See let the Lord be thankit.

THE selling price of any automobile is based on the cost of material, production, distribution and overhead. Large volume of sales greatly reduces all these costs.

Chevrolet has so correctly gauged the present demand for a quality automobile providing transportation at the most economical cost, that its volume of sales has increased tremendously. It now occupies first place in the sale of fully equipped quality automobiles.

Therefore it is possible for Chevrolet to establish the lowest price in the world for a quality automobile. Chevrolet is not merely the lowest priced quality car, but it is lowest of any car in cost of operation.

## The Old Cabinet Maker Says :

That they keep right on improving these Kitchen Cabinets until he doesn't see how they can put any more conveniences in them. Why they are arranged now so that a woman can prepare a whole meal and hardly step away from the front of one. Not alone their convenience and their handsome appearance, but the steps they save should force one of them into your home. Ours are well made of white hardwood but still reasonable in price.
