No - I've not boiled any garments since"

"A friend suggested that I stop bailing the clothes I washed and try Rinso, which I did, with such delightful results that I have not boiled any garments since

"I found that Rinso is excellent for removing finger prints from white paint and for washing all woodwork.

"It has cut my house cleaning troubles in half and consequently I felt that it was only your due to know that Rinso has a much bigger work to do in our house than just to clean the dirt from our laundry."

> The makers of Rinso receive many such letters as this. For Rinso not only does the family wash merely by soaking-it is also excellent for many housely cleaning woodwork, scrubbing floors, etc. Order Rinso today.

Ten Ways to Hurt Your Church.

I. Broadcast the faults of the minister. Assume the silence of your hearers means they agree with you-and so report it. 2. Repeat every rumor you hear

about the way people are cutting down their giving to the church—and believe all you hear on the subject.

3. Attend church only when an "outside" speaker occupies the pulpit-and then shake hands with everybody that

4. Lament about the "poor music" and the high cost of it, harking back to the old days-when you did the same thing about the music then. Ditto the preaching. 5. Tell everybody that the attend-

ance is falling off, though you never got a report of the official count. 6. Criticize fellow members for

things you, too, are guilty of. 7. Give one-third of what you can

give. 8. Report that the church lacks spiri-

tual power, although your own life is like a cinder. 9. Park both your piety and intellicence at home when you attend

church; then accuse the preacher of being "heretical" 10. Send your children to another

church school, and publish the fact. Oppose the leaders of your school-
