## Here and There

It is announced that a new cave of the extent of which can only be surmised, has been discovered seven miles from Glacier House, Glacier, B.C.

The Yukon Territory is rapidly losing its inhabitants. In 1911 the population was 27,217, and in 1921 it had dwindled down to 4,157.

In an address to the Rotarians in Montreal last week, E. J. Beatty, president of the Canadian Pacific Railway, made a pointed statement to the effect that Canada needs more capital for development and more men for the same purpose.

An old-time stampede will be held in Calgary, Alberta, between July 5th and July 14th, 1922. The programme, as usual, includes stampede, cowboys, broncho busting, and fancy riding and roping, etc.

Resumption of direct steamship service this spring between Montreal and the principal Norwegian ports, with the object of furthering the expansion of trade between Canada and Norway, is announced by the Canadian Pacific trade agents for the Norwegian-American Line.

The Canadian Pacific steamship company recently brought over to Canada 400 men and women of the Hebridean Islands, the first migration of young Hebridean farmers to Canada under the Ontario immigration scheme.

A bill has been introduced into the Chamber of Deputies, Paris, authorizing the Government to expend \$750,000 francs on the Canadian travelling exhibition, at least thirty French towns will be visited by the train this summer.

As guests of President Beatty of the Canadian Pacific Railway, the young farmers club of Great Britain will cross the Atlantic and tour the Eastern and Western provinces of Canada.

Canada's exports to the United Kingdom in 1922 were more than \$84,000,000 higher than to the United States. To the United Kingdom, Canada sold goods to the value of \$37,751,000, and to the United States \$34,015,627.

Before the war India imported \$600,000,000 worth of commodities a year, of which Canada sent not more than \$100,000 worth. Last year her imports were \$200,000,000, of which Canada sent \$11,250,000, and it is now expected that there will be a further increase to between \$5,000,000 and \$5,000,000 this year.

The Canadian Pacific Railway has arranged with a number of European countries for the emigration of farmers and domestic who are willing to come to Canada for employment on Canadian farms. The immigration will be brought to the expense of the joint expense of their home governments and the railway company.

The first successful radio experiment on a moving long distance railway train was recently carried out on a Canadian Pacific Railway train from Winnipeg to Vancouver. Mr. Raymond White installed a receiving set in the drawing room of the special sleeping car, and the aerial was installed by the railway electrical department. The results were all that could be desired.

Seeing the train swaying as it passed her while she was being hurried by the reason why Mrs. Fred Muller, of Branner, Ont., would not take a ride on a train, but after she had returned to West Monkton from Elmira she told W. C. Gowen, the Canadian Pacific agent at the former station, that she thought she was afraid of travelling for the first time on a train, which did not go fast enough for her.

# WINNIPEG'S HISTORICAL MUSEUM

1 and 2—Corners in the Hudson's Bay Company's historical museum at Winnipeg. 3—An old-fashioned model of the "Nonsuch," the ship that brought the first H.B.C. adventurers to Canada. 4—A photograph of the Hudson's Bay Company's historical museum at Winnipeg.

FOR a comparatively young city, Winnipeg has many points of interest. None is more worthy of a visit than the historical museum that has recently been established by the Hudson's Bay Company. The museum is situated in the historic Hudson's Bay Company building, which was built in 1812, and is one of the oldest buildings in the city. The museum contains a wealth of historical artifacts, including a model of the "Nonsuch," the ship that brought the first H.B.C. adventurers to Canada, and a collection of historical documents and maps. The museum is a must-see for anyone interested in the history of the Hudson's Bay Company and the early settlement of the West.

### CATTLE MARKETS

#### TORONTO LIVE STOCK.

TORONTO, April 30.—A clean-up of cattle farmers last week, preparatory to getting the market at the season. Stock yards last week were slightly overstocked. The offerings of cattle were extended through the week by the fact that the majority of the offerings were of wintered cattle, some of which were not expected to be sold until the middle of the week. Prices were a little lower than anticipated in the inferior classes, but, except in the case of yearlings, the decline did not extend to the market. The market was quiet, with a few sales of fat cattle and a few calves. The market for calves was quiet, with a few sales of fat calves and a few yearlings. The market for sheep was quiet, with a few sales of fat sheep and a few ewes. The market for hogs was quiet, with a few sales of fat hogs and a few pigs.
