Isa G. Monroe, Jarvis, was among
the teachers-in-waiting who have
successful in qualifying for limited
thirdclass and district certificates at
the Autumn examinations held at
the provincial model schools at
Cornwall, Kingston, Orillia and
Renfrew, according to results which
were made public last week.

On Tuesday of this week Mr.
Stephen Allen, of this village, called
on the "Record" and renewed his
subscription to this paper. This is
the 45th visit that Mr. Allen has
paid us, he having been a valued
subscriber ever since the "Record"
was established in January, 1878.
Mr. Allen will celebrate his 85th
birthday on the 17th of March next
and carries his age well. Here is
hoping that he may be spared to pay
us an annual visit for many more
years to come.

Free Chiropractic Lectures

Dr. Lillian Sherwin desires to an-
nounce that a series of Lectures on
Chiropractic treatment will be given
in Jarvis, Waterford and Simcoe
shortly. She will have the assist-
ance of Dr. Collins and Mr. A. H.
Sutton. The lectures in Jarvis will
be given in the sample room of the
Commercial Hotel and the dates
will be announced later. These talks
should prove extremely interesting
to the public who do not realize
what tremendous growths these
humane treatments are reaching.
Watch our columns for further
particulars and dates.

We Should Say No

A man told us the other day we
did not publish all the things that
happened. We should say we don't.
In the first place we have others
who depend on us for a living. If
we published all that happened we
should soon be with the angels. In
order to please people we must
print only the nice things about
them and leave the rest to the
gossiper; yes it's fact we don't
print all the news. If we did,
wouldn't it make spicy reading? But
this would be for one week only.
The next there would be a strange
face in Heaven.

team and it is up to the public to do
the paying while the boys do the
playing.

to start another war.

THAT we have passed the peak of de-
pression, and that from now on Cana-
da will advance by leaps and bounds.

THAT some day the ladies may be in-
duced to bring into view the pedal
projections which adorn their cran-
tums.

THAT some people have too much work
to do and that others not sufficient to
keep their minds in a healthy con-
dition.

THAT while our hockey team may not
win their district, the public should
turn out and patronize their games at
the local arena.

THAT Henry Ford should invent some
contrivance for putting runners under
hiscars and introduce a propeller to
draw them along.

THAT the question of what to do with
the indescribable Turk is no problem
at all. Exterminate them as they
have tried to do the Armenians.

THAT slaves of fashion (female and
otherwise) continue to be held in bond-
age, failing to use the common sense
which Providence endowed them with

Grey, Sask., was in town this week.
He accompanied the remains of his
father, the late Erasmus Hager, who
was brought here for burial.

Canadian Trees

There are nine distinct species of
of pine native to Canada, but, of
these, three are of little interest
from a practical standpoint. The
six are of great commercial import-
ance; they comprise, in the East, the
white, red, and jack pines, and in
the West, the Western white pine,
the Western yellow pine, and the
lodgepole, or Western jack pine.
