LARGE AUDIENCES AT PIANO RECITAL

The pupils receiving piano instruction from Miss M. MacMurchy gave a most delightful recital on Friday and Saturday, June 4th and 5th, in the schoolroom of Knox Church, Jarvis, which was beautifully decorated for the occasion. The arrangement of the flowers was very artistic. A color scheme of pink and white was carried out in lilac, lily of the valley and pink tulips, and was admired by all.

Miss MacMurchy's pupils recital has come to be an annual and much looked forward to event. This year the public showed their continued appreciation by turning out in greater numbers than ever, and the capacity of the schoolroom was taxed to the uttermost.

Rev. W. T. Brown of Knox Church, who presided, spoke briefly on the value of a musical training and the development of a love of good music in the home and community. He also referred to the wonderful success which has attended Miss MacMurchy's efforts along this line.

Friday evening was set apart for senior pupils. Their performance was of a high order and all gave a very creditable account of themselves.

The readings by Miss A. Miell and solos by Miss D. Kindree and Mr. E. Hoover lent variety and delighted a very appreciative audience.

On Saturday afternoon the juniors from 5 years old and upward came to "play their piece," and did it in

CORRESPONDENTS

NANTICOKE NEWS

Your correspondent is in receipt of a very interesting book which has just been published by J. A. Bannister, B.A., D. Paed. of the Normal School at North Bay, entitled "Early Educational History of Norfolk County." This should appeal particularly to residents of Norfolk County since the author is an old Norfolk County boy. He attended high school at Port Dover and taught for some time in this village.

Mr. Bannister has recently had the degree of "Doctor of Pedagogy" conferred upon him at the University of Toronto. We extend our sincere and hearty congratulations to Dr. Bannister both on his attaining his high degree at the University, and also on the success of his splendid book.

such dainty style, that the performance was a treat from beginning to end.

A few pupils trained by Miss Jean Oakes and Miss Dorothy Hoover also took part and acquitted themselves very creditably.

Both Friday's and Saturday's programmes were well rendered and one is surprised at the uniform excellence obtained in an enrolment of so many pupils.

We cannot speak too highly of the efficient and careful training the pupils are receiving from Miss M. MacMurchy and Jarvis and district is fortunate in having one who is such an enthusiastic and capable teacher.

WORLD'S ONLY 5 RING CIRCUS COMING TO BRANTFORD

Rumor Now Confirmed—Biggest Circus, Ringling Bros. and Barnum & Bailey Headed That Way

Yoo-hoo! Skinnay! Lookit, lookit! World's first and only five ring circus coming this way! A hundred double-length railroad cars loaded with the ten thousands wonders of the Ringling Brothers and Barnum & Bailey Combined Shows that will give performances at Brantford on June 29th.

Never has there been more than three rings in the past. Now the famous brother showmen have fixed it so folks at the ends of the tent can see just as much as those who sit near the middle. Imagine five big circus rings in a row with stages set in between. That means that five companies of performing horses, 24 in a group, are presented at one time. The same is true with the elephant actors—five herds all performing stunts at one time.

Big acts are the rule in the great new circus of 1926. Aside from the five troupes of liberty horses, two hundred others, each ridden by an expert in costume execute drills and splendid maneuvers on the mammoth hippodrome track. Thirty additional ones are of the high-school type, while a score of superb thoroughbreds leap hurdles and barriers of record height. The number of trained horses alone carried for this season's program reaches the astounding total of three hundred and fifty.

The equines but share honors in the 22 displays. In addition to them are the 800 aerialists, bareback champions, gymnasts and high-wire artists. These embrace the world's foremost men and women stars including a host of recently imported foreign features. Some of these number families of 9, 11 and 15 in an act. A hundred of the world's funniest clowns enliven the more than two hours of circus program. The tournament is the most dazzling yet devised. The menagerie has been increased to more than 1000 rare animals. The tent which houses them is almost as large as the big-top of other seasons. The 1926 main-tent seats over 15,000 people.
