Only a Youth, but Never Knew a Boyhood

Adams is a very weak boy who has a good many brothers and sisters and his parents are very poor. So when George put on long pants—he was just 15 at the time—he became a man and took upon himself the task of earning money for his family.

He went to learn a trade in an iron foundry, where fumes and hard work undermined a weak system and caused him much trouble. Now and then one of his brothers is earning through sickness a few more hours each day to make up for his life.

His life was just work, work, work until one day he dropped the floor. The company doctor, who examined him, pronounced him a consumptive. He can't work any more.
