**Chevrolet Leads
 Because It Deserves To**

**IN 1922 Chevrolet astonished the
 world by producing a car of re-
 markable quality at a remarkably
 low price. The 1923 Chevrolet is an
 even better car at an even lower
 price.**

The same high quality of construction
 that characterized the 1922 Chevrolet
 has been retained—but to these have
 been added new features that make the
 1923 Superior Chevrolet truly astonish-
 ing value.

Not only has the car been improved
 mechanically, but the new high radiato-
 and cowl line and heavy crown fenders
 add immensely to its appearance and
 make it one of the most beautiful cars
 on the road irrespective of price.

About the G. M. A. C. Plan of Deferred Payments

BOOTH and POND

HARVESTERS ARE COMING.

They Have Left the Old Land for
 the Canadian West.
LONDON, Aug. 6.—The hope is
 being expressed here that the Cana-
 dian Government will take steps to
 retain in Canada the 5,000 har-
 vesters who will go from Britain in
 the next few weeks. The first train-
 load left London Thursday amid
 scenes of great enthusiasm and they
 appeared remarkably fine physical
 specimens. This and optimism, how-
 ever, were the only common charac-
 teristics of the three hundred. In
 class, clothing and nationality they
 were as mixed as a bunch of 1913
 army recruits. Leira Austrians, Eng-
 lishmen and New Zealanders were
 all there. Among the party were
 three clergymen, one of them stout
 and cheerful, being amusingly anx-
 ious as to his competence for the
 work that awaited him as a farm lab-
 orer near Winnipeg, ex-officers in
 dyed uniforms, clerks wearing clearly
 unsuitable stiff-winged collars, ex-
 soldiers carrying neatly rolled great
 coats and the old familiar kit bag
 and big schoolboys in straw hats
 and new boots.

MUSIC AT THE FAIR.

Toronto Exhibition Continues to Im-
 prove Cultural Features.
TORONTO, Aug. 6.—Interest in
 the arts continues to grow at the
 Canadian National Exhibition, and a
 great deal of work is being done to
 foster that feature this year. It was
 announced during the past week that
 a number of well-known grand opera
 singers will be heard in the week
 of music drama, which is to be given
 during the second week of the Fair
 in the Coliseum. Last season the ex-
 periment was tried with three operas,
 it proved so successful that the re-
 pertoire of operas has been increased
 to six, in which several famous vocal-
 ists are to be heard.
 The choral features have also been
 enlarged, and under the guidance of
 Dr. H. A. Fricker, conductor of the
 Mendelssohn Choir, a large choir will
 perform on Music Day. This under-
 taking is the biggest thing of its kind
 ever attempted in Canada. The suc-
 cessful musical contests are being
 continued this year, and a number
 of celebrated bands will be heard.
 Music has never before been given so
 much attention at the Exhibition.

Three Husbands Alive.
BROCKVILLE, Ont., Aug. 6.—
 Violet Hazel Stillwell, 22 years of
 age, and the mother of two sons, one
 four years old and the other ten
 months, was sentenced Thursday to
 serve an indefinite term in the Mer-
 cer Reformatory, the sentence not to
 exceed eight months, after pleading
 guilty to a charge of bigamy.
 Mrs. Stillwell, despite her youth,
 is said to have been married no less
 than three times in four years and
 all of her husbands are living and
 from none of them did she go
 through the formality of seeking a
 divorce. The woman, whose maiden
 name was Smith, of the village of
 Cardinal, in 1919 married George
 Lavere, of that place, and he is
 of Ogdensburg, N.Y., and a short
 time ago married Adolphus Youkar,
 of Cardinal.

Wanted in Lakeside.
DETROIT, Aug. 6.—Henry Mo-
 Mahon, 41 years old, wanted by the
 Lakeside, Ont., authorities on an em-
 bezzlement charge, was picked up on
 the street here by detectives Friday.
 He is held on a fugitive warrant.

**Falls' Great August Sale
 of Furniture Is Now On**

And we must prove it is the best.
 We have said many things about our August
 Furniture sale. The day has come when we are
 to prove them. We are ready with the proof. It
 is a proof that nobody can gainsay—the proof of
 good merchandise.

We promised our customers a sale, bringing
 one of the largest and finest assortments of fur-
 niture to be found west of Toronto. This, the first
 week of selection, we make good our promise, and
 it is your opportunity.

- See the Suites for Bedrooms and Dining-rooms.
- See the Living-room, Library and Hall Furniture.
- See the Two and Three-piece Chesterfield Suites.
- See the Wicker Furniture and Office Fur-niture.
- The sale Price Tickets are on all the goods and the display is well worth seeing.

**This is what the Editor of the
 Simcoe Reformer had to say in
 last week's Reformer :**

LARGE FURNITURE SHIPMENT

Probably the largest order of fine home
 furnishings that ever left the Falls Co. store
 was conveyed from Simcoe to a private home
 in London on Saturday afternoon last. The
 enormous size of the shipment necessitated
 the use of a two-ton truck from Aylmer, and
 every bit of available space was crowded with
 furniture and rugs. 'Tis said that fighting
 never strikes twice in the same place, but
 early Monday morning a second large order
 came down from London, and another truck-
 load of furnishings of the finer kind sped on
 its way to the western metropolis. Mr.
 Crabb, who superintended the loading opera-
 tions, when queried by The Reformer as to
 the value of the cargo, replied that to supply
 such information would be strictly against
 the company's rules of business. However,
 since the Falls Company are not selling on
 the installment plan, the editor's outlook for
 a new stock of home furnishings are very
 faint.

**Summer Clearance
 Throughout the Store**

IN THE DRESS GOODS DEPARTMENT

- Silk Mull, 36 in. wide, in Copen, Royal, Orchid,
 Jade and Old Rose. Per yard 67c

 for 15c
 - Toilet Paper, largest rolls 2 for 15c
- Falls' Department Store, Simcoe.

COOLIDGE TAKES OFFICE.

**Succeeds Automatically to Presidency
 of United States.**
WASHINGTON, Aug. 6.—Calvin
 Coolidge, Vice-President of the United
 States, who automatically succeeds
 the late Warren G. Harding as Presi-
 dent, was born at Plymouth, Ver-
 mont, on July 4, 1872, of old New
 England stock. He worked on his
 father's farm as a boy and through
 hard effort obtained an education,
 graduating at Amherst College and
 afterward practicing law at North-
 ampton, Mass. Before being elected
 Vice-President of the United States,
 in November, 1920, he was succes-
 sively Mayor of Northampton, mem-
 ber of the State House of Represent-
 atives and the State Senate, and
 Lieutenant-Governor and Governor of
 Massachusetts. His success as Gov-
 ernor in dealing with the serious Bos-
 ton police strike was, in the public
 mind, largely responsible for his be-
 ing chosen as Mr. Harding's running
 mate. He has a wife and two sons
 and is known for his simple tastes.

Firemen Are Burned.

WINDSOR, Ont., Aug. 6.—A dozen
 firemen were burned by exploding
 rats of tar when fire destroyed the
 plant of the Canadian Roofing
 Company, early Thursday.
 Several times the exploding tar
 forced a temporary retreat, but dis-
 regarding their injuries, the firemen
 each time returned to the fight,
 and after four hours succeeded in
 preventing the blaze from spreading
 to nearby factories.
 The fire was discovered soon after
 midnight by Joseph Cadarette, a
 watchman. It is believed to have
 started from an overheated reducing
 still. The loss is estimated at \$50,000.

The Horse Remains.
 It is true that the horse will never
 again occupy the same position in the
 world's economies as he did in the
 past. Motive power has changed
 rapidly in the past century and it is
 well that it has, for transportation
 improvement has been the greatest
 known stimulant to civilization. It
 has annihilated distance, and brought
 people together and in doing this it
 is bringing about a greater human
 understanding.

USING BRITISH COAL.

**Canadian Government is Preparing
 For Coal Strike.**
OTTAWA, Aug. 6.—The coal situ-
 ation in the United States, with its
 uncertainty regarding the possi-
 bilities of a strike in the anthracite
 field, is being carefully watched by
 the Federal fuel authorities. The
 Advisory Fuel Commission estab-
 lished by the Government last summer
 is still in operation and working in
 harmony with the Dominion Fuel
 Board set up last winter for the
 investigation of the general ques-
 tion of fuel supply. Touch is also
 being maintained with such of the
 provincial fuel controllers as are
 still in office.
 According to the latest returns
 available at the Dominion Bureau
 of Statistics, imports of fuel into
 Canada during the present season
 have been kept up to the average.
 For the three months ending with
 June, covering the first quarter of
 the current coal year, the imports
 of anthracite from the United
 States have been much higher than
 last year, and a trifle over those
 of 1921. The imports of bituminous

coal from the United States have
 been considerably higher than for
 1921, and inferentially much higher
 than those of last summer.
 The imports of anthracite from
 the United States for the quarter
 mentioned have this year been
 1,305,000 tons as compared with
 260,000 tons in 1922, and 1,238,-
 000 tons in 1921. The imports of
 bituminous coal from the United
 States for the same period have
 been 3,392,000 tons this year, as
 compared with 1,580,000 tons in
 1922 and 2,516,000 in 1921.
 The trade figures for the quarter
 further reflect the emergence of
 the United Kingdom as a source of
 fuel supply. During the present
 year there were 151,000 tons of coal
 imported from the United Kingdom
 in the three months, as compared
 with only 17,000 tons in the corre-
 sponding period last year. The large-
 est increase, proportionately, has tak-
 en place in anthracite, though there
 have also been considerable increases
 in the imports of bituminous fuel
 from Great Britain.
 When cutting in the woodlot, think
 twenty years ahead.
