BLIZZARD ON ATLANTIC.

Toll of Deaths Reported From Newfoundland Coast Towns.

ST. JOHN'S, Nfld., April 2.—The schooner Gordon Hollett sank off Cape Race within an hour after the crew had been removed to the steamer Sable, the latter vessel reported on her arrival here Sunday with mail from St. John's, C.B. The Gordon Hollett was 85 days out of Cadiz for St. John's, salt-laden, when she foundered.

The schooner was damaged by ice while trying to work her way through the floes to this port, and on sighting the Sable, hoisted distress signals.

Captain Thrown, of the Gordon Hollett, reported his schooner's condition to the Sable and the crew transferred without suffering discomfort. No other steamer was expected in that vicinity for many days.

Reports from outlying districts of Newfoundland brought the total deaths from Thursday's blizzard to six. In addition to three men previously reported frozen to death at Three Harbors, the loss of three became known Sunday.

John Tobin of Trepassay walked into a hole in the ice on Trepassay Harbor, near Cape Race and was drowned. Jacob Stoddley and Thomas Green, of Fortune Bay, disappeared while on their way to English Cove. Service on the Newfoundland railway suspended owing to the blizzard, has not been resumed yet. Off the coast the storm is still raging. Many vessels remain frozen in the ice-fields and the sailing fleet reported by radio that it was unable to move owing to the ice pack.

Rescued From Ice Flow.

WINDSOR, April 2.—Two boys were rescued from almost certain death by drowning when Constables Samuel Royan and H. W. Neal of Windsor Police Department took them from an ice cake in Detroit River Friday night. The boys, who refused to give their names, were playing on the ice near the Windsor ferry dock, when a large cake became detached, and floated several hundred yards down the river. They were seen by the policeman, who brought the cake to the shore with long sticks and took the boys off.

IN THE TOWN HOUSE

To-day, April 11. Middle of the week which was to have seen the debate on the budget, finds a tangle in the Legislature, owing to the illness of Mr. Hay.

Here and There

Canada's export trade grew \$14,000,000 in the first eleven months of the fiscal year ending March 31st.

A recent and popular Canadian Pacific appointment is that of Mr. Walter Maughan to Steamship Passenger Manager. The appointment includes management of the company's passenger business on both the Atlantic and Pacific oceans.

Fire insurance companies found 1922 the most disastrous year for more than 20. The ratio of losses to premiums was 68.84 per cent. British companies suffered most severely, their losses to premiums being 71.48 per cent, mainly due to the Northern Ontario fire.

A gold rush is in full swing and it is expected to bring about the development of more mining camps in the counties of Temiskaming and Abitibi. Gold was discovered in these two counties early in 1922, and a rush of prospectors began in March of that year. In October, 250 claims were staked, comprising 50,000 acres of land, and to date about 30,000 acres have been staked.

In the last fiscal year, Canada imported 1,243,000 pounds of butter from the United States, 297,000 pounds from Australia and 2,254,000 pounds from New Zealand. The total exports of Canadian butter were 8,430,000 pounds.

It is announced that the running schedule of the Trans-Canada Limited, which will operate between Montreal, Toronto and Vancouver, commencing May 20th, has been cut down one hour. Considering the all steel equipment and luxurious appointments and its regular daily long distance train in the world.

Bungalow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and Lake of the Woods districts of Ontario by the Canadian Pacific Railway. Low cost of construction and maintenance will enable the company to offer lower rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of parts of call in the Orient, the Canadian Pacific Steamships Limited, by omitting Macao as a port of call between Shanghai and Hong Kong, will bring the latter port four days nearer to Canada, the United States and Europe. This makes possible a three-day service from London, England, via Canadian Pacific Atlantic Expresses to Quebec and rail to Vancouver and via Canadian Pacific Expresses to Hong Kong under 23 days.

During the year 1922 the Canadian Pacific Railway handled a total of 8,435,825 pieces of baggage as compared with 8,732,974 for a previous year. Of this amount 5,175,203 pieces were passengers' baggage which compared with 5,486,455 for the previous year. Twelve months 6,997 bicycles were handled, 19,336 dogs travelled as baggage and 23,983 baby carriages were moved. There was also a considerable increase in the movement of milk. In 1922, the Company moved 1,623,707 cans as against 1,614,791 in 1921; and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an apparent indication of the further development of mixed farming in those provinces.

One of the best examples of a town "growing up" is that of Climax, the end of steel on the Canadian Pacific Railway. All that there was on the quarter section on February 19th, the day on which the site of the new town was finally settled, was a homestead, a church and a small barn. When the steel was laid in Climax on March 15th there was a restaurant, one rooming house, over a score of dwellings, two blacksmith's shops, a drug store, gent's furnishing store, a big general store, pool room and barber shop. The new town is situated in four large flat 7-acre tracts in which nearly 100,000 bushels of grain were stored, and a butcher shop. The new town is situated in Lone Tree R.M. number 18, about 30 miles south of Shaunavon.

The Jarvis Drug Store Has A Complete Stock of New Wallpapers for The Spring Trade Prices Right JARVIS Drug Store

Andrew Hicks, (U.F.O., South Huron) and F. Wellington Hays, Liberal leader, speaking in reverse order. Mr. Hays came to have understood that Mr. Hicks, being absent on Tuesday, gave his rights to speak, and Liberal members protested that if any private member prolongs the debate others will take part. Premier Duggan was absent in Montreal, and Hon. Manning Doughty, leading the House, was unable to state definitely what arrangement had been made. In any event, the end is in sight, and a red hot wind-up, with Hon. Howard Ferguson and Premier Duggan addressing the people through the House and the press.

Mr. Hay, who has been constantly tolerant of the Government and all its votes, was inclined to be critical on this occasion. He scouted the very idea of a surplus, as claimed by Hon. Smith, and reiterated his statement that the Liberal party in the Legislature is united and never desired to be anything else.

He deplored the system under which the public accounts are got out, declaring that few members can digest them in their present form, and said he favoured the combined office of auditor-general and controller of finance. There ought not, he thought, to be any supplementary and further supplementary estimates.

"I do not believe we have any surplus," said Mr. Hay. "I think we are long way behind. The surplus unquestionably is not there, and there is a very considerable deficit in our operations of last year. The figures are not material, but anyone who knows anything knows we ought to have a deficit at close of the fiscal year when we will not take in or pay out more money."

Suicided In His Cage.

MONTREAL, March 26. With a bullet wound through the head Joseph August Grignon, 28, was shot dead by a guard at the penitentiary at Montreal. Grignon was a member of the Dominion Express Company, 142 St. James street, was found dead in his cage shortly after the 7 o'clock Saturday afternoon. One door of the cage was locked and the shutter of the window shut, so that no one could be seen when a revolver was raised out from within the cage. When Grignon was found lying face down with a revolver lying near him, a bullet had passed right through the victim's head, and was found lodged in the wall of the cage.

Grignon's body was found by a guard on duty at the penitentiary. He had been complaining of ill-health for some time, and that a wire was locked and the shutter of the window shut, so that no one could be seen when a revolver was raised out from within the cage. When Grignon was found lying face down with a revolver lying near him, a bullet had passed right through the victim's head, and was found lodged in the wall of the cage.

Killed Helping Conductor.

OTTAWA, March 26.—Assisting a conductor on the Ottawa Electric Railway to put a trolley pole on the wire, a young man, Gordon L. Case, aged 31, a war veteran of the Royal Air Force, his life Saturday night. Case was in the rear vestibule of a Hull-St. Patrick street car on Queen street when the trolley pole came off the overhead wire as the car was crossing the Grand Trunk Railway tracks.

The car, which was proceeding from Hull, was filled with passengers, and the conductor was in the middle of a group in the center of the car. Case jumped off and was trying to put the trolley on the wire when a second car, traveling close behind, ran into the first car and crushed Case under the vestibule.

Case was taken to the hospital with both legs broken and suffering from internal injuries. He died half an hour afterward. Mortician A. Hugg of the second car said he was unable to see Case owing to blurred windows.
