Here and There

This year's receipts from motor vehicles licenses in New Brunswick already amount to \$222,000. This amount is larger than the total for any year, except last year when the gross receipts for the whole twelve months were \$222,000. The estimate for the present year is half a million.

The mines and quarries of the Province of Quebec produced to the value of \$12,522,222 during 1924, according to the final report issued by the Provincial Department of Mines. Building materials account for \$11,522,222; other non-metallic minerals \$7,122,222, and metallic minerals \$388,222.

"In the Canadian and falls of the Canadian Rockies there is enough hydro-electric power to supply the American west with all the electric energy it will need for ages to come," declared W. Fenton Little, manager of the Niagara Falls Power Company, who recently visited Seattle with a party of distinguished American electrical engineers.

That the Province of Quebec abounds in historic and romantic material for the construction of popular novels, is the judgment of two popular writers—James Oliver Curwood, author of scores of best sellers, and Edwin Baker, well-known short story writer—who have recently toured the province and Western Canada in quest of "local color."

There has been an unusual distinction conferred upon Prof. Camille Costore, a Montreal musician, who, besides being a violinist is also a maker of violins. He has been honored with a medal and diploma from the British Empire Exhibition at Wembley for a magnificent violin of his make, which he exhibited there.

In order to dispel the existing impression in England regarding the coldness of the Canadian climate, five thousand penny blooms are being distributed at the Canadian Pacific Railway Pavilion at the British Empire Exhibition. These plants were produced by W. Ormiston Roy, of Montreal, who states that peonies are the best landscape flower and can be grown in all parts of Canada, irrespective of climatic conditions.

Men. W. G. Nichol, Lieut-Governor of British Columbia, and D. C. Coleman, Vice-President of the Canadian Pacific Railway, opened Crystal Gardens, the new and unique indoor salt-water swimming pool at Victoria, B.C., recently. This amusement centre, which has two dancing floors, a gymnasium, art gallery and tea-rooms, is regarded as the largest and finest of its kind on the continent.

Being exceeded only by Mexico and the United States, Canada now ranks third among the silver producing countries of the world. Records of Canadian production have been kept since 1858 and show a total recovery of 451,000,000 fine ounces to the end of 1923. In 1924 production was slightly in excess of 20,000,000 ounces. During 1858-1923 the value of production totalled \$290,705,532, while for last year it amounted to \$12,519,043.

NANTICOKE OLD

(Continued from Page 1)
church was packed to the doors and scores being turned away.

There was a very large congregation at the United Church of Canada in Nanticoke at the 11 a.m. service. Former members and adherents of the church from many parts of the Dominion and several different States in the audience. The sermon was preached by a former Nanticoke boy, the Rev. J. C. Livingston, of Glendale, California, who spoke of the indebtedness of the world to the people with the pioneer spirit. He referred to the fact that in this community we owe a great debt to the memory of the ones who laid the altar of prayer and built the churches of God in the new country. All present were greatly edified by the sermon. After the sermon Gordon Livingston, of Ottawa, a brother of the preacher, sang fittingly "Jesus Saviour Pilot Me." A large choir of local singers, assisted by friends from Port Dover and other points, rendered two anthems which were also greatly appreciated by all present. The Pastor J. A. Neill extended a welcome to all the friends from a distance who were present.

A great open air meeting was held in the evening at which several Old Boys gave addresses. Rev. C. E. Snowden, Rev. J. C. Livingston, Rev. H. Wood and Mr. John Meath. Rev. J. A. Neill acted as chairman. There was a crowd of 1500 people present.

Monday was sports day, when baseball games and other sports were indulged in. A very good game of ball was played between Selkirk and Port Dover, Selkirk being the victors. A game was also played between Selkirk and Nanticoke, Selkirk again being the winners. During the evening a concert and play was given at the hall, when "Deacon Dubbs" was presented. The great crowd showed its appreciation frequently during the program. After the concert a dance was held in the hall, and the second day of the Reunion had passed away.

Tuesday was Old Boys' Day, and the Old Boys gave a splendid account of themselves. A general picnic was held at the park and the Boys gave the program they had planned. There were contests, such as "raising lather," the lady who raised the thickest lather on father's head was the winner. Horse racing, hat trimming and many others. Mrs. Turner gave several recitations and Mr. C. E. Bourne gave an address on the early history of Nanticoke, which will be published in next week's issue of The Record. A great evening program had been arranged, but unfortunately a big rain storm came up and dispersed the crowd. The Port Dover band and the Melody Boys provided the music for Monday and Tuesday.

WHEN YOU DRIVE WEST

Spend a night on Lake Erie. You can put your car aboard the Great Ship "SEANDEE" or sister ship, the "City of Buffalo" or the "City of Erie," at Buffalo, have a sound, refreshing sleep and be farther ahead on your journey than if you drive through.

C. and B. Line Steamers leave the wharves, South Michigan Avenue Bridge, Buffalo, daily at 9:00 p.m. and arrive Cleveland, the following morning at 7:00 (All Eastern Standard Time).

For free automobile route maps of the East and West write The Cleveland and Buffalo Transit Company, Cleveland, Ohio.

FATAL FALL ELEVATOR

George Desborough, worth street north, found lying in a semi-conscious condition at the bottom of the Fowler Canadian Co. of that city, at 3:30 o'clock last. He was a General hospital in the lance and died a few hours later. Desborough, employee of the company, was heard to fall on the floor below, as the elevator. When it was expected the man on it where in sight. Investigation that he was lying on the shaft. It is as was attracted by some pul into the shaft, the water was level with the floor. Desborough was in this country several years ago, and of Jarvis some 19 years of age, who is in a theatrical company, the sad accident.
