nere, B.C. - Amongst the plendid summer publications of the plendid summer p ery generous mention of the ; this place. The other one olication given over exclus-describing the local "Camp." This a seventeen-page folder, most v autifully illustrated with reons of photographs of local.
The letter press is by Mr. Fre r. Niven.
The gist of the matter is de-

scriptive of the various trails and automobile roads throughout the Windermere district. Chatham, Ontario. - Wholesale summoning of boys and men who frequently use the C. P. R. tracks as a place for walks, was indicated in County Police court recently, with the swearing out of a number of informations by a C. P. R. detective who conducted an investigation.

It is alleged that the defendants trespassed on the C. P. R. tracks, a short distance from the City in Harwich township.

Informations have also been laid against seven boys under the age Montreal.-Edward J. Richel is appointed city passenger agent for the Canadian Pacific at Chicago,

succeeding Alfred R. Dean, who has resigned to enter other business.

Mr. Richel joined the service on
June 16, 1920, as clerk in the passenger department, Canadian Pacific Steamships, Chicago. Promotiona following were: October 1, 1920, chief clerk; January 21, 1921, passenger agent; June 1, 1921, travelling passenger agent; June 1, 1922, city passenger agent;

city passenger agent.
William I. Balkwill is appointed travelling passenger agent, succeeding Edward J. Richel. Mr. Balkwill joined the Canadian Pacific as clerk in the steamships passenger depart-ment Chicago on March 13, 1922.

St. Andrews-by-the-Sea, N.B. — The Canadian Manufacturers' Convention for 1922 is now a thing of the past, and to the almost 200 delethe past, and to the almost 200 delegates and others who have been here for a week, attending the sessions, it will be a pleasant memory. So much of a success has been this year's convention that it can be said, without violating any confidences, that the most influential members of the association are anxious to hold future conventions under similar conditions. under similar conditions.

The Casino of the Algonquin Hotel provided an excellent meeting place, and the records show more discussion than at any four conventions in the past, while there has been more fraternizing by the delegates, who got to know one another to a greater degree than ever before. During the Convention days delegates played golf on the beautiful links overlooking the sea and indulged in swim-ming in Katy's Cove.

Calgary, Alta. - After covering six hundred miles in the southern portion of Alberta, at the end of June, J. M. Cameron, general superendent of the Alberta Division of the Canadian Pacific Railway, de-clares that crop conditions there, generally speaking, are very satisfactory.
Mr. Cameron stated that farmers

had been taught an object lesson by grasshoppers. Where these insects had been active had been on stubble in crops. From the amount of summer fallowing that was now going on, farmers had realized that stubbling in was a poor gamble and left a breeding place for the hoppers. The hoppers, he said, were now practically under control in the south. Cutworms had done little or no damage on account of the frequent showers.

"I have been much pleased with my visit," said Mr. Cameron. "There is now quite an optimistic feeling among farmers and business men in the south country."

Elkhorn, Man.-Forty years ago Mr. Jas. Rodgers commenced working for the Canadian Pacific Railway Company, as a section man, and in about five years, through his ability to give the best he could and also because of his sterling integrity, was promoted to foremanship, holding this nesting until 20 years are ing this position until 20 years ago, when he desired a change of employment, and was transferred to the pumping station staff. For a while he worked at Fleming and Virden ir his new capacity and eventually assumed charge of the Elkhorn pumping station, on the retirement of Mr. R. Travis, another old time railroad man who is still with us,

3 hale and hearty as ever. A record such as Mr. Rodgers holds is decidedly unique. He is the second senior pumpman in the division, and his regularity and strict attention to his calling have won for him the deep respect of the Company, which places high value on the services of men of such capability. He has stood the rigors of an exacting position in a man-ner that must reflect great credit.

A Deserved Diploma--Certificate of Health

Miss M— lived in the Ottawa Valley, not far from the capital, with her mother and young sister. Work seemed the natural thing when she left school, and, accordingly, she started out to get what she could for her services. Progress was not fast, but at least she did not stand still, and her earnings were always increasing.

her services. Progress was not fast, but at least she did not stand still, and her earnings were always increasing.

With such prospects it seemed that her little sister could get the chance that she had been denied—a University education. The baby of the family went to Queen's, and this year, her alma mater gives her the degree of Bachelor of Arts. Next year she's going to do better—Master of Arts. But here's where the sadness comes in. The elder sister, broken in health by overwork, is no longer able to assist. She is a patient at the Muskoka Hospital for Consumptives, but it is hoped that she too will shortly graduate—with "A Certificate of Good Health."

Seventeen thousand patients have been cared for by the National Sanitarium Association in its hospitals in Muskoka and at Westen. Half of them have heen restored to health and happy homes. You can share in this great work if you will.
