SAVE PIECE OF MACHINERY, THIS MELLOTTE! OUGHT TO LAST A LIFETIME.

PHONE HAS—AND IT'S STILL SAVING EXTRA CREAM FOR ME, EVERY MILKING.

## You're pouring profits away with your skimmed milk

CREAM that in butter fat nets you 40c a pound, may be pouring into the pig trough or calf feed. Dollars that could be extra profits you're wasting away—because you haven't taken the time to find out about the Melotte Separator. A Melotte will take all the rich cream from the milk and save you dollars every week from your herd.

Surely it's worth the little time and trouble it takes to fill out this coupon and learn how you can effect such big savings.

No other separator is constructed like the original Melotte. It alone has the suspended bowl that is always in balance. Farmers in every section of Canada tell us it's the easiest to turn and that it never wears out. Many say

they have used the same Melotte for twenty-five years or more, and they still get that extra cream which they would have lost if they used an inferior machine. You're a thrifty farmer—you work hard to make money—all we ask is that you send in the coupon so that we can tell you in further detail how the Melotte will add to your butter profits. Save enough in a year to pay for itself. This very minute fill out the coupon while it's on your mind. Mail us your name and, without any obligation to you, we will send you full information about the original Melotte separator.
