

QUILTING

Is the Order of the Day!

There is no better time of the year than the present for increasing the supplying of bedding, etc. Not only are Comforters, Blankets, Sheets and Quilts necessary for bedding, but also Bedspreads to complete your room.

One of the latest ideas is the Bedspread of unbleached cotton worked in pretty designs. We can supply you with:—

Heavy weight Cotton, 72 inches wide, at per yard 75c and 85c

Pearl Cotton, for working the same, several shades, at per ball 15c

Cotton or Silk Laces, in all shades, priced per skein 5c

Don't miss seeing the pretty designs for making these—you'll be sure to want one.

Our stock of Chintz was never better, beautiful coverings for comforters, per yard 35c and 40c

Figured Satin and plain for combining, per yard 35c and 75c

Colored Cashmerettes and Serges, suitable for lining cloth quilts, per yard 30c to 90c

Dark Flannelettes, 1 yd. wide, per yard 35c

Colored Prints for piecing, per yard only 25c

COTTON BATTING

Nice clean Batts, quilt or comforter size... \$1.10

a minimum, and thus encourage the British underwriters to reduce their rates of marine insurance on vessels plying in and out of Canada's great waterway.

FEATURES OF THE ESTIMATES

One important saving effected by the King Government is in the interest on the public debt, the amount of this being a little over \$2,375,000 as a result of refunding loans floated by the Government in the latter half of 1924 to pay off maturing Victory Bonds and other obligations. The Government was able to get its money at a considerable cheaper rate than the interest carried by the Victory Loan issue they were retiring. These savings were actually made in some of the uncontrollable outlays: soldiers' land settlement, \$1,500,000; soldiers' civil re-establishment, \$1,000,000; adjustment of war claims, \$135,000; Imperial War Graves Commission, \$98,780. Included in the estimates is an item that will prove popular with the agricultural people of the country, and that is provision for an annuity of \$5,000 for Dr. Charles Saunders of the Central Experimental Farm at Ottawa for his invaluable services to his country in the development of the now famous "Marquis" spring wheat.

CURBING THE STEAMSHIP COMBINE

During the week the details of the proposed contract between the Government and the British shipping concern headed by Sir William Peterson, for the purpose of setting up sufficient competition on the Atlantic ocean to compel a reduction in freight rates on goods shipped from Canada to Europe and from Europe to Canada. There will be some lively discussion of that project in the House of Commons. The Government's purpose in the scheme is to get control of ocean rates in return for paying a cash amount of over \$1,000,000 to the Peterson concern. A fleet of vessels will be put on the ocean by the latter, to be supplemented by probably 20 ships of the Canadian Government Merchant Marine, and the money to be paid to the company will be determined by the extent to which that company cuts its freight rate below that of the North Atlantic Steamship Conference. That the latter is a combine maintaining extortionate rates on Canadian cattle and other exports is shown in the report of W. T. R. Preston tabled in the House of Commons and even more conclusively by the evidence submitted to the House two years ago by the Special Committee on Agricultural Conditions appointed by Parliament to inquire into ocean freight rates and other questions of vital concern to Canadian agriculture. The Government's present plan to curb the power of the North Atlantic Conference is a direct result of the reports of that Special Committee. Another interesting fact is that the report submitted by that Committee to the House was a unanimous report, was assented to even by the Conservative members of that Committee, including Hon. Dr. S. F. Tolmie and Donald Sutherland (South Oxford), the latter of whom last week in the House devoted a lengthy speech to denunciation of Mr. Preston, author of the latest report on the activities

RE-MAKING CANADA'S CONSTITUTION

Whether or not the Parliament of Canada could and should amend the country's charter—the British North America Act—a question of deep interest to all Canadians was debated for two days during the week, the discussion being occasioned by a resolution moved by W. F. Maclean, Conservative member for South York and the oldest continuous member of the House. After an illuminating discussion, in which the Prime Minister and Hon. Ernest Lapointe were the principal speakers for the Government, Mr. Meighan for the Opposition and Hon. T. A. Crerar for the Progressives, the Maclean resolution, the amendment by William Irvine (Labor) and the sub-amendment by J. S. Woodsworth (Labor) were all withdrawn. Premier King, while regarding the debate as largely academic, admitted there was much to be said on both sides of the argument and suggested that it would very probably be considered by the conference to be held shortly after the present session between the provinces and the Dominion on the primary question of reform of the Canadian Senate. Mr. Meighan declared he still favored the preservation of Canadian appeal to the British Privy Council and of the power of amending the Dominion constitution through the British parliament. Mr. Lapointe urged that the pact of Confederation was in essence a treaty between the provinces and the Dominion and that the latter could not amend that British North America Act without consulting the provinces nor without their consent. Mr. Crerar said he was in agreement with the principle of the Maclean resolution but was dubious about the method proposed by Mr. Maclean.
