HERE'S WHY THE 1926 CIRCUS IS THE BIGGEST

Ringling Bros. Enlarge Greatest Show On Earth to Dedicate Mammoth New York Edifice

A circus so big that it requires two added rings, eight stages, a wider hippodrome track and a 700-foot-long big top to display its marvels is now headed this way. It is the Ringling Brothers and Barnum & Bailey Combined Shows, to give performances at Brantford on June 29th.

The five rings now used have been made necessary to present the added attractions got together in the spring to celebrate the combined shows' first appearance in New York's New Madison Square Garden. This edifice is the biggest ever built for circus purposes. To fittingly dedicate it the Ringling Brothers themselves spent months in Europe mobilizing the biggest circus in history. This same show that for weeks entertained New York's millions is now on tour under canvas.

The tournament is as brilliant as in the past but has been enlarged by the addition of such novelties as zebras and llamas broken to harness and hitched to gem-studded floats. Wee baby elephants ride at the tops of allegorical cars. The menagerie of more than a thousand animals embraces such features as thirteen elephant youngsters with the smallest stationed side by side with the biggest pachyderms in captivity. Another importation is the largest and handsomest tiger of which there is record.

Performing horse acts are now presented in quintet—a troupe in each of the five rings. Those elephants who are performers appear in similar formation—five herds at one time. The number of men and women acrobats, bareback riders, gymnasts and high wire walkers has been increased to 300. There are 350 trained horses, 200 of which appear in a single display. One hundred double length cars are required to handle this gigantic amusement enterprise.

"Rod and Gun" is published monthly by W. J. Taylor, Limited, Woodstock, Ontario.
