Hospital for Sick Children

Recent statistics in medical science have called attention to the great service rendered by an up-to-date hospital through facilities provided for research.

Although the doctors give their services freely, the bills for equipment add up annually to a good many thousands of dollars.

To carry on this research work there is not one cent except what comes in from voluntary subscriptions.

May I ask you, Mr. Editor, to point out to your readers that since the establishment of the Hospital for Sick Children, at least four more have survived the trials of childhood?

Since the Hospital opened its doors in 1875, 65,231 in-Patients Treated - 603,058 Attendances of Out-Patients.

Explained.

Scene—Soldiers' barrack-room at dinner-time.

Orderly Officer (inspecting men's dinner) asks—"Any complaints, men?"

Officer—"Well what is it?"

Officer—"Spuds is bad, sir."

Officer—"Spuds is bad! Haw—er!"

Sergeant (glaring at culprit)—"The man is higgerant, sir; he means 'taters'!"

According to the Pasteur Periodical, a magazine issued by the celebrated Pasteur Institute in Paris, tobacco smoke is highly antiseptic and kills, in a few moments, the primary bacteria of cholera, diphtheria and cerebro-spinal meningitis.

Locality is of less significance in bird study than in any other branch of natural history, on account of the movement of birds from place to place.

Luck is the thing that helps you most when you don't trust to it.

HEALTH EDUCATION

BY DR. J. J. MIDDLETON Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

From the very dawn of history prophets and kings of humanity longed to know something of the causes that brought about sickness and death among the people.

Even as early as 1350 Baxar and some of his associates had seen the little rods in the blood of animals dead of anthrax but without comprehending their importance.

THE EARTHWORM

—From the Los Angeles Times.

CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does.

Many people are frightened into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is very seldom due to kidney trouble.

All dealers in medicine sell Dr. Williams' Pink Pills, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Still in the Higher Branches

Alice—"So you believe we were once nothing but tree-climbing monkeys?"

Tom—"Sure thing. Aren't the best of us only frisking about among the higher branches of education still?"

Ask for Minard's and take no other.

Across Earth.

Once, I think, you looked down and saw what was before you.

And begged not to come at all, and then heard one say—

A wise one, your special one—"This is your journey."

Then his gesture swept the sight from memory away.

Sandals of forgetfulness, staff and scrip of hoping.

He gave into your hand, and in a pale cloak,

He wrapped himself away from you, though you half knew him there,

Often . . . in blue twilight, in sunrise smoke.

A long road from sea to sea, . . . a hero's own highway,

You took it lonely, town after town, Forest and prairie.

Now, beyond the great divide, Long past the desert, you are near the dawn.

Not like the eastern is the western ocean, Its sky line is lost in mist, but at its near shore

Wonderful its colors, like a daytime sunset. When the sand you tread is wet you will see him once more.

Not as you thought, with tears, but with low laughter

Strangely light and carefree, you will understand

That always he paced you, and his step your own was timing,

That always your crossroad was the gesture of his hand.

—Isabel Fiske Conant.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets.

Under a new law in China a divorce may be granted for the ill-treatment of a mother-in-law or father-in-law.

The clauses of the present code differ in almost every respect, but one requirement is made—the consent of the father and mother must be obtained before a divorce may be granted.

Good Answer.

"Now, children," said the school-teacher, as she glanced in a despairing manner among the young hopefuls in her charge, "I want you to think very carefully before you answer my next question."

EASY TRICKS

Show five cards to the audience, asking a spectator to fix his mind upon three of them without telling you which he selects.

It seems impossible but it is really very easy. Take the three of spades and paste its back to the back of the seven of diamonds.

When you display the cards, hold them as in Figure 2. The seven will hide the misleading nature of the other card.

His Hearing Restored.

The invisible ear drum invented by A. O. Leonard, which is a miniature megaphone, fitting inside the ear entirely out of sight, is restoring the hearing of hundreds of people in New York City.

Europeans Who Live With Cows and Donkeys.

One of the most primitive places in Europe is St. Paul, at an altitude of 4,320 feet in a difficult part of the Alps.

"As you open the parlor door, chickens run out, and through a further aperture in the wall you catch a glimpse and a whiff of cows and donkeys in the back room, with perhaps a goat or two.

"These animals, by their bodily heat, contribute to the warmth of the family home during the long, hard winter.

"It is easy in the world to live after the world's opinions; it is easy in solitude to live after our own."

More short-sighted people are to be found in cities than in the country.

Mother! Give Sick Baby "California Fig Syrup"

Harmless Laxative to Clean Liver and Bowels of Baby or Child.

Even constipated, bilious, feverish, or sick, colic babies and children love to take genuine "California Fig Syrup."

The young hopefuls stopped pinching each other, and awaited her question open-eyed and full of interest.

"Which would you rather have—three bags with two apples in each, or two bags with three apples in each bag?" asked the teacher.

"Three bags, miss, with two apples in them, 'cos there'd be one more bag to bust!"
