HERE'S WHY THE 1926 CIRCUS IS THE BIGGEST

Ringling Bros. Enlarge Greatest Show
On Earth to Dedicate Mammoth
New York Edifice

A circus so big that it requires two
added rings, eight stages, a wider
hippodrome track and a 700-foot-long
big top to display its marvels is now
headed this way. It is the Ringling
Brothers and Barnum & Bailey Com-
bined Shows, to give performances at
Brantford on June 29th.

The five rings now used have been
made necessary to present the added
attractions got together in the spring
to celebrate the combined shows' first
appearance in New York's New Madis-
on Square Garden. This edifice is
the biggest ever built for circus pur-
poses. To fittingly dedicate it the
Ringling Brothers themselves spent
months in Europe mobilizing the big-
gest circus in history. This same
show that for weeks entertained New
York's millions is now on tour under
canvases.

The tournament is as brilliant as
in the past but has been enlarged by
the addition of such novelties as ze-
bras and llamas broken to harness
and hitched to gem-studded floats.
Wee baby elephants ride at the tops
of allegorical cars. The menagerie
of more than a thousand animals em-
braces such features as thirteen ele-
phant youngsters with the smallest
stationed side by side with the big-
gest pachyderms in captivity. "An-
other importation is the largest and
handsomest tiger of which there is
record."

Performing horse acts are now pre-
sented in quintet—a troupe in each
of the five rings. Those elephants
who are performers appear in similar
formation—five herds at one time.
The number of men and women aeri-
alists, bareback riders, gymnasts and
high-wire performers has been in-
creased to 800. There are 350 trained
horses, 200 of which appear in a sin-
gle display. One hundred double
length cars are required to handle
this gigantic amusement enterprise.
