Railway News

Winnipeg, Man.-Since the commencement of the crop year up to Oct. 1st, 85,595,574 bushels of wheat have been marketed by the Canadian Pacific Railway western lines, it was announced at the local office recently. During the same period the company handled 12,229,772 bushels of coarse grain and for the same period last year 56,164,115 bushels of wheat were marketed as well as 6,340,683 bushels of coarse

year figures of 38,257. There is every indication that the volume of travel to Europe during November and December will this year be heavy. It is already apparent that the number of those who intend spending Christmas in the Old Country will be unusually large, and the Canadian Pacific Railway is making special arrangements to accommodate the traffic. A special through train will be run from Winnipeg to the steamer "Montcalm", sailing from St. John, N.B., on December 12, and through tourist sleepers will run from Edmonton, Calgary, Saskatoon, Regina and other western points to catch other C. P. R. sailings from St. John, thus

giving a through service from these cities to the Old Country. Bew Island.—The Canadian Pacific Railway Company has a gang of men at work here on the improvements to their pumping plant and when completed there will be quite an improvement to the volume of water that can be pumped from the river. The work includes the putting in of a new boiler and pump at the river, so that they can use natural gas as well as gasoline, and thus be sure of fuel at all times for pumping, and does away with water trouble and having engines run for water. It also increases the service here and practically does away with supply at other points.

H. R. Miles, division engineer, has

charge of the work and has a crew

of eighteen men working with him

under Foreman W. J. Oliver. It will take at least three weeks for the

work to be completed. When fin-

ished they will be able to fill the

present water tank, which holds

16,000 barrels, in three hours. When

it is considered that there will be at

all times. This new installation will meet the requirements. port business in fruit, potatoes and other lines of produce has developed to such proportions that exporters are now arranging to establish big collecting warehouses in Winnipeg and other cities of the prairie provinces. The Canadian Pacific has granted special storage in transit privileges at Winnipeg, Regina, Moose Jaw, Lethbridge and Calgary on carload shipments of apples in boxes originating in British Colum-

Under the new arrangement the

St. John, N.B.—The prize awards to section foremen on the New Brunswick district of the C. P. R., for the best sections of rails, roadbed, etc., have been announced recently by General Superintendent J. M. Woodman. His prize of \$50 for the second best went to N. Mason on the Shogomoc sub-division. The first prize of \$100, given by Manager J. J. Scully, was announced a few days ago. Of third prizes of \$25 each, one given by Superintendent Boyles of Browanville, is awarded to W. E. Nason, on section 5, Mattewamkeag sub-division; and one given by Superintendent Gilliland of Woodstock, to T. Abbott for
