THE HOME BANK FAILURE

Depositors to Get Quarter Payment on Their Money.

Arrangements Being Made Whereby Patrons of the Bank May Draw or Be Credited With Amount at Other Banks—Curator's Report to Be Made This Week.

TORONTO, Oct. 1.—An early payment of 25 cents on the dollar to depositors in the Home Bank of Canada has been decided upon. The payment will be made through the other chartered banks doing business in Canada. This announcement was officially made last night by A. B. Barker, curator, who is engaged in completing his report upon the affairs of the bank now under suspension. The payment of the dividend on the deposits has been arranged through the Canadian Bankers' Association, the president of which is Sir Frederick Williams Taylor, president of the Bank of Montreal. Sir John Aird, vice-president of the Canadian Bank of Commerce, is vice-president of the Canadian Bankers' Association.

Recently it was forecasted that a payment of 25 cents on the dollar would be made to depositors in the Home Bank. The forecast was based upon a letter sent from this city to Sir Frederick Williams Taylor. The plan suggested is that depositors assign their deposits in the Home Bank to the bank at which they intend to draw the initial payment, or open a new account. The decision to pay an initial dividend of 25 cents was announced by Mr. Barker in the following brief statement:

"Any estimate of value of the assets of the Home Bank of Canada and probable amount of the dividend must be purely guesswork at this juncture. In view of the fact that realization of assets will probably occupy a considerable time, it is highly probable that the banks will arrange to advance an amount to permit of an early payment of 25 cents on the dollar to depositors on account of their claims."

Mr. Barker declined to tell what a dividend of 25 per cent. would amount to, but, taking the last annual balance sheet as a basis, the total would be according to \$5,000,000 and \$5,000,000. According to the last annual statement, there were deposits of over \$2,000,000. This amount may have been considerably reduced by the time of suspension, when it was estimated the total deposits had dropped to about \$17,000,000. If this latter amount is correct, the amount of the initial payment to Home Bank depositors will be between \$4,000,000 and \$5,000,000.

The decision to pay 25 cents on the dollar means that the ready assets of the Home Bank are sufficient to meet this, in addition to the bank's obligations to the Federal and Provincial Governments, as well as redeeming the bank notes in circulation, which amount to \$1,805,250, according to the latest Government figures.

There were indications last night in Toronto financial circles that word had come from Ottawa for a speeding up of the investigation of the affairs of the bank in order that the Dominion Government may be enabled to give its sanction for a public inquiry, as demanded by the depositors in all parts of the country. It was said last night that the Government insists on knowing the worst about the Home Bank by Wednesday, when it is understood action will be taken at Ottawa.

The names of several High Court and County Court judges are under consideration at Ottawa. The investigator when appointed will have the assistance of experts from the Department of Finance and a well-known member of the Ontario Bar. Several names have been suggested. Nothing is to be held back by the curator when he announces his report. These associated with Mr. Barker in the investigation and members of the Canadian Bankers' Association have decided upon the fullest possible information for the public. Every question the public care to ask the curator and the committee will be answered by Mr. Barker or the three prominent city bankers who have been associated with Mr. Barker in an advisory capacity. The bankers working with Mr. Barker are Messrs. C. A. Bogert, general manager of the Dominion Bank; A. E. Phipps, general manager of the Imperial Bank of Canada, and H. V. Franklin Jones, assistant general manager of the Canadian Bank of Commerce.

Two Men Are Missing.
KITCHENER, Oct. 1.—The village of New Hamburg, near here, is somewhat aroused over the disappearance of Joseph Vance, who was for three years in charge of the local customs office. Vance has been missing since September 17, when he borrowed an automobile from Edward Nikala for a trip to Baden, stating he would return by six o'clock. An audit has been made of his books.

ELK LAKE, Oct. 1.—A party of Elk Lake men, headed by Provincial Constable Craush, are out searching the bush near Hatachewia for traces of William Arnot, prospector, who has been missing since last Monday.

Continuous Pavement.
ELMIRA, Oct. 1.—Motorists in this district have been impatiently waiting for the completion of the paving work from Freeport to Kitchener, which will give this town continuous pavement to Galt, Hamilton and Toronto. Mr. Emanuel Martin of Elmira, the contractor, has been doing steady work on the job, and is making a fine piece of roadway. It is expected that the job will be finished in about six weeks.

Freighters collide head-on near Windsor, and both are disabled.

LINERS IN COLLISION

White Star Steamer Cedric and Cunard Steamer Seythia Meet In Fog.

QUEENSTOWN, Oct. 1.—The White Star Line steamer Cedric, bound from New York for Liverpool, and the Cunard Line steamer Seythia, which sailed Saturday from Liverpool for Boston, collided during a dense fog early Sunday morning off the southern coast of Ireland.

Neither vessel was badly damaged, according to reports, and it is believed there were no casualties. The Seythia is putting back to Liverpool for an examination, and the Cedric is expected to arrive there to-day.

The Cedric had called at Cork between six and seven o'clock yesterday morning and landed passengers. She proceeded, and was off Tuskar when she came into collision with the Seythia. The Cedric escaped with slight damage.

The steamship Loorfovi, which runs between Cork and Fishguard, is reported to have struck a rock off Ballycotton yesterday during a fog. The passengers were put ashore. The vessel is reported to have been seriously damaged.

The steamer Cedric sailed from New York September 22 for Queenstown and Liverpool. The Seythia left Boston September 19 for the same ports.

Seythia Returns.
LIVERPOOL, Oct. 1.—A radio despatch received last night stated that the steamer Cedric is due at Liverpool to-day.

The Cunard Line last night issued the following statement regarding the collision:

"During the dense fog Sunday morning the Seythia, outward bound, and the Cedric, inward bound, came into collision off South Ireland, causing slight damage to the Seythia. As a measure of precaution, the Seythia is returning to Liverpool with her passengers."

RUM-RUNNERS' GAME.
Another Tragedy of Border Traffic Is Discovered in a Marsh.

WINDSOR, Oct. 1.—Rum-runners have sealed forever the lips of another enemy. With legs and arms bound with wire and the whole bundled in a grey blanket, the body of a man, almost completely decomposed, was found late Saturday afternoon in the marsh lands that fringe the river off Wyandotte, on the American side. Opposite are located the so-called Canadian "sporting warehouses."

Police officials, after viewing the find, said there was small doubt, but that another murder victim had been added to the lengthening list of those who have paid with their lives for interfering with the lucrative liquor trade.

The location is a desolate marsh, thick with rushes, and was a favorite landing for rum-runners until the criminals themselves had falling-out and gun battles grew in toll and number.

A month ago there was found a body in a barrel; a week ago another with its head crushed. The river is a convenient cemetery. A crushing blow on the head, a short ride through the dark marshes, a soft splash; another danger removed, and the precious liquor cargo slips in.

Death Followed in Wake of Storm.
OMAHA, Neb., Oct. 1.—Nebraska and Iowa to-day appears to be slowly recovering from the tornado, cloudbursts and floods, which brought death to 20 persons, injured scores and caused unknown property damage last Friday and Saturday.

A man was drowned at Lincoln Saturday night when he drove his team of horses into a ditch. Two others were killed at Seneca last on Friday when their home was razed by a tornado.

At Council Bluffs five persons were killed outright. Four of them were struck by a falling tree as they ran from their homes, and another was struck by flying debris. The fifth victim died in a hospital.

Twelve were killed at Louisville, Neb., when the house in which they were congregated, to mourn the death of Mrs. Mary McCarver, was washed from its foundation into Mill Creek, trapping all the victims. The bodies were recovered.

Another deluge of rain and hail struck Council Bluffs Saturday night and lasted about an hour.

Outlook Is Serious.
LONDON, Oct. 1.—A winter of discontent is forecast for about one-sixth of the population of Great Britain, composed of the ever-increasing army of unemployed and those of Government employes whose weekly stipend is about to be curtailed. The slump in British trade and commerce has been reflected internally, with the result that the unemployed, now numbering 1,233,300, are expected to reach a million and a half by Christmas.

Most of the unemployed are receiving weekly dole from the Government, but in the majority of cases this suffices only to keep body and soul together. The prospects of a severe winter are viewed with alarm, as most of the charitable organizations are already being worked to their limit.

Brantford Adopts Peony.
BRANTFORD, Oct. 1.—Peony week starts Monday, when the Horticultural Society, co-operating with the Chamber of Commerce, hopes for the planting of 5,000 peony roots. The effort is not made to sell roots by these societies, since neither have any supply, but to beautify the city as a whole. Weekly night meetings are to be held at which experts will inform citizens how to plant and encourage this beautiful flower.

Two Aviators Are Killed.
MADRID, Oct. 1.—Two aviators were killed Saturday when a Spanish airplane, flying in a fog near Melilla, crashed into a mountain.

JARVIS, - ONTARIO

Millinery!

I have just received a large assortment of Hats suitable for the coming season, consisting of all the latest novelties and styles for ladies' and children's wear. My rooms are now ready for your inspection.

Thanking you for your past patronage and hoping to share in a continuance of the same.

MISS LATIMER, JARVIS

The Old Cabinet Maker

Says:

That they keep right on improving these Kitchen Cabinets until he doesn't see how they can put any more conveniences in them. Why they are arranged now so that a woman can prepare a whole meal and hardly step away from the front of one. Not alone their convenience and their handsome appearance, but the steps they save should force one of them into your home. Ours are well made of white hardwood but still reasonable in price.
