BOYS IN AGRICULTURE

The Junior Farmer Is Much to the Fore To-day.

Badly Handled in the Past - Too -Re is a Born Club Man-Rural School Fairs and Boys' Clubs Are Making Active Young Patriots. (Contributed by Ontaria Department of Agriculture; Toronto)

In agriculture the boy had arrived. He was a long time coming. His way has been as tortuous as a wild grapevine, and at times his rejuctant feet larged distressingly. He Did Not Get a Fair Show at First.

To bring the boy into general agricultural work and study, all manner of efforts had been made. He was builled and bribed, cuffed and coaxed, pinched and patted, whipped and wheedled; yet searcely a foot had he voluntary some forward until very recently. The Old Caster Oil Polley.

At one time, Agaratively speaking, he was held by the ness while name sous dome from text-books of forbidding terminologies were forced down his nawilling threat, in order to give him a trute and enthusiasm

But to-day we have the hey gen-ninely interested in agriculture; open-eyed, open-minded, open-handed. Open-eyed, for he is looking at farming in a new light; open-minded, because he is now regarding agricultural instruction with a sympathetic understanding; opin-handed, for he is ready, even eager, to some the hee-handle and winds as proudly as if it were a field metabal's liston.

Too Much Book and Not Bough Boy. Early methods to bring acricul idral knowledge and the boy togethe failed because they lacked that most important thing in teaching knows important thing in teaching known as "paint of camet." There we too much book as at the local part of The Boy Is a Gin Boys are green

The boy, whether the country the country the call and it gives although the last

Rurai School Pairs have done ture. To be an exhibitor, and perhage a winner, at a fair has awakened the ambittely of many a bay." To be able to show and win implies a knowledge of growing things. To know how to grow things mean observ-

ation, study and industry.

The first Rural School Fair was held in 1909, three schools uniting, and had an attendance of 250. In 1921 there were 449 fairs, embracing 3,845 schools, with an attendance of 545,259, ever half of whom were juniors. At these fairs practieally every branch of agriculture was covered, and the total entries of exmbits reached about 200,000.

Home Garden, Acre Profit, Baby Best, and Hog raising contests have also stirred the farm boy to action

These associations are made up of young men, many of whom have been trained threath the School Pairs, and some of whom have taken short courses under the Agricultural Representative. They are local leaders in educational, business, and so-dal endervor, as yell as being fore-most in taking up new methods of agriculture. They have memous of agriculture. They have been active in organizing and conducting Inter-Association Debaim, County Judging Competitions, Ploughing Competitions, Baseball Langues, and Pield Dawn.

Picid Days.

Picid Days.

These Junior Ploughing Matches are period a long neglected phase of agricultural endeaver, and old ploughmen have engreezed great ent-infaction with the work of the lade. Livy Stock Judging Contents took place in thirtysteres counties last year, and there have been many inter-County competitions. The win-sers had a free trip to the Chicago international Live Stock Show, and came back with a bigger vision of

Boye' and Girle' Live Stock Clubs. The Boys' and Girls' Live Stock Clubs are doing much to develop the breeding of superior cattle, hegs, etc. About fifty of these Clubs are in

M Stewart Street

Wanted

Other activities of a useful and elevating character are engaged in by boys on Ontario farms, all of which suggest a keen, practical and intelligent acquaintance with agriculture, its literature, and its practice. In agriculture, the boy has arrived.

Thos. McGillieuddy, Statistics and Publications Branch, Toronto.

Here and There

Gait, Ontario. — It is announced by the Canadian Pacific Railway that among the improvements planned for 1928 to compan, property is the building of a steel water tank to hold from 60,000 to 100,000 gallons at

Ottawa. - A constantly growing appreciation on the part of Canadians of their national parks, evidenced by the continued increase in the number of visitors in the last year, is emphasized in the report of National Parks Commissioner J. B. Harkin Visitors to all Canadian national parks during the year in question were estimated at 166,090, of whom more than 71,000 went to Bandf. Foreign travelers to the larger parks were about 65.000. From an economic point of view, on a basis of \$300 spent by each foreign visites while in Canada, the national parish accounted for an indirect revenue of second for an ingirect revenue or some \$19,500,000, which amounts to about \$2.22 per capita of Canada's present population. Other revenues from the parks, in the way of timber and canada sales and concessions, accounted for \$72,000. Total appropriations for the parks last year were \$966,000.

Owen Sound. — Superintendent William Bethune, of the C. P. R. lake steamships has announced the officers for the steamers for the coming season. All last year's officers will be in their place without may change. The officers are as follows: S. A Assinibeine James McCannel, mas er; A. A. Cameron, chief engineer; George Bethune, purser; D. A. Sufa George Bethune, purser; D. A. Suffa-sriand, chief steward, S. S. Keewn-tin—B. M. McRhee, master; C. But-terwarth, chief engineer; C. S. Miera, Buzese; E. R. McCallum, chief stew-ard, S. S. Manticht.—F. J. Davin, master; George D. Adapse, chief see-sians; George H. Flak, chief stew-ard; John R. Leine, purses. 3. S. Attalanda, Mardenk McKey, man-ter; George S. Rae, chief engineer, S. S. Alberta—John Meletyra, man-ter; William S. Struthers, chief sp-sians.

Daring the same period there has been experted from Vasgouver to the Orient 1,284,550 husboll, and to the United Kingdom 10.002,520 busheld, or a total of 11.373,176 bushe the Canadian Pacific Bailway delityered at Vancouver a lotal of \$,461,-958 bushels of grain, the there was experted from Vancouver during the same period last year \$200,000 husb-els, 1,320,000 of which were expert-ed to the Orient and 2,000,000 to the

United Kingdom. In addition to this grain, which has already been experted from Van-couver as far this season, there is in store in elevator at that point 942,-392 bushels, according to a statement of E. D. Cotterell, Supt. Transporta-tion, Western Lines.

Vancouver. - In the C. P. R.

Motel Vancouver, at Vancouver, there are approximately 600 rooms. The hil-the-year-round staff numbers about 400 employees. The comparatively small matter of keeping paintwork, etc., in spotless condition calls for the continuous service of five painters and ten helpers; and five engineers with four stokers, four ash-men, two s oveilers and two truckmen are required a the engine-room. Then there are basement cleaners, store-room men. four kitchen cleaners, two p inters (foremenus), a yardman, an iceman, ive food checkers, and three men on food control. The duty of these last is to see that every ounce of food leaving the storerooms is tabulated. so that at the end of each day the results of dining-room operations can be checked instantly. The kitchen is the largest unit of the hotel. There is a chef with 48 assistant cooks, to serve the dining-room and srill. There are three separate cooks for the lunch counter. Two of the cooks attend to the broiling. three do nothing but frying three cook regetables exclusively, and there are six pastry cooks. In addition, there are cooks who bell eggs. ethers who misks tes, and others who make onffee. On man spends his working hours making toust; and there is another whose soil duty is to claim and open cynters. To feed the guests in one day 90 dozen eggs are required. Between 3,000 to 5,000 lunch and dinner relis are baked daily, and to butter these, and for combing, 160 lb. of creamery butter caning, and to putter these, and for centing, 160 lb. of creamery butter are cansumed at the rate of 190 lb. a dag, and between 800 and 1,500 lb. of petatoes are used every twenty-four hours. Other engetables are used in anomalities of from 80 to 150 lb. as quantities of from 50 to 500 lb, according to the number of guests in the hotel. It takes from 18 to 30 gallens of cream, 50 gallens of milk, and 175 to 200 lb. of poultry daily satisfy the demands of the guests. Winter and summer the hetel ise plant turns out ten tens et ice daily.
