It is a good thing to avoid forgetting this.

Another wise precaution is to keep from overdoing the matter. There is no difficulty at all about running a good horse to death. If you give to the point of extravagance, so that the amount of your outlay is a nightmare and a cause for regret or even remorse, you spoil everything. Excessive and disproportionate generosity isn't generosity; it is weakness. Frequently it is an exhibition of moral cowardice. Always it indicates a lack of good sense.

"Where the long arm of the Hardangerfjiord penetrates farthest into the rugged mountains of the coast of Norway, the Ostenso family has lived in the township that bears its name since the days of the Vikings. The name means 'Eastern Sea,' and was assumed centuries ago by an adventurous forbear who dreamed of extending his holdings over the mountains and through the lowlands of Sweden eastward to the very shores of the Battic.
