Owner

John Deming - - - Auctioneer

## Here and There

A recent survey of prospective expansion among the mines of Northern Ontario shows that many millions of dollars will be spent on mills and mill supplies in 1925. According to this survey, mill expenditures totalling \$7,350,000 are contemplated.

Hunters patronizing territories in the Algoma district of the Canadian Pacific Railway had a very successful season in 1924, according to a report recently issued. Moose numbering 173, deer numbering 2,193 and approximately 7,050 partridge were secured and the number of hunters ran into several thousand. The figures quoted include those for Kipawa, Temiskaming, Mattawa, Sturgeon Falls, Pakeney, Sault Ste. Marie, Chapleau, Sudbury, Schreiber and Nipigon, all exceptionally good game areas.

More Christmas trees were shipped from Nova Scotia for the 1924 festive season than ever before, according to figures just compiled. Twenty-two car-loads from territory bordering the Dominion Atlantic Railway alone were shipped to outside points and approximately 150 car-loads left the province generally.

A splendid season of winter sports is expected at Quebec this year, as more and more people are becoming interested in these healthy recreations in Canada and the United States. In connection with the activities of the Chateau Frontenac, the Canadian Pacific's great hotel in the Ancient Capital, a number of new features will add to the attractions Quebec has to offer. These include inter-club, inter-collegiate and international competitions in all winter sports, to be held under the auspices of the recently formed Frontenac Winter Sports Club, which will award the successful participants with trophies of various kinds and attractive gold, silver and bronze medals.

The names of the winners of the David prizes for literature, awarded to the writers of the best French and English books entered in the competition for these prizes, have just been announced by the committee of judges. In the French section the first prize, \$1,500, went to Abbe Camille Roy for his book "A l'Honneur des Erables," while in the English section Marjorie Grant Cook won first prize with her book "Another Way of Love."

The most successful year enjoyed by the Canadian Pacific Great Lakes Steamship Service in freight shipments since 1913 is reported by Mr. Duff, manager of that service, for the season lately closed. The whole fleet of package freighters for the first time since the outbreak of the Great War, has been constantly employed during the seven months in which the lakes are open. A feature was the very large increase in the export flour business, some 75 per cent of the 300,000 tons of flour carried eastward by the service having been destined for export. October was a particularly good month.
