Queen Marie also is famous as an author and playwright, her best known play being "The White Lily," which is now being produced at the Paris Opera, interpreted by Loie Fuller. The Roumanian Queen is a member of several European academies, notably the French Academy of Political and Moral Science, where her contributions are eagerly received and usually approved.

That a much larger quantity of pulp wood is being worked up in Canada than in former years is evident from a comparison of the figures for 1922, as compared with those for 1921. In 1922 the total cut of pulp wood was 3,923,940 cords, of which 74.2 per cent. was used at home, and 25.8 per cent., or 1,011,332 cords were experted to the United States. In 1921 of a total cut of 3,273,131 cords, only 57 per cent. was used in Canada and 33 per cent. exported to the United States.

TORONTO WELCOMES THE LONDON SCOTTISH

Toronto had a warm welcome for the men of the London Scottish, who are now encamped at the Canadian National Exhibition Grounds. The London Scottish is the parent regiment of the 75th Highlanders, who assisted in the official welcome. In one picture the men are shown lined up at the city Hall, and in the other Mayor Maguire extending the welcome to Colonel Clowes, D.S.O., the officer commanding.
