Where Canada Makes Her Money

The mint at Ottawa, one of the few similar institutions in the Empire, where all Canadian coinage is made, and where some British sovereigns are also coined. Since 1871 Canada has had a standard currency for the entire Dominion, but the mint was erected only in 1908.

not available as yet. But according to a return tabled in Parliament toward the close of last session, the total number of employees in both the inside and outside services for 1923 was: Employees, 39,204; total salaries, \$50,355,721.

These figures are truly staggering. In a further article they will be analyzed, department by department of the service; for the present two things must be noted. The first is that while the increase in the population of Canada in ten years has been but twenty-two per cent, the increase in the size of the Dominion Civil Service has been more than eighty-five per cent, and the advance in its cost nearly 200 per cent.

The second thing to be noted is the difference which these figures reveal as between the Civil Service in Britain and the Civil Service in Canada. Britain, according to a statement made some months ago by Premier Baldwin, has reduced the personnel of her service to within ten per cent. of what it was the year before the war. In Canada—as these figures prove—the number of civil servants is not only nearly twice as great as in 1914; it is actually greater by 2,000 than when peace was declared, and is costing nearly ten millions more.

As an illustration of how the Civil Service mounts in numbers and cost, let me give as an illustration, the case of one department—the department of Customs. The figures given below do not represent an exceptional case but show the great growth in personnel and cost between 1909 and 1921:

Year	Employees	Salaries
1909	1572	\$ 958,494.02
1901	1605	1,001,454.33
1902	1577	1,042,463.67
1903	1646	1,094,984.69
1904	1717	1,229,317.87
1905	1784	1,322,909.24
1906	1838	1,409,294.21
1907	1912	1,521,262.39
1908	2070	1,634,175.58
1909	2121	1,778,789.27
1910	2210	1,882,244.66
1911	2333	2,025,599.34
1912	2704	2,264,878.15
1913	3069	2,749,356.31
1914	3365	3,224,036.66
1915	3382	3,417,683.60
1916	3413	3,388,810.09
1917	3471	3,387,710.90
1918	3592	3,686,324.25
1919	3507	4,559,055.92
