**Underwriters Endorse Chevrolet**

**Now rated as Class "A" Insurance Risk**

Less than a dozen motor cars—all much higher in price—have similar insurance rating, which is the lowest possible.

The fundamentally sound construction of Chevrolet Superior Models has again been proved by the fact that the Underwriters have given to Chevrolet, Class "A" Insurance Rating. This means that the Chevrolet owner gets the lowest possible rate of insurance, which means a saving of from 30 to 40%.

Less than a dozen cars are rated as Class "A" insurance risks, and these cars are all much higher in price.

This new ruling is further evidence of the attention to detail which our engineers have given to the production of the Chevrolet Car, and which is reflected in the increasing popularity of Chevrolet.

Chevrolet is the lowest-priced, fully-equipped car in the world and the lowest in cost of operation.

**Many Young Couples Just going to Housekeeping**

Make the mistake of spending all their money or running into debt when they begin their new lives—beginning exactly when they left off in their parent homes—As merchants naturally we are glad to have ready for them everything in Furniture, Housefurnishings and other things for the home, all they wish to buy and to give them every instruction in other ways. There is, however, the other side that parents and well wishers may wisely present to young homemakers—namely, that their fathers and mothers were twenty years getting together the loveliness of the old homestead where they were brought up. Pride is a dangerous taskmaster and not always safe to follow, especially if it leads us unnecessarily into debt.

**Canada Confident of the Future**

CANADA is endeavoring to regain her after-the-war stride in the midst of many difficulties, — debt, deflation and depression being some of them.

Quack remedies and academic theories beset her path on every side. Some suggest that our debt worries can best be eased by going further into debt. Others preach blue ruin, decry their own country and indulge in mischievous propaganda generally, while still others look for a new social order or some miraculous sign to indicate a better coming day—all this in apparent forgetfulness of the fact that just as there was no royal road to win the war, there is now no royal road to pay for it or regain our former buoyancy, vigor and confidence.

Some are leaving Canada hoping to escape taxation, only to find there is no escape anywhere. In seeking for easy remedies too many of us overlook the fact that the greatest remedy is honest, hard work faithfully and intelligently performed, accompanied by old-fashioned thrift.

It takes time, it takes patience, it takes grit. But every Canadian knows in his heart that Canada is coming through all right.

even a blazed trail. They had to fight savages, frosts, scurvy, loneliness and starvation.

The United Empire Loyalists subdued an unbroken forest in one generation, growing their first wheat amid the stumps and snags of the new clearing.

The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture, and grew wheat where none had grown before and where those who knew the country best at that time said wheat would never grow. Today the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands to-day among the wealthiest nations in the world, with average savings on deposit per family of \$200. Canada's foreign trade per head of population stands amongst the highest of the commercial nations, being \$192 per capita in 1922-23, as compared with \$135 in 1913-14, the "peak" year before the war.

**New Opportunities for Canada**

In Canada, although prices in the world markets fell below war level, our farmers reaped last autumn the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus in large measure making up for lower prices.

Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is opening up for Canadian stockers and feeders.

"The 20th Century belongs to Canada"—if Canadians keep faith.

The next article will suggest practical opportunities for profit making on our Canadian farms.
