Woman who is so absorbed in the work

A discarded window-blind roller is letters into a drawer of the writingtable. She was standing there, treubling like a leaf, her hand still on the you care for him? I mean to say, breakdowns. It is the man and the same.

The tasks unfinished, scarce begun.

It is neither correct nor artistic to place an upright piano, a desk, or china closet or bookcase across a corner and leave an ugly, triangular and useless space behind it. The piano and the room will look much better if the long lines of the case are allowed to follow the construction lines and the same is true of bookcases and desks. If the corner space is the desired location for the desk then place it against the wall, not across t corner and let the light from the window fall, if possible, over the left shoulder.

Rugs are often placed at an angle in front of a fireplace or a davenport or desk; a square table is often turned diagonally in the room; the effect from both is one not only offensive to the eye, but inartistic as well, accord- in vogue, but none quite takes the in every whisper of the palm trees, in ing to the simplest and best standards place of a soft rag doll. The model every restless heave of the silver and erly, but lays across it a square cover, or girl. 'Bunny" is especially attraction in the break of the break
