## FATHER AND SON

(Continued from Page 1)

Boy who is given \$5 before he has been taught how to spend it. "God help the man who works only eight hours a day before he has been taught how to spend the other sixteen." "It is the problem of youth. Father, teach your boy how to spend his time. It is a father's business to know his son from the cradle to the grave. Father, when the door blows off the old barn, you don't tear the barn down, you put the door back. When your boy wanders, put him back. Young man, I count the 66 years of life you have to live—have you planned how you will spend them?"

The meeting was dismissed with "Praise God From Whom All Blessings Flow."

## THE VILLAGE PORT OF NANTICOKE MAKES GOOD

The St. Thomas Times-Journal asked in January, would some one write a song on: "Taint Going to Snow No More." T. Butcher, our poet composed and sang the song on Tuesday night last, and it snowed the next night. But Tom says he will sing it next summer at garden parties, then he won't get caught that way. There are ten verses in all, but we will give the last one, which is as follows:

But if you go to the world below,  
Where the coal is piled on the floor,  
You can sit in the middle  
And sing and fiddle  
Taint going to snow no more, no more  
Taint going to snow no more;  
You can sit in the middle  
And sing and fiddle,  
Taint going to snow no more.

## MARCH "ROD AND GUN"

The stories in the March issue of "Rod and Gun in Canada" are sure to excite the interest of every sportsman. Stalking All on Horse Sense, by E. Dalton Tipping, Western Experiences by Donald Graham, The Tenderfoot by Roderick O'Neill, are a few of the entertaining stories contained in this number. Canada's Wild Buffalo by Maxwell Graham is an article brimful of interesting and valuable information on this subject. In addition there are the regular stories—That Tent and Thirty-five Below by F. V. Williams, Slightly Mistaken by Martin Hunter, Some Adventures With the Great Horned Owl by Bonnycastle Dale, and Emperor Geese and Queenly Swans by J. W. Winson, which cover a variety of subjects and the departmental editors, W. C. Motley, R. P. Lincoln, C. S. Landis and M. U. Bates have brought their departments up to their usual high standard, helping to make the March number one of the best yet. Published monthly by W. J. Taylor, Limited, Woodstock, Ont.

## Here and There

He tried to cross the railroad track, before the making train. They put the pieces in a sack. But couldn't find the head!

One hundred British farm families are due to reach British Columbia early next spring. These are the fore-runners of 3,000 families that are to come out to settle in Canada on the land. Provincial and British Government assistance is being given them to get started.

A remarkable statue modelled entirely in ice is to be seen at Quebec. It represents one of the latest of 2300-type locomotives of the Canadian Pacific Railway, about one-fourth full size and is perfect in every detail. Ice statuary has been brought to a fine art in the Ancient Capital.

Skaters from New York, Boston, Montreal, Toronto and Ottawa will compete with Quebec champions in a great international amateur figure skating contest, to be held in Quebec city February 23-24, for handsome trophies and medals donated by the Frontenac Winter Sports Club. A record attendance of spectators is expected.

Skiing parties over the week-end are being conducted by the Laurentian Winter Club in different points in the Laurentian Mountains, the tours being superintended by a competent skier. To those remaining in Montreal the big six-chute toboggan slide on Mount Royal has an added attraction in toboggan races every Saturday, winners receiving prizes.

That Canada is on the verge of a trade boom which may last until the end of this year was the statement made in Toronto recently by Richard Conway, Vice-President of the Brookmire Forecasting Service of New York. The main factor responsible for the upswing of Canadian business, he said, is the opening of the foreign markets to the grains of the past year.

Federal control of United States railroads, adopted as a war measure during the period December 31, 1917, February 23, 1920 cost the country \$1,874,500,000, of which \$1,223,500,000 was total loss, \$656,000,000 estimated expenses and \$15,000,000 was required to reimburse small deficit roads, according to James C. Davis, Director General of Railroads, who has just submitted his annual report.

Remarkable absence of timidity is being shown by wild animals in the neighborhood of Banff, Alberta. It is reported, as a result of kindly treatment. Heavy snows recently brought elk and deer into the main part of the town, where a parade by these animals is not an uncommon sight. They make the rounds of the houses, looking for tit-bits, which are not denied them. One big elk, with a magnificent set of antlers, is as regular on his schedule of calls as the milkman.
