Rev. S. R. Pinnock Speaks at Annual Meeting of Bible Society Branch Here

Rev. S. G. Pinnock, a missionary from Africa, spoke in Knox Presbyterian church Wednesday night at the annual meeting of the Jarvis branch of the Canadian Bible society.

Mr. Pinnock spoke of the development in Nigeria, during the last few years. He said that when he and Mrs. Pinnock went there 35 years ago they were seven days in a canoe going 70 miles to the city where they were stationed. Now the same trip can be taken in a few hours on a well-appointed train.

Nigeria, he said, has a population of 20,000,000 and it is a wonderful country, rich in natural resources. The city in which Mr. Pinnock works was a city of mud huts thatched with grass when he first went there. Now every house in the city has a corrugated iron roof and there are scores of homes built according to European styles of architecture. There are a score of churches, and as many elementary schools, as well as a number of secondary and industrial schools, besides hospitals and three railway stations. Automobiles are common. The majority of the teachers of the schools are natives, who have been converted and educated in the mission schools.

Mr. Pinnock spoke of the aid given the missionaries by the bible society; and said that no church mission board could do the work that is being done by the bible society.

William Machell was elected president of the Jarvis branch and James Haslett secretary and treasurer. The following are representatives of the three Jarvis churches: Presbyterian, James Davidson; Methodist, Homer Trousdale; Anglican, A. H. Hodgson. Mr. Haslett reported that several attempts to hold a meeting of the society were made last year, but without result. He also found it difficult to find collectors, although during the year \$35.50 was collected.

REXALL STORE IS OPENED IN JARVIS

Carrying everything in the drug and toilet line, from a powder puff to corn salve, J. B. Austin & Co., of Simcoe, have opened an up-to-date Rexall drug store here in the building formerly occupied as a grocery store by Lloyd Honey.

Beautiful fixtures, as well as new decorations, have made an attractive store, while the complete line of drugs and other things usually found in a drug store will give a splendid opportunity for service.

One of the features of the first couple of weeks will be a one cent sale, for which the Rexall stores are noted all over the country. It will be held April 10, 11 and 12.

Mr. Austin has made an enviable reputation in Simcoe as a druggist and he intends to carry out the same methods which made his business a success there.

GREAT BANKER DEAD

SIR EDMUND WALKER, one of the greatest of Canadians, died Thursday, March 27, at his home "Longgarrth," Toronto, after an illness of a few days. Starting business life at the age of 12 with only a public school education, Sir Edmund at his death was Chancellor of the University of Toronto, patron of artists, musicians and scientists. He joined the staff of the Bank of Commerce in 1868 and made it the great institution which it is today. He was honorary president, from its organization 24 years ago, of the Mendelssohn choir, the greatest of its kind on the continent and accompanied it on its recent triumphal tour of U. S. cities. He was also chairman of the board of trustees of the National Art Gallery at Ottawa and was the founder of the Royal Ontario Museum, as well as the moving spirit in many similar institutions. His death removes a great Canadian, for Sir Edmund was Canadian-born. He was an authority on all banking matters, and had international reputation. He was knighted in 1910, and was present by invitation at the Coronation in 1911. He is survived by four sons and three daughters.

HAS WEST SOLVED PROBLEM OF BRIQUETTING

Three governments, those of Alberta, Saskatchewan and the Dominion of Canada have spent a lot of money on solving the problem of converting enormous quantities of lignite coal into high grade fuel equal to anthracite in heating value and economical in production. It is said that the problem has been solved. However, a million dollars was spent on the erection of a plant at Blenheim, Saskatchewan, which has proved useless. A model plant worked successfully, but when the method was applied to commercial production it broke down. Now a much simpler and less expensive method is being

LOWER INTEREST FOR ONTARIO SEEN

Toronto, April 2.—Indications are that the province is entering upon a period of better terms in the money markets than it has enjoyed for 10 years, according to information given the legislature by Premier Ferguson while the house was giving second reading to Provincial Treasurer Price's bill to authorize borrowings during the year to the amount of \$40,000,000. The Premier told the house that just that day the treasurer had disposed of \$3,000,000 seven-months treasury bills at an interest cost of 4.49 per cent, "an unprecedented rate in a good many years."

"The financial men of the country seem to think the financial state of the province in first-class shape, in spite of the budget that was brought down," observed Hon. Manning Doherty.

Of the \$40,000,000 which it is estimated the province will have to borrow during the year, it was explained that \$26,000,000 is for refunding existing loans falling due. The remainder is for current expenditures, in which those on highways constitute the principal single item.

SECESSION THREATENED BY MANITOBA DISTRICT

Ottawa, April 2.—The peril of a new Dominion being created within the Dominion of Canada was set forth in a petition, which residents of the vicinity of Dauphin have sent to their M. P., Mr. Ward.

NOTED BANKER BORN NEAR HERE

Sir Edmund Walker Dies in Toronto After Wonderful Career in Business

Sir Edmund Walker, D.C.L., L.L.D., C.V.O., one of the most outstanding figures in the banking and financial world in Canada and who was well-known, died about 2 o'clock last Thursday morning at his home, 99 St. George Street, Toronto, after an illness of only a few days of pneumonia. Sir Edmund, who was in his 76th year, was predeceased by Lady Walker, who passed away last summer. Four sons and three daughters survive.

The late Sir Edmund Walker had varied interests. Primarily a banker, he having been engaged for more than sixty years, having been in the service of a private bank for seven years before he joined the Canadian Bank of Commerce in 1868, he was known as one of the foremost authorities in Canada on economics in general, and his annual address to shareholders of the Canadian Bank of Commerce has been regarded as one of the most reliable indices to general trade conditions published anywhere. The late Sir Edmund was also a speaker of note, and his thoughtful and carefully-phrased utterances earned him the reputation of being the master of any subject upon which he touched.

Sir Edmund was born in Seneca Township, Haldimand County, October 14, 1848, in the house where Mr. James now lives, next to the Aldridge farm, and was the son of the late Alfred E. Walker. He was educated in Central school, Hamilton, and entered the office of his uncle, J. W. Murton, private banker, Hamilton, August 10, 1861, at the age of 13; joined the Canadian Bank of Commerce, Hamilton, in 1868, as discount clerk.

He was a well-known art connoisseur; gave his paleontological collection and his library connected therewith to the University of Toronto, 1904; portrait by John Lavery, R.S.A., R.H.A., presented to him by the senior officers of the Canadian Bank of Commerce, 1910; author of Canadian Surveys and Musoums (1899), and a paper on "Early Italian Art" (1894).
