Hospital for Sick Children OF COLLEGE ST., TORONTO

Dear Mr. Editor:—
Your readers have probably had their appetite for statistics satisfied during the past few months. Still they will, no doubt, want to know something of the work accomplished by the hospital to which they have so generously contributed in the past. They are shareholders in a Mission of Mercy. Their dividends are not paid in coin of the realm. May I trespass upon your space to outline what those dividends are?

Firstly, the daily average of children occupying cots in the Hospital for Sick Children was 235. The total cared for as inpatients was 6,397. That is equivalent to the population of a good-sized Ontario town.

And secondly, the out-patient department. This is a wing of offices given over to consultation and minor operations. On an average there were 190 young callers a day.

That is where the dividends are earned—in the difference made in the lives of thousands of children through the voluntary contributions which render it possible to maintain an institution where pallid cheeks become rosy and twisted limbs are made straight.

If that were not dividend enough, one might try to estimate the enormous savings of child-life in Ontario which has taken place since "Sick Kids" doctors and "Sick Kids" nurses have been going out through his province equipped with a knowledge of children's diseases, which they could not get except in some such highly specialized and pre-eminently efficient institution as the Hospital for Sick Children.

On this year's service the Hospital expended \$345,125 and finds itself in the hole to the extent of \$134,284. What comes in around Christmas-time keeps the Hospital going. So long as the word "Christmas" retains its original significance could any charity possibly enlist more of the sympathy of your readers or entitle itself to more of their support?

Patiently yours,
L. E. ROBERTSON,
Chairman Appeal Committee
