### Here and There

During the past season the Canadian Pacific Railway used on all its lines approximately 6,500,000 ties, according to a report just issued. The woods used include British Columbia fir, hemlock, tamarac, jack pine, spruce, maple and birch.

Tourist traffic in New Brunswick during the past summer left nearly \$3,000,000 in the province, an amount almost equal to the total provincial revenue, according to an estimate of the New Brunswick Tourist Association. Approximately 70,000 tourists visited the province.

One thousand British Columbia rose bushes are being shipped to Portland, Ore., "the Rose City." Portland, famous all over the continent for its roses, buys the varieties produced in British Columbia because they are the hardiest and best suited for growing in North America.

Silver production in Ontario for 1924 will not vary materially from that of 1923, judging by figures available for the first nine months of the year from the reports of several operating companies, though some increases will be shown. Production to date has amounted to about \$19,500 a day.

Caribou have been seen in very large numbers this season in the northern part of Yukon territory. Oat-timers say that the main herd must have numbered tens of thousands, while in some of the smaller herds that had broken temporarily from the main herd there were hundreds and sometimes thousands.

The very first aerial stowaway ever known was discovered recently aboard a plane in the Laurentide Air Service, Limited, operating on its Rouyn gold fields service in association with the Canadian Pacific Railway. The serious effect of the extra weight on the flying powers of the machine was so noticeable that it led to the man's discovery. As he had hidden himself with a desire to see his sick wife and child, he was not punished.

### HOCKEY PICTORIAL Second Edition

The second edition of the "Hockey Pictorial" is on the market, more complete and up-to-date than the original edition, which was received with such acclaim by followers of the great winter sport. Most favorable comments have been passed upon the publication by sports writers the continent over, and the general opinion as expressed by players and scribes is that no more comprehensive or handsome book in the sporting line was ever

printed. A feature that should possess a marked appeal not only to puck-chasers of the present, but to old timers, are the many group pictures of champion teams, dating back to the early history of hockey. The new edition not only contains the history of hockey in Canada, but covers the history of the game in the United States as well, with handsome engravings of Canadian and American teams, and is right up to the minute in every respect. Any further information pertaining to the book can be obtained by writing George King, Publisher, 84 Victoria St., Toronto, Ont.
