**Here and There**

Conditions in the fruit areas of British Columbia are reported as satisfactory. Weather conditions have been good and the trees are healthy.

According to recent reports general conditions in the Maritime Provinces are normal. Potato planting is about complete. Trees in the Annapolis fruit districts are in good shape and estimates point to a normal crop.

A consignment of lumber from South Westminister, B.C., arrived recently at Dorval, Quebec, on the Canadian Pacific lines, consisting of twenty-nine logs of Douglas Fir, some of which were so long that three flat-cars were required to carry them.

Field Marshal Earl Haig and Countess Haig travelled through western Canada to the Pacific coast over the Canadian Pacific Railway recently, after attending the conference of the British Empire Service League at Ottawa.

"Western Canada has never had better crop prospects than which exist now," stated Ernest G. Cook, of E. Cook, Ltd., Crop Insurance Co., of Moose Jaw, Sask., who recently spent two weeks at Banff, after touring the West and studying crop conditions.

According to "Agricultural and Industrial Progress in Canada" the Department of Trade and Commerce has issued the following comparative statement for 1924 and 1925 trade in the Dominion:

	1924	1925
Trade	\$1,902,130,164	\$1,878,294,190
Imports	893,366,967	796,882,587
Exports	1,008,763,297	1,081,411,603
Fav. Bal.	105,306,430	284,429,108

According to the Dominion Bureau of Statistics the annual consumption of standing timber for use, amounts to about 2,000,000,000 cubic feet. The loss by fire, insects and fungi about doubles this depletion, and it is estimated that Canadian forests are depleted at the rate of upwards of five and a half billion cubic feet per annum.

THIS IS AN EXACT reproduction of Falls' Daylight Department Store, Simcoe—the store that doesn't "take its hat off" to any store between Hamilton and Windsor. The building has four floors—three up and a Basement Store—and not one dark corner. How foolish it would be for us to stick another story in the photograph, or make any claim that the store is larger than it really is. People know that it is Falls' that they must come for the Better Goods, the Better Values, the Larger Choice, and more Intelligent Service. The Department includes:

**See These Giant Re-roofing Shingles**  
Barrett Giants have an economy all their own. Specially adapted for re-roofing, you lay them right over the old roof. Tough and rugged, they come three to a strip. Laid three at a time, they save laying cost.  
These shingles are colorfully artistic—enduringly surfaced with natural slate in red, green or blue-black. They need painting or staining—will not rot or rust. They are fire-safe—proof against flying sparks and embers.  
**Barrett ROOFINGS**  
After long experience with roofings of many kinds we're convinced that the sound economy of these special shingles simply cannot be duplicated. Let us show you Barrett Giants. You'll be surprised at the low cost.  
See our full line of Barrett Roofings. There's a style for any type of building—at a price for any purse.
