Here and There

Shipments over the T. and N. O. Railway during the month of May amounted to \$29,15 tons of silver ore.

The movements of the mackerel schools will, when observed, be broadcast from radio apparatus erected for the purpose by the Canadian Marine Department.

Mr. Dan Otto, of Stratford, Ont., set 25 eggs and hatched 34 ducklings from them. One egg was apparently of the double yolk variety and both yolks were hatched.

A new direct passage service between Canada and northern Ireland has been inaugurated by the Canadian Pacific Steamships, Ltd. Three steamers have been assigned to the route.

James Edwards, of Port Robinson, declares he has a chicken out of this year's hatch which out-freaks most chicken freaks. This one has four legs, four wings, two backs, two necks but only one head. It has been preserved in alcohol.

One hundred and fifty families are to be brought into British Columbia and settled under private enterprise in the valleys east and south-east of Fort George. W. A. Lewthwaite announced, following his return from England recently.

A Swedish scientist claims to have perfected a process for the manufacture of artificial wood from 50 per cent. wood and the balance chalk and chemicals. The product is as hard as oak, and can be planed, sawed, bored, nailed, painted, stained or polished and will not deteriorate in water.

A start on the actual work of electrifying sections of the Canadian Pacific Railway's main line through the Rockies may be made next year. D. C. Coleman, vice-president of western lines, says that traffic demands and financial conditions would determine when a start would be made.

The decision of the Government of the province of Quebec to grant a bonus of \$4 per acre for land cleared of mill logs in an approximate amount of \$550,000. Clearing in the past few years has amounted to approximately 40,000 acres, but the total this year is expected to be 60,000 or more.

Speaking to the Canadian Club in London, Eng., recently, E. W. Beatty, President of the Canadian Pacific Railway, contrasted the "irritating tortoise-like slowness" of Canada's population policy with Australia's progressiveness. "We Canadians would be wise to keep our gates open for brains as well as brawn," he said.

One hundred and fifty delegates of the Canadian Weekly Newspaper Association will tour the British Isles next summer, and hold their annual convention in London, according to decisions reached at the final meeting of the convention here. The party will leave about the first of June and will attend the British Empire Exhibition. The tour will last about six weeks.

Up to the end of 1922 dividends paid by the gold and silver mines of northern Ontario amounted to over \$123,125,000. Cobalt camp was discovered late in 1903 and hardly began producing until 1905. Dividends paid out of Cobalt mines amount to \$93,863,290, which represents practically 50 per cent. of the gross value of production. Porcupine mines have paid \$29,472,988.

George E. Buchanan, of Detroit, head of the "On to Alaska with Buchanan" movement, will have 52 boys and 24 adults or members of the boys' families with him personally on his party from Vancouver July 18 via Canadian Pacific "Princess" steamer. Buchanan thinks, with President Harding, that a trip to Alaska is a liberal education to any boy who takes it. He puts up one-third of the expense, the boys carry one-third and the boy's parents put up the remaining third.

Fresh Water and Shade Aid Pork Production.

Good live stock men agree that plenty of fresh water and shade are important factors in the successful production of pork. Hogs will drink often if water is available. Water helps digestion and promotes fat production. A mineral mixture of charcoal, hard wood ashes, air slacked lime or ground limestone and salt in front of the hogs will keep them in better tone.

If a herd of good cows could speak, it is quite likely they would claim as theirs the farm which they so nearly paid for.

Cows need an abundance of fresh air, but it is unnecessary to expose them to the north side of a barb-wire fence during cold and inclement weather in order to get it. Cow comfort demands that fresh air be brought into a warm and well lighted barn. A warm barn may contain pure air and a cold barn may have impure and vitiated air.

NEWS TOPICS OF WEEK

Important Events Which Have Occurred During the Week.

The Busy World's Happenings Carefully Compiled and Put Into Handy and Attractive Shape for Perusal by the Readers of Our Paper.

TUESDAY.

A severe hailstorm hits Alberta. Brampton's reunion is a brilliant success. Nuttkins wins National Handicap at Hamilton. Thirty-eight persons were hurt in a trolley smash, near Buffalo. Polo match at Woodbine grounds draws large crowd.

Patrick Hastings, a Scot, found dead on railway tracks near Brockton.

British cruiser salutes president of U. S. with 21 guns on Independence Day.

CABINET IS SELECTED

Hon. G. Howard Ferguson Selects His Cabinet.

Premier Will Also Administer Portfolio of Education—W. F. Nickle Will Be Attorney-General and Lincoln Goldie Becomes Provincial Secretary—Four Brand-New Members of Legislature Are Honored.

TORONTO, July 9.—The official announcement of the personnel of the new Ontario Cabinet who will work with Hon. G. Howard Ferguson has been made, following the completion late on Saturday of the draft, which was taken to Government House and received the approval of the Lieutenant-Governor. According to arrangements which have been made with the Drury Government, Hon. Mr. Ferguson and his Cabinet will take over their duties on July 16th.

The Cabinet is as follows:— Premier and Minister of Education—Hon. G. H. Ferguson, K.C., B.A., LL.D., Grenville. Attorney-General—Hon. W. F. Nickle, K.C., B.A., Kingston. Public Works and Highways—Hon. George S. Henry, B.A., LL.D., East York. Provincial Treasurer—Col. W. H. Price, K.C., LL.B., Parkdale. Mines—Chas. McCrea, K.C., Sudbury. Public Health and Labor—Dr. Forbes Godfrey, M.B., L.R.C.P. and S., West York. Agriculture—John S. Martin, B.A., South Norfolk. Provincial Secretary—Lincoln Goldie, South Norfolk. Lands and Forests—James W. Lyons, Sault Ste. Marie. Without Portfolio—Hon. Sir Adam Beck, K.B., LL.D., London; Hon. Thomas Crawford, Seat "A," North-West Toronto; Dr. Leeming Carr, M.B., East Hamilton; J. R. Cooke, North Hastings. Speaker—Capt. Joseph E. Thompson, Seat "B," North-East Toronto.

In his Government, Hon. Mr. Ferguson has secured a combination of experience and youth, and so far as the actual allotment of departments is concerned it may be termed a Ministry of young men. The Premier himself has just attained his 53rd birthday. Mr. Nickle is in his forty-fourth year. Mr. Henry is in his thirty-second year; Col. W. H. Price is forty-five; Mr. McCrea forty-six; Dr. Forbes Godfrey fifty-six, and Sir Adam Beck is still reckoned a young man in energy at sixty-six. John S. Martin has already made a continental reputation for himself as an agriculturist, and Mr. Goldie comes from one of the oldest and best-known families in Western Ontario.

The eastern portion of the province, in addition to the Premier, will have as representatives the Attorney-General, and a member on the Hydro-Electric Power Commission, namely, J. R. Cooke. The central districts, including Toronto and the York ridings, has the Minister of Public Works, Provincial Treasurer and the Minister of Health and Labor, in addition to the Hon. Thomas Crawford, the Dean of the House who is Minister without Portfolio. As before, Northern Ontario will be represented by the two portfolios in which they are most interested, namely, of Lands and Forests and of Mines. The south western section will find representation in the Ministry through the portfolios of Agriculture, Provincial Secretary, and the member for East Hamilton, as well as Sir Adam Beck.

Senator Thorne Dead. OTTAWA, July 9.—The news of the death of Senator W. H. Thorne, of St. John, N.B., removes a well-known and able figure from Federal politics, and it was received with much regret in the capital. He was one of those forces whose influence was exercised more through contact with his fellows than through speeches made from his place in the Red Chamber. When he did speak, his ripe judgment and business acumen lent to his public utterances an undoubted distinction. He was a Conservative of the Macdonald school or his reminiscences of political battles of days long past in New Brunswick always secured for him an appreciative audience. His death makes three vacancies in the Senate, the other two being from Alberta and Quebec.

Blazing Airplane Alights on Roof. LONDON, Eng., July 9.—A blazing airplane crashing through the roof of a house Sunday killed the roof slayers in the machine and completely destroyed the building upon which it fell. The accident occurred in Purley, a London suburb, early this morning. A number of people watching the light saw the plane nose dive and burst into flames. Plunging downward, it exploded just as it smashed through the roof of a two-story villa. Lieut. Leroy, the pilot, and his observer, Logsdail, were killed instantly.

Morris Defeats Gollan. HENLEY-ON-THAMES, July 9.—M. K. Morris, Great Britain, is this year's winner of the Diamond Sculls, won last year by Walter Hoover, of Duluth. Morris defeated D. H. L. Gollan in the final heat for the trophy rowed on the Thames. Morris took the lead early in the race and won by a length. His time was 8 minutes 23 seconds.

Scientific Books as Reparations. ROME, July 9.—As part of the reparations in kind which Germany still delivers to Italy, Rome today received a huge consignment of scientific books and periodicals published in German. The consignment fits three large trucks.

LAYING OF THE CORNER STONE

COURT HOUSE, COUNTY OF HALDIMAND
