Sir E. Vijayanagharacharya who represented All India at the British Empire Exhibition, and who will preside this year at the opening ceremonies of the Canadian National Exhibition, Saturday, August 28.

LARGEST PACER-MINING DREDGE EVER BUILT

The largest pacer-mining dredge ever built, costing more than \$1,000,000, recently was completed in a Milwaukee factory, and shipped to Russia. It will be used in the placer workings on the Lena River by a British-American corporation which has obtained a gold mining concession from the Union of Soviet Republics. The dredge, which has an excavating capacity of seventeen cubic yards, required 75 railroad cars to carry its parts from the factory to the coast. The super-structure alone weighed 1,200 tons, and when assembled will be 170 feet long, sixty feet wide and fourteen feet deep.

WORLD'S 24 HOUR AUTO RECORD

The world's 24-hour automobile record was recently broken by Capt. John Duff, an Englishman, at Linas Monthery, near Paris, it is reported, when he covered 2,293 miles in that time at an average speed of more than 95 miles an hour.

Here and There

Following a recent tour of western Canada, W. L. Smith, former editor of the "Farmer's Sun", writes that he will be surprised if the aggregate wheat crop of the Prairie Provinces falls below 400,000,000 bushels. "It will not be surprising if the 500,000,000 mark is nearly reached," states Mr. Smith.

Eleven hundred farms will be needed next year to accommodate the British settlers who will be brought to western Canada, according to Major E. J. Ashton, commissioner of the Soldiers' Settlers Board. So far this year 1,430 families were placed on farms in the prairie provinces by this organization.

Hogs to the value of \$400,000 were shipped from the Prince Albert district in 1925. This sum was far in advance of that received the previous year and the increase was due to a considerable extent to the activities of the agricultural society boosting hog production. This year the hog raisers' slogan is one million dollars worth of hogs, and from present indications this mark is more than likely to be attained.

Arrangements for the export of large quantities of British Columbia seed potatoes to California are being made by a potato grower of that state. The British Columbia potatoes are desired in California for seed purposes because they introduce new strength into the southern strain. Experiments were made with Canadian grown seed last year in California and growers were well satisfied with the results.

A flock of 46 sheep, comprising 35 ewes and 11 rams, has been purchased by an official of the Dominion Government under instruction from the Soviet Government for dispatch to Vladivostok, as soon as arrangements can be made for their shipment. Last year quite a number of prize-winning cattle were shipped from British Columbia to Russia and this new order indicates that previous shipments have been satisfactory.

Many valuable shipments of furs from the great trapping areas of the Hudson Bay Company are arriving through the Dominion Express at Montreal. These unimpeachable bales, piled high on the trucks often represent a total value of \$200,000. After being collected at the various Hudson Bay posts along Hudson Bay and James Bay the furs are brought down by canoe in summer and dog team in winter to the northern terminus of the T. and O. Railway.

Remarkable expansion of passenger traffic into and out of Montreal has been reported during July and August by the passenger department of the Canadian Pacific Railway. The "Red Wing" and the "Alouette" on the Boston run and the "Rideau" and "York" to Toronto, four new trains deluxe placed on these routes early in the year have been running with capacity loads. Eastward to Quebec there is heavy traffic for the Annapolis Canal.
