GOAL STRIKE IS OVER

Miners Are Back at Work Once More.

New Wage Agreement Was Ratified by Wilkes-Barre Convention, and Men Take Up Tools After Being Idle for Five Months--Investigation of Conditions to Be Made During Coming Year.

WILKES-BARRE, Pa., Sept. 12.—The anthracite wage agreement, sending the miners back to work at once, after more than five months of idleness, was ratified by the tri-district convention of the hard coal diggers Saturday night.

Under the agreement, 155,000 mine workers return to work at the rate of wages they received when they suspended mining on March 31. The new contract will be in effect until August 31 next year, when a new arrangement is to be negotiated "in the light" of a report to be made by a commission, which both sides recognize every phase of the anthracite industry.

The peace pact was ratified by a viva-voce vote. Immediately afterwards a motion was unanimously adopted suspending the men at once, and the men will be permitted to return to work this week. As soon as the convention adjourned leaders of the United Mine Workers immediately made preparations to have the formal contract signed by both sides at Scranton.

When the men return to work the suspension will have lasted 163 days, or one day less than the great strike of 1902.

It is expected that full production will not be obtained for several weeks. Some of the mines are not in the best condition and it is probable a shortage of labor will be experienced at the start in some sections, due largely to the fact that many men left the regions to seek work in other places.

The pact came after a long day of oratory, which those for or against the peace pact put forth their best speakers. International President John L. Lewis, of the United Mine Workers, who has been devoting all his time to the anthracite situation since the Cleveland settlement, made the bituminous coal fields, made the concluding speech in favor of ratification.

In his speech the miners' chief gave a complete review of the conditions that confronted the union in the light to retain present wage scales.

The determined contest of the union in rejecting arbitration in all forms was also reviewed. Mr. Lewis declared that as a future policy of the union, no form of arbitration would be accepted.

No Higher Prices.
PHILADELPHIA, Pa., Sept. 12.—No higher anthracite coal prices than prevailed when the suspension of mining began and limited the supply to domestic consumers to 40 days were decided upon Saturday at a conference of the Pennsylvania Fuel Commission and independent coal operators.

Summs Seeking New Port.
LONDON, Sept. 12.—In quest for a new port following a breakdown of the negotiations with the Portuguese regarding the rights at the port of Lourenco Marques, Gen. Summs, Premier of South Africa, is making a tour through Zululand, says a Reuter despatch from Durban.

Speaking at Esbowne, the Premier said he had come to have a look at Kosi Bay and to see what could be done for the East Transvaal coal-fields, whose outlet had been handicapped owing to the unsatisfactory handling of export coal at Delagoa Bay.

Progress, he said, must now be made with the scheme for creating another port in British territory and the investigations have already begun.

British Building Aerial Cruiser.
LONDON, Sept. 12.—The Daily Chronicle's Aviation Correspondent, writing on the race between nations in the development of aircraft, refers to a British winged aerial cruiser now being completed by the Fairy Aviation Company.

Many features of it are official secrets. It is constructed of metal, develops not far short of 3,000 horsepower, and will be capable of long endurance flights without alighting for fuel. The weight is 15 tons.

Another leviathan of the British Air Service, says the correspondent, is a great winged troop transport with a hull of steel tubing, capable of carrying 15 soldiers with their full equipment for long distances.

Bolivia Withdraws.
GENEVA, Sept. 12.—Bolivia has notified the League Secretariat of her withdrawal from the Assembly. The Bolivian delegation has not been in attendance this year, but remained in Paris, although their credentials have been sent to Geneva.

Bolivia's real reason for action is supposed to be the same as that of Peru in refusing to seat its delegation in the third assembly, namely, the election of the Chilean, Augustin Edwards, as president.

Takes the King's Cup.
CROYDON, Eng., Sept. 12.—F. L. Bernard, piloting an airplane entered by Sir Samuel Instone, won the King's Cup on Saturday, after a thrilling race in which he reached a speed of 136 miles an hour. Rynham was second and Cobham third.

Drowned in Sour Milk.
MONROE, Mich., Sept. 12.—Morris Schwichtenberg, 18 months old, was drowned at his parents' home in Monroe township Saturday, when he fell into a pail of sour milk.

NEW IRISH PRESIDENT

William Cosgrave Is Next Target for Assassins.

He Made a Courageous Speech in Which He Promised to Restore Order and Suppress Crime--Labor Representatives Angered By His Stand on Civil War--Ulster Men Are Hopeful.

DUBLIN, Sept. 12.—The Irish Parliament met here Saturday, organized and was urged by the leader of the Labor deputies, Tom Johnson, to make a statement on general issues awaiting by the people.

He complained that the army conferences preceding the outbreak of the civil war had never been explained and the public was still ignorant why these conferences had failed—whom was he responsible.

He further criticized the die-hard utterances that have appeared in the Government publicity statements.

"Let us face realities," he urged. "We know you are not going to be able to disarm all these people. If you realize that, then is there no way in which word can be uttered from Ministerial benches which will give some kind of hope to the counsels of the Government?"

William Cosgrave, who was then in nomination as President of the Government, listened impassively to Johnson, and to questions which other deputies first at him concerning the conduct of the civil war, and the Government intentions.

Then in formal tones he read a brief reply to the effect that he would assert the authority and supremacy of the Irish Parliament and support the rights of the people and would ask the Parliament for power deemed essential to restore order, suppress crime and expedite reconstruction.

Deputy Johnson then equally coldly and briefly announced that the Labor members found the Government statement unsatisfactory and that he proposed to vote against Cosgrave as President of the Parliament. He was elected, nevertheless, despite the opposition of 17 Labor members.

The other Ministers elected were: Kevin O'Higgins, Home Affairs; Desmond Fitzgerald, former Minister of Publicity, now Foreign Affairs; Patrick Hogan, Agriculture; Ernest Blythe, Local Government; Joseph McGrath, Industry, Commerce and Labor; Prof. John McNeill, Education; temporary Minister of Finance to be Cosgrave; J. J. Walsh, Postmaster-General; Deputy Finance Minister portfolio, Deputy Finance Lynch and Deputy Eamon J. Duggan, former Minister of Home Affairs, and the only signatory of the treaty now in the Government. The Parliament adjourned until Monday, Ulster Pleased.

Best Crop in Six Years.
CALGARY, Alta., Sept. 12.—"Alberta is harvesting this year the finest crop since 1915," declared Geo. Hill, Dominion grain inspector. Reports from all parts of the country indicate that the average grade will be high, there having been so far, no frost, no hail and no extremes of dry or wet weather. It is reported from authoritative circles that, while 35 bushels to the acre will be common, yields of 30, 35 and even 40 bushels an acre will be numerous.

Threshing is now general in all parts of the province. Most of the cutting is already completed. There has been no acute shortage of labor reported from any section.

Highway Now Open.
BRANTFORD, Sept. 12.—The highway to Hamilton is now open, and motorists have been relieved of the discomfort of traveling over the detour, which has been in exceptionally bad shape for the past three or four weeks. The new pavement is in first-class condition, and is a distinct advantage to traffic on this highway.

It is expected that there will be no more detours on this road for some time. The provincial workmen are now at work paving another portion of the macadam section of the highway, but are closing only half the road at a time, so that motorists can remain on the highway from this city to Hamilton.

Find Skeleton of Youth.
LINDSAY, Ont., Sept. 12.—After a lapse of three years, the clothing, gun and several small personal articles carried on the day of his disappearance by Christopher Hull, a young man of about 30 years, were discovered by Eugene Nollefret, on Friday afternoon on the rocks about 200 yards east of Bob Lake Narrows. The clothes, etc., were identified as belonging to the young man, but only the skeleton remained. A jury was empaneled and then adjourned to await the decision of the crown attorney. The missing man left home on Sept. 29, 1915.

STORE CLOSES WEDNESDAY AT NOON DURING SEPTEMBER

September, the Beginning of the Fall Season Brings Liberal Display of New "Wool and Flannelette Blankets."
