JARVIS BRANCH—J. H. Brown, Manager  
Nanticoke—Tuesday and Friday

## Railway News

Mr. Edward Everett Beck, who since the death of Mr. Jackson has been acting manager of the Vancouver Island for the Canadian Pacific Railway, has been appointed manager. Mr. Beck has been connected with this hotel ever since he entered the service in 1907, first as clerk, then as rooming clerk, and since June 10th, 1920, as assistant manager.

Calgary—For the first time in two years the car department at the Canadian Pacific Ogdon Shops worked full time. This was the official announcement made at the offices of the general superintendent of the Alberta Division. The department mentioned is one of the largest at the shops and will effect carpenters, car repairers and helpers. It is stated that the heavy movement of grain is the cause of the increased work. The announcement has been received with much satisfaction by the men concerned.

Sherbrooke—Three years in the St. Vincent de Paul penitentiary was the sentence on Joseph Couture, of the township of Lingwick, for placing a bolt and a spike on the Canadian Pacific Railway track. The case was heard before Judge J. H. Lemay, in the District Magistrate's Court, when the accused was charged with placing obstacles on the railway track with intention to destroy valuable property and endanger human life. The accused immediately pleaded guilty and, after receiving the usual warning from the court, was committed for trial. He asked for a speedy trial before Judge Lemay. Counsel for the plaintiff advised the court that the accused had a rather bad record and claimed that he had previously served one term of two years and two separate terms of four years in jail.

The court commented upon the seriousness of the offence insofar as valuable property and scores of lives were threatened, and pointed out that he was liable for a term of three years, or even a term for life if it were proven that the obstacles had been placed there intentionally.

Regina—There is so much wheat in some parts of Southern Saskatchewan that it will take until next summer to get it shipped out of the country, said J. H. Chown, superintendent of the C.P.R. at Regina, last night.

Mr. Chown made this statement upon his return from a trip over the southern lines of the Regina district, the trip including the Arcola line as far south as Stoughton, through to Weyburn as far west as Assiniboia and thence up the Soo line to Moose Jaw.

"The wheat crop in some of the districts in this area is as good or better than 1915," said Mr. Chown, "and now that threshing is well under way some remarkable yields are being demonstrated. Where people expected to get 15 bushels to the acre the threshing machine is registering 25 bushels, where 25 bushels were anticipated they are getting 35 bushels and where 30 bushels were estimated the yields are running close up to 50 bushels to the acre."

"At Vantage," continued Mr. Chown, "I walked up to a threshing outfit operating not far from the station and engaged the thrasherman in conversation. He told me the field he was threshing was about 48 bushels to the acre. The grain was uniform, well ripened, a good color and an excellent sample of wheat in every respect."

Edmonton—A good harvest and the existence of a plentiful supply of foodstuffs in all parts of Canada is the basis upon which C. E. E. Usher, general passenger traffic manager of the Canadian Pacific railway, with headquarters in Montreal, makes the encouraging prediction that business is bound to show considerable improvement during the next few months and soon to reach the level of the best of previous years.

Mr. Usher was a visitor in Edmonton in the course of a tour which took him as far west as Vancouver.

Passenger traffic business is a worthy barometer in the testing of general business conditions, and Mr. Usher announces that the year, from a passenger traffic standpoint, has been an excellent one, while it is felt certain that the coming winter and spring will still further increase. Tourist travel during the past season has been almost as good as it ever was, while reservations made for winter traffic, including ocean cruises, are exceptionally numerous at this time.

Then, again, traffic to and from the old country during the past few months has taxed accommodations to capacity, while steamers plying between the west coast and the Orient have also been doing great business. Mr. Usher is a strong enthusiast for an open door policy of immigration into Canada, and in speaking upon the topical subject he declared that there would come a time before many months had passed when Canada would be setting up a cry for labor.

No order to our cleaning of suits at the Aylmer Steam Laundry. W. H. Fradley, agent, Jarvis.

## Only a Youth, but Never Knew a Boyhood

George Adams is a very weak boy—he's so weak he can't even turn the pages of a book without feeling pain. He has a good many brothers and sisters and his parents are very poor. So when George put on long trousers—he was just 13 at the time—he became a man and took upon himself the task of earning money for the family.

He went to learn a trade in an iron foundry, where fumes and hard work undermined a weak system and covered future trouble. Now and then one other working member of the family would cease earning through sickness or loss of job, and George would have to keep his mind to the grindstone a few more hours each day to make up for it. His life was just work, work, work, until one day he dropped on the floor. The company physician, who examined him, prescribed a year or two at the Muskoka Hospital for Consumptives. He can't understand why a boy had a boyhood and none of the good things of life, but he's fairly happy—he knows that.

There are many just such deserving cases in need of treatment at the Muskoka Hospital. Will you lend a hand?

Contributions may be sent to Headquarters, 225 College Street, Toronto.

# Our 33rd Anniversary Sale!

To some people, as a business we are considered old; but in our minds we are still young, because we are still growing. We still look forward with pleasure to our Birthday Parties—months ago we began planning for it. By Ocean Liner and Rail goods have been pouring in for this event. Many mills and factories in Canada and abroad that have enjoyed our patronage all these years have sent us, not only their best wishes, but merchandise at unusual prices for our THIRTY-THIRD ANNIVERSARY SALE. Part of the program for the opening days of this sale will be found on these pages. The last day will be just as good as the first. It is planned that way.
