# A Pest!

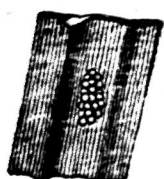

## The European Corn Borer

Great damage to corn crops in certain sections of Ontario has been caused in recent years by the European Corn Borer. To check this pest, follow closely recommendations of the Department.

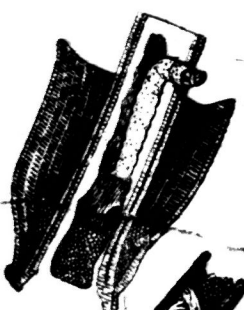

### Its Life History

The moth appears about the middle of June and lasts until about the last week in July.

### Egg Laying

In this period the female lays its eggs on the undersides of the corn leaves, preferably on the most advanced corn.

### The Borer

The damage is done by the borer stage. The "worm" develops from the egg, eating into the stalks and ears. It winters in the stubble or stalks.

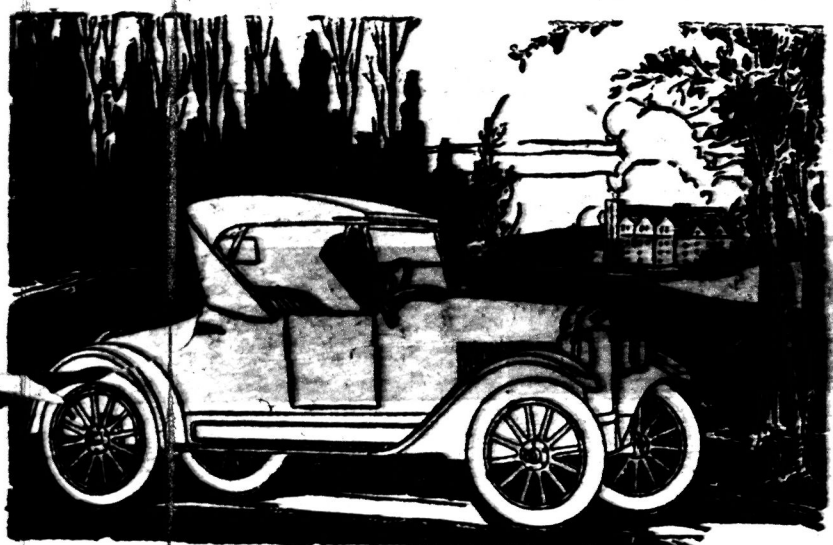

### The Pupa

The worm changes to the pupa, which in turn develops into the moth about the second week of June or later.

### Dominion Department of Agriculture

Arthur Gibson—*Dominion Entomologist*  
Division of Field Crop and Garden Insects, Ottawa, Ont. Field Laboratory, Strathroy, Ont.

NOTE: Address all enquiries to Dominion Entomological Branch, Ottawa. Send all specimens for identification to the Field Laboratory, Strathroy, Ont.

## A Continent At Your Garage Door

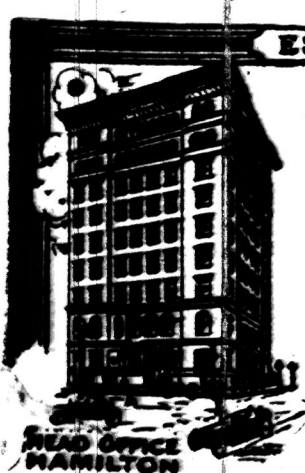

TO the owner of a Chevrolet the horizon is not a boundary set by his environment. The lure of the road calls him to know his own country and that of his neighbors.

No longer is there need or excuse for the family of moderate income remaining always within a few miles of their own home. The Chevrolet throws wide open the doors of travel for recreation or business at an initial cost and maintenance expense easily within the compass of a modest income. Motor touring, once the exclusive privilege of the rich and leisure class, is now made possible for every family.

Chevrolet is the world's lowest-priced, fully-equipped automobile and the lowest in cost of operation.

## BOOTH and POND

ESTABLISHED 1872

AGRICULTURAL industry is perhaps the field in which the greatest amount of business has been done by the Bank of Hamilton. This experience, coupled with close relations with every other productive and distributing business in the Dominion, has placed us in a unique position to consider intelligently the legitimate requirements of all kinds of Canadian business from the St. Lawrence River to the Pacific Coast.
