## Dollars are hiding in your skim milk

HUNDREDS of them—and all we ask is that you use a postage stamp and learn how to find them.

Probably for months or years your old separator has been wasting away each week pounds of rich butter fat from your herd. Let a Melotte would have saved had you learned about it sooner. That's the reason it is so urgent that you mail this coupon now.

Thousands of Canadian farmers will tell you these facts are true. They never realized it until they used a Melotte Separator and discovered the amount of cream their old separator shipped over. There is only one original Melotte Separator. It is made in Belgium and has special mechanical features no other separator has. A suspended bowl always in balance; square cut gears that last a lifetime. It's frictionless, easier turning separator that farmers say never wears out and gives you week after week extra pounds of butter fat from your herd.

No thrifty farmer can afford to overlook such a saving. Don't delay a second longer. With every can of skim milk you give to the calves you feed them dollars of such cream besides. Pick up your pen this very minute and mail us the attached coupon. Remember you do it without obligating yourself in any way.
