### ANNUAL REPORT

(Continued from Page 1)  
employed in our schools 1924-25 are:  
First class, 13; Second class, 100;  
in private school one with American  
College Certificate. In the year 1918-  
19 there were 32 teachers teaching  
for their first year; this year we  
have TWELVE teachers teaching  
for their first year, two of these in  
urban and ten in rural schools. We  
have twelve male teachers and one  
female and one female teachers.  
In Continuation schools we have two  
male and one female teachers. The  
highest male salary was \$2000; fe-  
male \$1600. The average salary was  
male, \$1325; female, \$1050.

School Boards show that they are  
willing to pay good salaries if they  
know that they are securing efficient  
teachers.

There is still difficulty experienced  
in keeping teachers in schools which  
are not near a town or railway. This  
can be overcome somewhat by en-  
gaging a teacher whose home is near  
such school section.

#### Examinations

The High School Entrance Exami-  
nations were held in June at Atter-  
cliffe Station, Caledonia, Canfield,  
Cayuga, Dunnville, Hagersville, Jar-  
vis, Selkirk centres. Out of 336 can-  
didates, 200 received certificates, or  
60% of those writing. Departmental  
Examinations were held at Lower  
School at Selkirk. Pupils successful  
in securing 50% of the marks on ex-  
aminations set by the Principal or  
staff during the year were exempted  
from trying the Departmental exami-  
nation in June. Many were success-  
ful in securing this exemption. This  
work includes the work of the first  
two years of High School work. This  
privilege was given alike to High,  
Continuation and Public Schools of  
two or more teachers. Pupils in one-  
teacher Public Schools were required  
to write the Departmental Exami-  
nations.

#### Teachers' Institute

The Teachers' Institute for Haldi-  
mand was held in Cayuga on October  
3rd and 4th. All Public School  
teachers and Continuation teachers  
were present also the Cayuga High  
School teachers, making an attend-  
ance of one hundred and twenty. The  
teachers enjoyed a visit of inspection  
of the new Court House. The vari-  
ous addresses and discussions proved  
very helpful to the teachers and will  
no doubt aid in more general ef-  
ficiency.

#### Accommodations and Equipment

Accommodations are classified un-  
der heating, closets, site, water,  
classroom seats, blackboards, heat-  
ing, lighting and ventilation.

Equipment includes maps, charts,  
library and miscellaneous material.

The whole of the foregoing are  
classified from I to IV in determin-  
ing the grant earned by each school.  
Thus any improvement is largely re-  
paid to the school in a few years  
through the grant earned. Schools  
should keep their equipment up to  
standard. In regard to libraries we  
now have four libraries in all schools.  
The large number of supplementary  
books now being printed furnish suit-  
able material for aiding young child-

ren to become good readers. If a  
child learns to read well in early life  
he enjoys it and thus acquires power  
to help himself during those years  
when his help to his parents will not  
be of great value.

#### Agriculture

In the year 1924 eighteen schools  
earned grants for teaching Agricul-  
ture and Horticulture. Five had  
school gardens while others main-  
tained home gardens. School Fairs  
were held at Caledonia, Cayuga,  
Dunnville, Hagersville, Jarvis and  
Selkirk.

The exhibits were good. Competi-  
tion was keen. In some classes of  
exhibits there were as many as fifty-  
eight entries. Public speaking, sing-  
ing, marching and athletic games  
formed part of the program. The  
attendance at these fairs compares  
favorably with that of the Fall Fairs.

#### Trustees' Association

The County Trustees' Association  
held their annual meeting in Cayu-  
ga during the month of June for the  
election of officers. The chief speak-  
er of the evening was W. M. Morris,  
Toronto, Secretary of the Provincial  
Trustees' Association, who dealt with  
present educational problems. By  
resolution the meeting asked the Gov-  
ernment to consider the advisability  
of continuing the Government Grant  
to village schools as they apply to  
rural schools.

I should like to make a plea for  
the more serious study of education-  
al problems on the part of trustees.  
Most trustees are intelligent, capab-  
le men, but as a rule give little thought  
or attention to the duties and re-  
sponsibilities of their office.

#### School Attendance

Generally speaking, the public  
opinion will secure regularity of  
school attendance. However, a few  
parents with poor education them-  
selves do not see the necessity of  
regularity of attendance at school of  
their children. In such cases the  
school attendance officers perform a  
duty that is highly commendable in  
enforcing the attendance at school  
of such children that may have a  
better chance in life than they other-  
wise would.

Some rural parents retain boys of  
fourteen years at home many times  
when they might be at school with  
advantage. The change in the Ado-  
lescent Act was intended only for  
cases where the services of the child  
were necessary for his own support  
or that of his parent. The winter  
courses provided by the Department  
of Agriculture should be attended by  
many more of the rural boys and  
girls of adolescent age. Parents and  
councillors would do well to urge  
these adolescents to take advantage  
of these courses.

The total enrolment of pupils was  
3763 with an average daily attend-  
ance of 2732 and with an average  
daily percentage attendance of 3233,  
being 86% for the year. The urban  
schools show an average enrolment  
of 43 per teacher and the rural school  
of 30 per teacher.

#### Grants

The Legislative Grants to Rural  
Schools for 1924 were:

Dunnville, a town, received a small  
grant, \$392.30.

The special legislature grants were:  
Libraries, \$105.66; Agriculture, \$596.  
85; Accommodations and Equipment,  
\$933.09; Teachers' Institute, \$50.00.  
The Continuation School Grants  
were:

Jarvis \$453.50

Selkirk 763.15

The Government has retained the  
Superannuation Fund from this a-  
mount but the Secretaries have re-  
tained from teachers a like amount  
to balance the same.

The regulations require the County  
Council to give the equivalent of the  
Legislative Grant to Teachers' In-  
stitute, Accommodations and Equip-  
ment, and to Fifth classes and Con-  
tinuation Schools, but special grants  
may also be given.

#### Monthly Reports

It is well that parents should be in-  
formed of the progress made by their  
children at school. In many schools  
the results of the month's work is  
published in the newspaper. I be-

lieve the best method is to have re-  
port figures for the pupils to take  
home to have parents sign and re-  
turn to the teacher. This makes an-  
other connecting link between parent  
and school.

#### Home and School Links

The object of these is to bring about  
greater co-operation between teacher  
and parents and to make the parents  
better understand the work their  
children do at school. The Home and  
School clubs in our county are in ur-  
ban centres and are doing good work.  
I hope to see these extend to the rural  
sections.

#### Cost of Education

The average cost per pupil was:  
Canboro, \$42.75; N. Cayuga, \$57.84;  
S. Cayuga, \$38.41; Dunn, \$42.30;  
Moulton, \$49.75; Oneida, \$54.25; Sen-  
eca, \$59.53; Caledonia, \$38.66; Cayu-  
ga, \$46.24; Hagersville, \$49.12; Sher-  
brooke, \$34.00; Walpole, \$45.07; Rain-  
ham, \$44.21; Jarvis, \$64.57; Dunn-  
ville, \$37.52.

The general average cost per pupil  
was \$25.00; in rural schools, \$38.24;  
in urban schools, \$40.82.

The general average cost per pupil  
in 1923 was higher, being \$47.62.

The increased cost in rural schools  
is due to the small attendance in  
many schools: Eight schools average  
ten or less; nineteen schools average  
eleven to twenty.

#### Experience of Teachers

96 teachers have less than 10 years'  
experience; 5 teachers have from 10  
to 20 years' experience; 8 teachers  
have from 10 to 30 years experience;  
4 teachers have from 30 to 40 years'  
experience.

#### Visits of Inspection

During the year I made two hun-  
dred and thirty-four official visits to  
the schools of the county. I made  
special visits in June to schools hav-  
ing Agricultural classes. I have al-  
so attended a large number of meet-  
ings of Trustees Boards and ratepay-  
ers' meetings and made many special vi-  
sits to schools. I wish to thank the  
County Council for the cordial sup-  
port given to the work of making  
more efficient the schools of the coun-  
ty.

I wish also to thank the County  
Council for a new office desk.  
I have the honour to be, Sirs,  
Your obedient servant,  
J. L. MITCHENER.
