### Railway News

Irish newspapers follow up the careers of Irishmen who leave the Green Isle. The Irish Independent had the following item a few days

Sir Herbert Samuel Holt, of Montreal, whose eldest son, Capt. H. P. Holt, M.C., is to marry Aileen Elizabeth, elder daughter of Mr. and Mrs. G. L. Cairns, of Montreal, is a man of considerable standing in Canadian commercial circles. He is a banker and railway engineer, and, besides being President of the Royal Bank of Canada, is a direc-

He is an Irishman, being born in the Co. Kildare in 1856, the son of the late Mr. Grattan Holt. Capt, Helt was in the 3rd Dragoon

J. M. Gilmour, chief clerk in the has been transferred to the same sition in the superintendent's fice at Medicine Hat. J. H. Fairley, chief clerk at Edmonton, will succeed Mr. Gilmour at Lethbridge. The former is being replaced in Edmonton by S. C. Connelly of Medi-J. M. Gilmour was the first chief clerk in the Lethbridge division, having been placed here to open the office August 1, 1914. He has been with Supt. C. D. Mac-Kintosh since that date. He has always taken a keen interest in the activities of the C.P.R. Social and

No man in Canada has the reputation of equalling Geo. H. Ham, of the Canadian Pacific Railway Co., as a raconteur and a wit. Sir Thos. White once called him "a great national asset.

Mr. Ham added that he was glad that Sir Thomas had fortunately not forgotten the "et." Even in the hospital undergoing an opera-tion for appendicitis, Mr. Ham ma-tained his reputation, as his best story, probably, will show.
When he lost consciousness, he

says, his last thought was "This is eternity."
"When I recovered from the effects of the opiate, I found myself

in a darkened room, and wondered where I was and what it was all The kindly-Teatured nurse quickly discovered that my con-sciousness had returned, and came to my bedside, and then I remem-bered everything. 'But why this dark room? It was early morning when they operated on me, but now it can't be night.'
"'No, it isn't,' she seriously responded, 'but we were afraid of the

shock you might get."
"'Why, what shock?"

"Well, there was a big fire just across the street, and we were afraid if you awoke, and saw the flames, you might think that the operation hadn't been successful.' "That shows you what it is to have a reputation."

The Commercial Cable Company and C.P.R. Telegraphs have taken over the Postal Telegraph Service in Newfoundland and are now handling all business over the Newfoundland government's cables and land

Whatever the wlume of the coal and grain business this fall, the Canadian Pacific would be in position to handle it. This was the assurance given by Grant Hall, vice-president of the company, at Cal-gary. Mr. Hall is on his annual He is in a most hopeful frame of mind regarding the crop situation in the three western provinces. Present prospects, he stated, were that there would be

"No, I do not anticipate any complications arising on this side owing to the strike among United States shopmen," he remarked in reply to a question. "There is no occasion to think this at the present time," he added.

Assistant Superintendent W. M. Neal of the C.P.R., who is leaving Toronto, to become general super intendent of Algoma district with headquarters at North Bay, and H. J. Humphrey, superintendent of the Trenton division of the C.P.R., who is to succeed Mr. Neal, were entertained to dinner by C.P.R. officials st Toronto recently. Mr. Neal was presented with silver candlesticks and Mr. Humphrey with an um-

A meeting of a committee of citizens named to consider the building of a Seamen's Institute at Quebec on the site in the harbor secured from the Government, was held recently at the Reval Bank building. Mr. J. T. Ross presided over the essembly, and a letter was read from Commander Filiot of the Canadian Pacific Steamships, stating that he was authorized by Mr. M. Bosworth, on behalf of Mr. E. W. Beatty, president of the C.P.R., to say that the latter company would subscribe \$5,000 towards the building, provided that the remainder of the amount required for the purpose is obtained from other sources. The plans call for an expenditure

of from \$25,000 to \$20,000. It was decided to accept this ofr with gratitude, and preliminary discussion took place as to ways means of collecting the balance

### Patronage Charge Made

OTTAWA, Oct. 5, (Canadian Press Dispatch). Charges that under the present Government patronage in civil service is being restored by the Houting of the Civil Service Act and the Civil Service Commission and that returned soldiers are the sufferers are made in the intest issue of the "The Veteran," official organ of the G. W. V. A. It is alleged that the soldiers preference clause in Civil Service Act is being ignored by the Government and returned men selected by the commission and given certificates of

A Few Helpful Hints for Youthful

Bear the Ancestors In Mind-Pick Typy Animals—How to Feed and Handle Colts, Calves and Lambs -Boys Are Making Good as

(Contributed by Ontario Department of Agriculture, Toronto.)

Calves that have been fed liberally and judiciously will develop as the factors which we call heredity determine. It will be all calf, but its the feeder should select the young while spending time and money on— and then take care of it. The breed score cards give clearly what is desired in breed type. These should be studied along with the animal that is being selected for exhibition. Calves should be halter broken when young, and handled gently that they may be quiet and docile at exhibition paratively easy to complete the work of preparation. Prospective exhibits should be kept in the stable for several weeks previous to the fair, where they can be washed, groomed and blanketed in order that their handling qualities may reach a degree of mellowness that is very desirable in exhibition calves. When exhibiting before the judge see that your calf is standing on level ground, quietly, and with feet well placed so as to present a good appearance. Don't let the other exhibitors crowd too closely and hide your exhibit from view.

Handling the Colt The colt selected for competition at the fair should meet the requirements of the class in which it is planned to exhibit. It should also be typical of the breed that it represents. As with the calf, the colt can only be what its ancestors make it. Colts may look very much alike when only a day old, but they certainly do not develop alike, even if the care and feed are the same. So get your start by selecting your exhibition prospect from good type parentage—exhibition stock if you can. Liberal feeding from the beginning on a comparatively narrow ration to develop all the bone and muscle possible should be the aim. Halter breaking and careful schooling to develop courage and tractability should be practiced from the beginning. The colt's feet should be trimmed frequently enough to keep them in proper shape. Teaching the colt to move attractively at the walk and trot, to stand well and to permit handling of its feet is very essential in the general training of the animal. Such training is also a great aid on exhibition day. The colt that has had liberal treatment from birth and developed well, needs but little exhibition fitting. Good feeding will put a bloom on the cott that cannot be attained in any other way. Protection from the hot sun and flies, blanketing and grooming are material aids in developing a desirable coat condition, and should be pracdecorations while very attractive to the average good horseman do not carry very much weight with the high class judge, and are not likely to be of influence except in very

Shaping the Lamb for the Fair. Lambs presented for exhibition at school or other fairs should, first of all have been born early enough in the spring to be well grown by exhibition time. The lamb's fleece should be kept free of ticks and lice, burrs and dirt. During the season, a washing can be given, if necessary at least two weeks pervious to the show. Lambs that are kept up and fed in covered pens will show a bet-ter fleece than if they had been running out on pasture up to the last minute. The fleece should be neatly trimmed one week or more after washing, if washing is practiced, and care taken to keep the fleece free of chaff and dust until the exhibition is over. In feeding for exhibition, variety in feeding stuffs should be sought in order to keep up the lamb's appetite, using oats, corn wheat, bran, cracked peas, barley meal and oil cake meal for the grain portion of the ration and good alfalfa or red clover hay, and swede turnips as roughage. These feeds if mixed to give a ration, with a nutritive ratio of 1 to 6 or 1 to 7 will take care of the growth demands and fatten the lambs. Should it be desired to feed the lambs while running on pasture, the grain ration given can be used. The lambs should be handled sufficiently to make them tame enough to stand well when being exhibited. If more than one lamb is called for in a class, all individuals should be uniform in size, type, condition of fleece and body fleshing.

close competition.

Getting the Pig Ready. Pigs presented for exhibition at school or other fairs should first of all be of the proper type and weight for the class in which it is planned to exhibit them. The exhibit should be clean. This condition is best accomplished by an application of warm water, soap and the scrubbing brush. The crate or pen should be well bedded with straw or shavings to make it comfortable and attractive. It should also be free from nails, old wire, broken bottles or any other material likely to injure the exhibit .- L. Stevenson, Sec., Dept. of Agriculture, Toronto.

It takes no more to feed a cow that tests high in butterfat, and she may be returning you double in profit.

be positively water-tight, particularly so if the pipes are laid under

they are covered up either under floors or in partitions, and before they are covered up for good, the water should be turned on under good pressure and a thorough test made for leaks, not only at the joints but all along the pipe line, as a small hole or split would cause a serious leak.

Be sure the man operating the threading tool knows his job and does it properly. It is very essential that the water pipes be located safe from frost, and therefore it is highly advisable to keep them away from the outside wall of the house or

It is particularly imperative to keep the pipes connecting the hot water boiler to the kitchen range or furnace fire box from freezing, as a stoppage in this line would cause blow-out upon the fire being started in the morning, and serious loss of life or property would likely occur, and lastly it is very poor economy to install anything less than the highest quality of galvanized pipe, never use wrought iron pipe for

Plumbing Fixtures. These comprise the kitchen sink, laundry tubs, bathtub, lavatory sink, and closet. There is a considerable variety in the style and quality of these articles, and naturally a large range in prices. You should insist on a good quality of enamel coating on the fixtures, this is very important The standard dimension of some of ticed during the month previous to these fixtures are as follows:—the exhibition. Ribbon and straw Kitchen sink, 20 x 30 inches. This sink should have a back, and one drain board, at least, of wood or enamelled iron should be provided for, two are better. The sink should be located at the most convenient height above the ficor for the women using it; not too low, else undue stooping has to be endured. A 5-foot bathtub is the standard size. It should be placed far enough from the wall to make easy cleaning around it possible. The lavatory sink may be secured in a shape either for side wall or corner installation. In the installation of a closet insist on a stop- Maple Leaf two-furrow walking plow.

> satisfactory. The cost of a standard outfit is brooder about as follows: Lavatory sink. including labor for instaling them and the fixtures is about \$195, making a total of about \$400.00.

the subject. Write the Department of Physics, O. A. C., Guelph, for advice, and for a copy of Bulletin 267, "Farm Water Supply and Sewage Disposal."— R. R. Graham, O. A. College, Guelph.

Few gardeners realize the importance of pulverizing the soil as deeply as it is ploughed. No matter how perfectly the surface is prepared, if the soil is coarse and lumpy below, the plants will not thrive. Large air spaces in the soil are a detriment, but a large number of very small air

After they are installed and before

A Drainage System. This part of the plumbing system consists of the soil pipe or stack that extends from the sewer up through the house and out beyond the roof. All the wastes drain into this pipe and by it are carried to the sewage disposal system. Each fixture is connected to this main drain by a smaller pipe having a trap to keep bad odors from coming back from the sewer. The stack is 4-inch east-iron pipe made in 5-foot sections, and the joints are caulked with cakum and lead. The other pipes are 2 inch and 11/2 inch, either iron or lead. Installing this part of this work, also the water service pipes, is commonly known as "roughing in." Space will not permit of further treatment of

spaces in the soil are a benefit.

# To Holders of Five Year 5½ per cent Canada's **Victory Bonds**

Issued in 1917 and Maturing 1st December, 1922.

### **CONVERSION PROPOSALS**

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 54 per cent interest, payable half yearly, of either of the following classes:-

> (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the

information on Beauty Culture.

Dated at Ottawa, 8th August, 1922.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion

The surrendered bonds will be forwarded by banks the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,

Minister of Finance.
