WOMAN KILLED WHEN TRAIN HITS TRUCK

Husband Seriously Injured on Grade Crossing Near Courtland.

A despatch from Tillsonburg, Ont., eays:--Mrs. Charles W. Graydon, was instantly killed and her husband seriously injured at noon on Thursday, when the truck in which they were riding was struck by the C.N.R. passenger train at Courtland. Mrs. Graydon was thrown about thirty yards and died immediately, while Mr. Graydon received severe cuts and badly shaken up and it is not known yet whether he sustained internal injuries or not. The truck was demolished.

This crossing, right in the heart of the village, has proven a death trap for several years, as there has been many fatalities on this spot. Apparently Mr. Graydon, who was driving, The British ambassador to Washingdid not see the train approaching, al ton, who spoke in Toronto at the

CANADA'S FIRE LOSS \$40,712.172 IN YEAR

Equals \$4.39 Per Capita as Compared With 83 Cents in England.

A despatch from Ottawa says: Canada's fire loss for the year 1945 was \$40,712,172, according to figures provided in his report by J. Grove Smith, Dominion fire commissioner and hon, secretary-treasurer of the Association of Canadian Fire Marshals, which held its annual meeting

There were 31,757 fires during the year, the largest of which was that in the lumber yards at Hawkesbury. the loss of which is officially placed of \$1,400,000.

"In Great Britain," said MF. Grove Smith during the course of his report "there is a fire loss of 83 cents pe capita. This and the increase by \$700 000 over the previous year caused the widest concern in the Old Country. and yet in Canada the \$40,000,000 annual loss, or \$4.39 per capita of the population, still appears to cause very little concern."

The cost of fire protection to the municipalities, Grove Smith stated. was \$25,103,246. Whilst the total cost to the public of Canada was \$102,450,-816. During the year 374 deaths were caused by fire and 1,713 severe in-
