclature, in all its euphony, has been retained and native legends abound. The late Pauline Johnson, Indian poetess in her "Indian Legends" tells of "Red Water." The rushing stream is haunted by the spirit of an Indian maiden who gave her life for her lover.

Coalmont Collieries are passed where a tunnel three-quarters of a mile into one seam, gives an almost inexhaustible supply of high grade coal. There are at least ten million tons of coal "blocked out" and ready for mining and shipment.

The town of Jura is another interesting relic of the days of the famous old "Bill Miner," notorious

- (1) Waterfall on the Coquihalla River, Home of the Steel Head Salmon and Silver Side Trout.
- (2) The Quintal Tunnels, Near Hope, on Kettle Valley Railway.

Beyond Princeton, the Kelowna Valley comes into view, with orchard covered slopes, giving a picture of settled prosperity. Ascending to the Kettle Summit, an altitude of 4,200 feet is reached, giving a vista of ravines, silvery streams and valleys packed with purple bloom. The Kettle river drains an area of 4,260 square miles and is 170 miles long. There is a considerable area of good bench lands, suitable for agriculture, while portions are heavily timbered and lumbering is an important industry. The annual drive of one year on the Kettle and its tributaries, exceeded twenty million feet.

—C. G.
