Father and Son Fight Side by Side

Roy is a handsome lad of fifteen,
he is very proud of a new set of
phones some friend sent to him. Now
he can hear as far as Boston on his
radio. The wires come right to his
bed, where he rests most of the time.
For one, Roy is in the Muskoka Hos-
pital for Consumptives and is by no
means as well as he looks, although
he says he is getting along fine. He
can visit his dad, too, which is an
other source of comfort to him.
Dad is in the same institution, also
making the never ceasing struggle
against the fell disease. So often
the boys see him now, that he is a
family. Such are really touching
progress however—the complete rest,
the discipline and the care of kindly
nurses and doctors are having their
usual good effect in this case.
The Muskoka Hospital is especially
suited for such cases. What can you
say?

8.—Jenny Lind Champion, No.
155104, Vol. 30, calved June 11, 1925.
9.—Holstein grade cow, 8 years old,
bred July 13th, 1926.

Numbers 1, 2 and 3 are in calf to a
pure-bred Holstein sire.

Numbers 4, 5 and 9, are bred or in
calf to King Pontiac Kenton, No.
67725, Vol. 30

Also a team of general purpose
mares.

Cattle will be sold subject to tuber-
culine test under the supervision of
the Dominion Department of Agri-
culture.

These are a richly bred bunch, trac-
ing into some of the best families of
the breed, some of them direct de-
scendants of record of merit stock,
which have sold at fancy prices at re-
cent consignment sales. All are bred
for the object of high production, and
are worthy of consideration by any
breeder or dairyman.

DECEMBER "ROD AND GUN"

With the arrival of the hunting
season comes the December issue of "Rod
and Gun" with a stock of reading mat-
ter appropriate to the season. "The
Old Gray Buck" by Theo. J. Stocks
which appears in this issue, while not
a story of big game, is one that will
appeal to men with the hunt in their
thoughts. Bonnycastle Dale also hunts
deer in Nova Scotia, but with a cam-
era. Henry A. Braithwaite, a well
known eastern guide tells of his ex-
perience with Moose while Martin
Hunter tells a typical story in "The
Wolf Cub of the Labrador." James
Frise has a timely full page cartoon
in the December number.

A good yarn of a day's adventure
on a B. C. river trip is told under the
title of "A chapter of Accidents." In
Outdoor Talk, W. C. Motley has an
other interesting woodcraft article,
while the Guns and Ammunition De-
partment edited by C. S. Landis has
some good dope for the man inter-
ested in guns as Fishing Notes has
also for the angler and Kennel Notes
for the dog fancier.

"Rod and Gun" is published month-
ly by W. J. Taylor, Limited, Wood-
stock, Ont.

Here and There

Toronto.—For the first time since
driver forces have been exhibited at
the Royal Winter Fair here, Ontar-
io breeders have seriously chal-
lenged the supremacy of the Prince
Edward Island fox farmers.

Immigration to Canada for the
first nine months of the calendar
year 1926 shows an increase of 66
per cent over the same period a
year ago according to a statement
issued recently by the Department
of Immigration and Colonization.

Moncton, New Brunswick.—Frozen
blueberries are now being shipped
in quantity to Cleveland and other
centres in the United States. So
far eight carloads have left Mon-
cton, and so that the fruit will re-
main frozen. Two more carloads
are about to go forward.

Victoria, British Columbia.—
Famous Playars-Lasky are to estab-
lish a plant in British Columbia for
film production, it was announced
in connection with the \$15,000,000
concern known as the Famous Play-
ers' Canadian Corporation, Limited,
of Toronto.

Traffic in grain from Winnipeg
along the Canadian Pacific Railway
lines this year has been heavier
than last year by over 12,000,000
bushels. With 110,298,065 bushels
marketed and 63,019 cars loaded the
increase over last year's ten month
period were 12,188,437 bushels and
3,503 cars.

Antwerp, Belgium.—When the
Canadian Pacific steamer Mel a
arrived recently, she was given an
official welcome and a great popu-
lar demonstration as the ten thou-
sandth vessel to enter the port of
Antwerp this year. An elaborate
programme was arranged in her
honor.

Saint John.—Moose are reported
nearly three times as plentiful this
year than last in the Tobique dis-
trict, according to Burton L. Moore,
well-known guide. The rapid in-
crease of these big game animals
points to migrations into the terri-
tory. Guides and sportsmen have
not yet decided the source of the
movement.

A great service to the travellers
on the C.P.R. lines will be put into
effect with the first sailing of the
winter season of the C. P. liner
"Melita," when for the sailings of
C. P. liners from Saint John to
Europe between December 1st and
April 15th, through tourist sleeping
cars will be operated on C.P.R.
trains from Winnipeg direct to the
ship's side at the New Brunswick
port.

Desires of popularizing old
French-Canadian folk songs among
the English-speaking people of this
country, the National Council of
Education, on the initiative of Major
F. J. Ney, made recent arrange-
ments with Charles Marchand, well-
known singer, for a comprehensive
tour of the Canadian west. The folk
songs which Mr. Marchand will ren-
der in English have been specially
translated by J. Murray Gibbon,
chief of publicity of the Canadian
Pacific Railway.

Division of six miles of Canadian
Pacific Railway tracks has now
been completed and raising of three
additional miles of tracks is under
way in the Gatineau Valley, accord-
ing to word received at headquar-
ters of the company recently.
This division has occurred be-
tween Mile 8 and Mile 14, and
between the stations of Tenaga,
St. Mary, La Charite, Bennet,
and Carleton Place, well-known sum-
mer resorts in that district, while the
portion affected by the raising of
the tracks is that of Farm Point.
The work has been in progress since
April of this year.

It must amuse the gods to hear
the argument that the Filipino will
be fit for self-government when he
becomes like the citizens of the U.
S. A.

1926 Christmas Seals

The 1926 Christmas Seals, in aid of
the Muskoka and Toronto Hospitals
for Consumptives, have just been
issued. These handsome seals, of dif-
ferent designs, are put up in assorted
packets of 10, 25, 50 and 100.

The National Sanitarium Assoca-
tion is in need of funds to carry on
the work of the hospital in Muskoka
and at Woodport. Every dollar received
through the sale of Christmas Seals
is used for maintenance of patients
there.

Why not buy these seals in lieu of
presents? Not only will you get good
value in return, but your money will
be made to serve a greater end, for
it will go to help someone in distress.
Look for the double-headed Red
Cross on every packet. These others
are also good.

For sale by school children and
others at the following places: Wood-
stock, Ont. W. J. Taylor, Limited, 125
College Street, Toronto 2, Ontario.

The entire Store is a
"Merchandise Chest" of
Christmas Things worth
giving, reasonably price-
ed and good.

It is always Christmas
weather here. Welcome.

SIMCOE

FINDS PROCESS FOR CON- VERTING COAL INTO OIL

PITTSBURG, Pa.—Perfection of
the process of coal liquefaction has
made possible the transformation of
from 50 to 60 per cent of the coal
into oil by hydrogenation, under
high pressure, Dr. Friedrich Bergius
of Heidelberg, Germany, declared at
the international conference on bi-
tuminous coal.

Dr. Bergius, inventor of the process
in 1913, told distinguished sci-
entists, engineers and technologists
attending the conference from all
parts of the world, that the liquefac-
tion of coal was made economically
successful by an expenditure of "some
millions of dollars."

"One ton of bituminous coal will
yield an average of 140 gallons of
oil," he said. "Deducting the coal
consumed in the process the net yield
is 104 gallons per ton of coal. Of
this, 35 gallons consist of aromatic
compounds, suitable for 'no knock'
motor fuel, and the remainder is gas,
oil, lubricating oil and fuel oil."
The problems of high pressure
continuous feeding of coal, removal
of residue and temperature control
have been solved.

MAY PROHIBIT SALE OF BREAD

Perhaps U. S. bakers will be pad-
locked now. Bread contains alcohol,
according to tests made recently by
chemists at Cornell College, Iowa.
Sometimes it contains much more al-
cohol than the Volstead act allows—
the Cornell tests have revealed an al-
coholic content as high as 1.9 per cent
in ordinary bread from bakery and
housewives' ovens.

The kind of yeast used, the time
the bread sets, and the temperature
of baking, all affect the amount of
alcohol in the bread.

ANTI RATTLE-BITE SERUM

The dread of the rattler may soon
be greatly reduced, if not totally elim-
inated. Anti-rattlesnake-bite serum
in portable cases can now be purchas-
ed by hikers and outdoor workers.
The San Diego Zoological Society
makes a business of extracting poi-
son from the fang-sack of rattlers,
preparing the serum from it, and then
selling it a little more than cost, put
up in little cases that can be easily
carried by all who venture into rat-
tlesnake territory.

**Handicaps Have
No Effect on
Sandy's Smile**
Sandy is a cheerful sort of Scot
with a winning smile
although when you hear his story you
will wonder what is that keeps him
SAY, he was a soldier in the Great
War, he was an arm. Then
overwork knocked him out. His at-
tempts to secure a pension have fail-
ed, but not lost, the only trade
he knows is carriage-making, and
who knows is carriage-making, and
for all that, Sandy is making good
progress at the Muskoka Hospital for
Consumptives, where everything is
being done to make him well again.
For with health Sandy says he can
face the world with courage and he
will too!
Wouldn't you like to help the Mus-
koka Hospital in such work as this?
Your gift will be gratefully received.
Contributions may be sent to Hon.
W. A. Charlton, President, 125 College
Street, Toronto 2, Ontario.
