**When the hostess is proud of her home look for beautiful walls**  
Nothing so mars the appearance of a home as its wallpaper. It can detract from the effect of the finest furnishings, or lend attractiveness to the plainest. Re-papering is so easy--so inexpensive, 'tis poor economy to be content with shabby walls, of inviting pattern, limitless in variety. The best designs and colorings from the best Canadian, American English and Japanese Factories at moderate prices, go a roll to \$3.00

**Monument is Unveiled.**  
WINNIPEG, May 14.—With reverent ceremony, the monument erected by the Soldiers' Relief Association in honor of the memory of 1,500 Winnipeggers who lost their lives in the Great War, was unveiled Sunday afternoon on the grounds of the Parliament Buildings, before several thousand people. The monument is a bronze, representing a Canadian soldier stepping from the trenches in the moment of victory. The statue was designed by Lieut.-Col. J. M. Semmons, formerly commanding officer of the 78th Battalion, and Mrs. Millard Taylor, of Winnipeg, modelled the figure.

**New Customs Regulations.**  
DUBLIN, April 1.—The Free State's new customs regulations went into effect to-day. Officers on duty at the port of Dublin examined vessels which arrived during the morning, searching the luggage of passengers and crews. There were only a few passengers and, consequently, little inconvenience was felt. Officials and shipowners are satisfied the regulations will be carried out smoothly.

Each acre of corn grown in Ohio costs on an average 46.26 hours of labor.

Canada is now second on the list on an exporting land, the per capita being \$100.68 per annum.

A new station is being built by the Canadian Pacific Railway at Fredricton at a cost of \$50,000.

Half a million Canadians look to the forests each day for their meals and lodging, and more than 100,000 Canadian workmen are engaged in converting these products into one form or another.

Waving farewell to loved ones on the Metagama, fate was not more kind to them after they had settled here. Forty-five of their number were carried off by fever in the first year and the war of 1812 wiped out the settlement, homes, stock and crops.

In 1812 Lord Selkirk's agent, Colin Robinson, of the Isle of Lewis, persuaded a number of his fellow islanders to whom the abolition of the Clan system had brought high rents and misery, to settle in the Red River district. This party encountered through the hardships of the Indians and the jealousy of the white traders, when the settlement was wiped out on one occasion and many of them were forced to leave. However, they returned in time to harvest the first wheat crop and many attribute to this fact that Winnipeg stands where it does to-day.

Life will not be a bed of roses for those who have newly arrived and hard but this they can do. They are the descendants of the "lords of the Isles" who by strength of arms repulsed the invasions of the Scandinavians and Scots. Social and industrial development was retarded to a great extent by the clan system, but those who have adopted Canadian life have given their splendid gifts of intellect and simple dignity. Although forced by hard times to leave their homes to make new ones, most of them are in sufficient funds and not a few families aboard the Metagama were possessed of over \$1,000. Some have stopped in Ontario but the larger proportion of them have gone to Red Deer, Alberta, where they will form a small colony.

Three Steamer are Imprisoned on Lake Superior.  
SAULT STE. MARIE, Mich., May 14.—Three steamers, the Frank C. Ball, Cletus Schneider and the H. E. McIntosh, were on Sunday morning marooned in the ice near Lake Superior caught by the ice floes. They are at present stranded in quarters of a mile from shore, three miles above Whitefish Point.

**CAUGHT IN ICE FLOE.**

Some anxiety was being felt as to the condition of the boats, but on Sunday made their sixth day of imprisonment and over a week since they left their sailing post.

The project of a ship canal across Scotland from the Clyde to the Firth of Forth was brought to the fore again at a recent meeting of the Mid-Scotland Ship Canal Association, and there is a possibility of something being started in this connection in the near future.

A single pair of potato bugs would, without check, increase to 60,000,000 in one season; the hop aphids, developing through three generations in a single year would, if unchecked to the end of the twelfth generation, have multiplied to ten millions.

**WOMAN 109 YEARS OF AGE.**

OWEN SOUND, Ont., May 14.—Maria Hanson, 109 years of age, the oldest resident of Owen Sound, was taken Sunday to the House of Refuge in Markdale.

**STORK HAD TRIPLE LOAD.**

PICTON, April 20.—The stork was most generous to Mr. and Mrs. Norman Rattray, Tripitico, two girls and a boy—arrived to greet their home Sunday morning. These are the first triplets born in this vicinity for years. Mr. Rattray is accountant at the Bank of Montreal here. Mother and babes are all doing nicely.

**DAM BURSTS AT GRAND FORKS.**

GRAND FORKS, B.C., May 14.—Fifty thousand dollars worth of damage was done Saturday afternoon when a 20-foot concrete dam, bounding an artificial lake, on Hardy Mountain, gave way. No lives were lost. The dam was built in the Doukhobor community to provide water for irrigation. Peter Verigin, head of the colony, estimates the damage at \$25,000.

**FOUL PLAY IS INDICATED.**

BRIGHTON, Ont., May 14.—While excavating for a sewer a cow that died on the farm of C. Baker, near here, the remains of a human skeleton were discovered. Part of a skull was also discovered, leading to the belief that the body had straggled when buried.

The position of the body, placed face downwards in a cramped position, would also indicate the impression that had been made on the responsible for the death of the cow. Dr. F. M. Dore, of Brighton, was taken charge of the skeleton, which will be sent to Toronto for expert examination and opinion.

**JUNE EXAMINATIONS**  
The time table for the annual June school departmental examinations has been issued. The entrance examinations will begin on Wednesday, June 27; the lower school examinations on Tuesday, June 28; the upper school Thursday, June 29; and the middle school Monday, June 18.

One of the examinations for high schools has been abolished by the department of education. Lower school departments for entrance to the normal schools will be granted pupils of high or continuation schools who have passed comprehensive tests conducted by their teachers on the various subjects.

**A Pest!**  
**The European Corn Borer**

Great damage to corn crops in certain sections of Ontario has been caused in recent years by the European Corn Borer. To check this pest, follow closely recommendations of the Department.

**Its Life History**  
The moth appears about the middle of June and lasts until about the last week in July.

**Egg Laying**  
In this period the female lays its eggs on the undersides of the corn leaves, preferably on the most advanced corn.

**The Borer**  
The damage is done by the larvae. The "worm" develops from the egg, eating into the stalks and ears. It winters in the stubble of stalks.

**The Pupa**  
The worm changes to the pupa, which in turn develops into the moth about the second week of June or later.
